## FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.  
For the year ended December 31, 2016  
OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

For the transition period from \_\_\_\_\_ to \_\_\_\_\_  
Commission file number 001-35258

# DUNKIN' BRANDS GROUP, INC.

(Exact name of registrant as specified in its charter)

Delaware  
(State or other jurisdiction of  
incorporation or organization)

20-4145825  
(I.R.S. Employer  
Identification No.)

130 Royall Street  
Canton, Massachusetts 02021  
(Address of principal executive offices) (zip code)  
(781) 737-3000  
(Registrants' telephone number, including area code)

### Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Common Stock, \$0.001 par value per share	The NASDAQ Global Select Market

Securities registered pursuant to Section 12(g) of the Act: NONE

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer

Non-accelerated filer  Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

The aggregate market value of the voting and non-voting stock of the registrant held by non-affiliates of Dunkin' Brands Group, Inc. computed by reference to the closing price of the registrant's common stock on the NASDAQ Global Select Market as of June 25, 2016, was approximately \$3.88 billion.

As of February 17, 2017, 91,937,296 shares of common stock of the registrant were outstanding.

### DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's definitive Proxy Statement for the 2017 Annual Meeting of Stockholders to be filed with the Securities and Exchange Commission pursuant to Regulation 14A not later than 120 days after the end of the fiscal year covered by this Form 10-K, are incorporated by reference in Part III, Items 10-14 of this Form 10-K.

## Forward-Looking Statements

This report on Form 10-K, as well as other written reports and oral statements that we make from time to time, includes statements that express our opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results and therefore are, or may be deemed to be, “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Generally these statements can be identified by the use of words such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “feel,” “forecast,” “intend,” “may,” “plan,” “potential,” “project,” “should” or “would” and similar expressions intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. These forward-looking statements include all matters that are not historical facts.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Our actual results and the timing of certain events could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including, but not limited to, those set forth under “Risk Factors” and elsewhere in this report and in our other public filings with the Securities and Exchange Commission, or SEC.

Although we base these forward-looking statements on assumptions that we believe are reasonable when made, we caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and the development of the industry in which we operate may differ materially from those made in or suggested by the forward-looking statements contained in this report. In addition, even if our results of operations, financial condition and liquidity, and the development of the industry in which we operate, are consistent with the forward-looking statements contained in this report, those results or developments may not be indicative of results or developments in subsequent periods.

Given these risks and uncertainties, you are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. We undertake no obligation to update any forward-looking statements or to publicly announce the results of any revisions to any of those statements to reflect future events or developments.

## PART I

### Item 1. Business.

#### Our Company

We are one of the world's leading franchisors of quick service restaurants ("QSRs") serving hot and cold coffee and baked goods, as well as hard serve ice cream. We franchise restaurants under our Dunkin' Donuts and Baskin-Robbins brands. With over 20,000 points of distribution in more than 60 countries worldwide, we believe that our portfolio has strong brand awareness in our key markets.

We believe that our 100% franchised business model offers strategic and financial benefits. For example, because we generally do not own or operate restaurants, our Company is able to focus on menu innovation, marketing, franchisee coaching and support, and other initiatives to drive the overall success of our brand. Financially, our franchised model allows us to grow our points of distribution and brand recognition with limited capital investment by us.

We operate our business in four segments: Dunkin' Donuts U.S., Dunkin' Donuts International, Baskin-Robbins International and Baskin-Robbins U.S. In fiscal year 2016, our Dunkin' Donuts segments generated revenues of \$630.9 million, or 79% of our total segment revenues, of which \$608.0 million was in the U.S. segment and \$22.9 million was in the international segment. In fiscal year 2016, our Baskin-Robbins segments generated revenues of \$166.5 million, of which \$119.0 million was in the international segment and \$47.5 million was in the U.S. segment. As of December 31, 2016, there were 12,258 Dunkin' Donuts points of distribution, of which 8,828 were in the U.S. and 3,430 were international, and 7,822 Baskin-Robbins points of distribution, of which 5,284 were international and 2,538 were in the U.S. See note 12 to our consolidated financial statements included herein for segment information.

We generate revenue from four primary sources: (i) royalty income and fees associated with franchised restaurants; (ii) rental income from restaurant properties that we lease or sublease to franchisees; (iii) sales of ice cream and other products to franchisees in certain international markets; and (iv) other income including fees for the licensing of the Dunkin' Donuts brand for products sold in certain retail channels (such as Dunkin' K-Cup® pods and retail packaged coffee), the licensing of the rights to manufacture Baskin-Robbins ice cream products to a third party for sale to U.S. franchisees, refranchising gains, transfer fees from franchisees, and online training fees. Prior to completing the sale of all company-operated restaurants in fiscal year 2016, we also generated revenue from retail store sales at our company-operated restaurants

#### Our history

Both of our brands have a rich heritage dating back to the 1940s, when Bill Rosenberg founded his first restaurant, subsequently renamed Dunkin' Donuts, and Burt Baskin and Irv Robbins each founded a chain of ice cream shops that eventually combined to form Baskin-Robbins. Baskin-Robbins and Dunkin' Donuts were individually acquired by Allied Domecq PLC in 1973 and 1989, respectively. The brands were organized under the Allied Domecq Quick Service Restaurants subsidiary, which was renamed Dunkin' Brands, Inc. in 2004. Allied Domecq was acquired in July 2005 by Pernod Ricard S.A. In March of 2006, we were acquired by investment funds affiliated with Bain Capital Partners, LLC, The Carlyle Group, and Thomas H. Lee Partners, L.P. through a holding company that was incorporated in Delaware on November 22, 2005, and was later renamed Dunkin' Brands Group, Inc. In July 2011, we completed our initial public offering (the "IPO"). Upon the completion of the IPO, our common stock became listed on the NASDAQ Global Select Market under the symbol "DNKN."

#### Our brands

##### *Dunkin' Donuts-U.S.*

Dunkin' Donuts is a leading U.S. QSR concept, and is the QSR market leader in donut and bagel categories for servings. Dunkin' Donuts is also a national QSR leader for breakfast sandwich servings. Since the late 1980s, Dunkin' Donuts has transformed itself into a coffee and beverage-based concept, and is a national QSR leader in servings in the hot regular/decaf/flavored coffee category and the iced regular/decaf/flavored coffee category, with sales of over 1.7 billion servings of total hot and iced coffee annually. Over the last ten fiscal years, Dunkin' Donuts U.S. systemwide sales have grown at a 6.1% compound annual growth rate and total Dunkin' Donuts U.S. points of distribution grew from 5,385 to 8,828. As of December 31, 2016, approximately 86% of these points of distribution are traditional restaurants consisting of end-cap, in-line and stand-alone restaurants, many with drive-thrus, and gas and convenience locations. In addition, we have alternative points of distribution ("APODs"), such as full- or self-service kiosks in offices, hospitals, colleges, airports, grocery stores, wholesale clubs, and other smaller-footprint properties. We believe that Dunkin' Donuts continues to have significant growth potential in the U.S. given its strong brand awareness and variety of restaurant formats. For fiscal year 2016, the Dunkin' Donuts franchise system generated U.S. systemwide sales of \$8.2 billion, which accounted for approximately 76% of our global systemwide sales, and had 8,828 U.S. points of distribution (with more than 50% of our restaurants having drive-thrus) at period end.

### *Baskin-Robbins-U.S.*

Baskin-Robbins is one of the leading QSR chains in the U.S. for servings of hard-serve ice cream and develops and sells a full range of frozen ice cream treats such as cones, cakes, sundaes, and frozen beverages. Baskin-Robbins enjoys 89% aided brand awareness in the U.S., and we believe the brand is known for its innovative flavors, popular “Birthday Club” program and ice cream flavor library of over 1,300 different offerings. Additionally, our Baskin-Robbins U.S. segment has experienced comparable store sales growth in each of the last six fiscal years. We believe we can capitalize on the brand’s strengths and continue generating renewed excitement for the brand. Baskin-Robbins’ “31 flavors,” offering consumers a different flavor for each day of the month, is recognized by ice cream consumers nationwide. For fiscal year 2016, the Baskin-Robbins franchise system generated U.S. systemwide sales of approximately \$603.6 million, which accounted for approximately 6% of our global systemwide sales. Over the last ten fiscal years, total Baskin-Robbins U.S. points of distribution declined from 2,976 to 2,538 as of December 31, 2016.

### ***International operations***

Our international business is primarily conducted via joint ventures and country or territorial license arrangements with “master franchisees,” who both operate and sub-franchise the brand within their licensed areas. Increasingly, in certain markets, we are migrating to a model with multiple franchisees in one country, including markets in the United Kingdom, Germany, China, and Mexico. Our international franchise system, predominantly located across Asia and the Middle East, generated systemwide sales of \$2.0 billion for fiscal year 2016, which represented approximately 19% of Dunkin’ Brands’ global systemwide sales. As of December 31, 2016, Dunkin’ Donuts had 3,430 international points of distribution in 44 countries (excluding the U.S.), which grew from 1,908 points of distribution as of December 31, 2006, and represented \$707.2 million of international systemwide sales for fiscal year 2016. As of December 31, 2016, Baskin-Robbins had 5,284 international points of distribution in 51 countries (excluding the U.S.), which grew from 2,917 points of distribution as of December 31, 2006, and represented approximately \$1.3 billion of international systemwide sales for fiscal year 2016. We believe that we have opportunities to continue to grow our Dunkin’ Donuts and Baskin-Robbins concepts internationally in new and existing markets through brand and menu differentiation.

### ***Overview of franchising***

Franchising is a business arrangement whereby a service organization, the franchisor, grants an operator, the franchisee, a license to sell the franchisor’s products and services and use its system and trademarks in a given area, with or without exclusivity. In the context of the restaurant industry, a franchisee pays the franchisor for its concept, strategy, marketing, operating system, training, purchasing power, and brand recognition. Franchisees are solely responsible for the day-to-day operations in each franchised restaurant, including but not limited to all labor and employment decisions, such as hiring, promoting, discharging, scheduling, and setting wages, benefits, and all other terms of employment with respect to their employees.

### ***Franchisee relationships***

We seek to maximize the alignment of our interests with those of our franchisees. For instance, we do not derive additional income through serving as the supplier to our domestic franchisees. In addition, because the ability to execute our strategy is dependent upon the strength of our relationships with our franchisees, we maintain a multi-tiered advisory council system to foster an active dialogue with franchisees. The advisory council system provides feedback and input on all major brand initiatives and is a source of timely information on evolving consumer preferences, which assists new product introductions and advertising campaigns.

Unlike certain other QSR franchise systems, we generally do not guarantee our franchisees’ financing obligations. From time to time, at our discretion, we may offer voluntary financing to existing franchisees for specific programs such as the purchase of specialized equipment. We intend to continue our past practice of limiting our guarantee of financing for franchisees.

### ***Franchise agreement terms***

For each franchised restaurant in the U.S., we enter into a franchise agreement covering a standard set of terms and conditions. A prospective franchisee may elect to open either a single-branded distribution point or a multi-branded distribution point. In addition, and depending upon the market, a franchisee may purchase the right to open a franchised restaurant at one or multiple locations (via a store development agreement, or “SDA”). When granting the right to operate a restaurant to a potential franchisee, we will generally evaluate the potential franchisee’s prior food-service experience, history in managing profit and loss operations, financial history, and available capital and financing. We also evaluate potential new franchisees based on financial measures, including liquid asset and net worth minimums for each brand.

The typical franchise agreement in the U.S. has a 20-year term. The majority of our franchisees have entered into prime leases with a third-party landlord. The Company is the lessee on certain land leases (the Company leases the land and erects a building) or improved leases (lessor owns the land and building) covering restaurants and other properties. In addition, the Company has leased and subleased land and buildings to other franchisees. When we sublease properties to franchisees, the sublease generally follows the prime lease term. Our leases to franchisees are typically for an overall term of 20 years.

We help domestic franchisees select sites and develop restaurants that conform to the physical specifications of our typical restaurant. Each domestic franchisee is responsible for selecting a site, but must obtain site approval from us based on accessibility, visibility, proximity to other restaurants, and targeted demographic factors including population density and traffic patterns. Additionally, the franchisee must also refurbish and remodel each restaurant periodically (typically every five and ten years, respectively).

We currently require each domestic franchisee's managing owner and/or designated manager to complete initial and ongoing training programs provided by us, including minimum periods of classroom and on-the-job training. We monitor quality and endeavor to ensure compliance with our standards for restaurant operations through restaurant visits in the U.S. In addition, a restaurant operation review is conducted throughout our domestic operations at least once per year. To complement these procedures, we use "Guest Satisfaction Surveys" in the U.S. to assess customer satisfaction with restaurant operations, such as product quality, restaurant cleanliness, and customer service.

#### ***Store development agreements***

We grant domestic franchisees the right to open one or more restaurants within a specified geographic area pursuant to the terms of SDAs. An SDA specifies the number of restaurants and the mix of the brands represented by such restaurants that a franchisee is obligated to open. Each SDA also requires the franchisee to meet certain milestones in the development and opening of the restaurant and, if the franchisee meets those obligations, we agree, during the term of such SDA, not to operate or franchise new restaurants in the designated geographic area covered by such SDA. In addition to an SDA, a franchisee signs a separate franchise agreement for each restaurant developed under such SDA.

#### ***Master franchise model and international arrangements***

Master franchise arrangements are used on a limited basis domestically (the Baskin-Robbins brand has one "territory" franchise agreement for certain Midwestern markets) but more widely internationally for both the Baskin-Robbins brand and the Dunkin' Donuts brand. In addition, international arrangements include joint venture agreements in South Korea (both brands), Australia (Baskin-Robbins brand), and Japan (Baskin-Robbins brand), as well as single unit franchises, such as in Canada (both brands). We utilize a multi-franchise system in certain markets, including in the United Kingdom, Germany, China, and Mexico. The Company also had an interest in a joint venture in Spain for the Dunkin' Donuts brand, which it sold during the fourth quarter of fiscal year 2016.

Master franchise agreements are the most prevalent international relationships for both brands. Under these agreements, the applicable brand grants the master franchisee the exclusive right to develop and operate a certain number of restaurants within a particular geographic area, such as selected cities, one or more provinces or an entire country, pursuant to a development schedule that defines the number of restaurants that the master franchisee must open annually. Those development schedules customarily extend for five to ten years. If the master franchisee fails to perform its obligations, the exclusivity provision of the agreement terminates and additional franchise agreements may be put in place to develop restaurants.

The master franchisee is generally required to pay an upfront market development fee and an upfront initial franchise fee for each developed restaurant, and, for the Dunkin' Donuts brand, royalties. For the Baskin-Robbins brand, the master franchisee is typically required to purchase ice cream from Baskin-Robbins or an approved supplier. In most countries, the master franchisee is also required to spend a certain percentage of gross sales on advertising in such foreign country in order to promote the brand. Generally, the master franchise agreement serves as the franchise agreement for the underlying restaurants operating pursuant to such model. Depending on the individual agreement, we may permit the master franchisee to subfranchise within its territory.

Within each of our master franchisee and joint venture organizations, training facilities have been established by the master franchisee or joint venture based on our specifications. From those training facilities, the master franchisee or joint venture trains future staff members of the international restaurants. Our master franchisees and joint venture entities also periodically send their primary training managers to the U.S. for re-certification.

### Franchise fees

In the U.S., once a franchisee is approved, a restaurant site is approved, and a franchise agreement is signed, the franchisee will begin to develop the restaurant. Franchisees pay us an initial franchise fee for the right to operate a restaurant for one or more franchised brands. The franchisee is required to pay all or part of the initial franchise fee upfront upon execution of the franchise agreement, regardless of when the restaurant is actually opened. Initial franchise fees vary by brand, type of development agreement and geographic area of development, but generally range from \$25,000 to \$100,000, as shown in the table below.

<u>Restaurant type</u>	<u>Initial franchise fee*</u>
Dunkin' Donuts Single-Branded Restaurant	\$ 40,000-90,000
Baskin-Robbins Single-Branded Restaurant	\$ 25,000
Dunkin' Donuts/Baskin-Robbins Multi-Branded Restaurant	\$ 50,000-100,000

\* Fees effective as of January 1, 2017 and excludes alternative points of distribution

In addition to the payment of initial franchise fees, our U.S. Dunkin' Donuts brand franchisees, U.S. Baskin-Robbins brand franchisees, and our international Dunkin' Donuts brand franchisees pay us royalties on a percentage of the gross sales made from each restaurant. In the U.S., the majority of our franchise agreement renewals and the vast majority of our new franchise agreements require our franchisees to pay us a royalty of 5.9% of gross sales. During fiscal year 2016, our effective royalty rate in the Dunkin' Donuts U.S. segment was approximately 5.5% and in the Baskin-Robbins U.S. segment was approximately 4.8%. The arrangements for Dunkin' Donuts in the majority of our international markets require royalty payments to us of 5.0% of gross sales. However, many of our larger international partners, including our South Korean joint venture partner, have agreements at a lower rate and/or based on wholesale sales to restaurants, resulting in an effective royalty rate in the Dunkin' Donuts international segment in 2016 of approximately 2.4%. We typically collect royalty payments on a weekly basis from our domestic franchisees. For the Baskin-Robbins brand in international markets, we do not generally receive royalty payments from our franchisees; instead we earn revenue from such franchisees as a result of our sale of ice cream products to them, and in 2016 our effective royalty rate in this segment was approximately 0.5%. In certain instances, we supplement and modify certain SDAs, and franchise agreements entered into pursuant to such SDAs with certain incentives that may (i) reduce or eliminate the initial franchise fee associated with a franchise agreement; (ii) reduce the royalties for a specified period of the term of the franchise agreements depending on the details related to each specific incentive program; (iii) reimburse the franchisee for certain local marketing activities in excess of the minimum required; and (iv) provide certain development incentives. To qualify for any or all of these incentives, the franchisee must meet certain requirements, each of which are set forth in an addendum to the SDA and the franchise agreement. We believe these incentives will lead to accelerated development in our less mature markets.

Franchisees in the U.S. also pay advertising fees to the brand-specific advertising funds administered by us. Franchisees make weekly contributions, generally 5% of gross sales, to the advertising funds. Franchisees may elect to increase the contribution to support general brand-building efforts or specific initiatives. The advertising funds for the U.S., which received \$430.3 million in contributions from franchisees in fiscal year 2016, are almost exclusively franchisee-funded and cover all expenses related to marketing, research and development, innovation, advertising and promotion, including market research, production, advertising costs, public relations, and sales promotions. We use no more than 20% of the advertising funds to cover the administrative expenses of the advertising funds and for other strategic initiatives designed to increase sales and to enhance the reputation of the brands. As the administrator of the advertising funds, we determine the content and placement of advertising, which is done through print, radio, television, online, billboards, sponsorships, and other media, all of which is sourced by agencies. Under certain circumstances, franchisees are permitted to conduct their own local advertising, but must obtain our prior approval of content and promotional plans.

### Other franchise related fees

We lease and sublease properties to franchisees in the U.S. and in Canada, generating net rental fees when the cost charged to the franchisee exceeds the cost charged to us. For fiscal year 2016, we generated 12.2%, or \$101.0 million, of our total revenue from rental fees from franchisees and incurred related occupancy expenses of \$57.4 million.

We also receive a license fee from Dean Foods Co. ("Dean Foods") as part of an arrangement whereby Dean Foods manufactures and distributes ice cream and other frozen products to Baskin-Robbins franchisees in the U.S. In connection with this agreement, Dunkin' Brands receives a fee based on net sales of covered products. For fiscal year 2016, we generated 1.3%, or \$10.8 million, of our total revenue from license fees from Dean Foods.

We distribute ice cream products to Baskin-Robbins franchisees who operate Baskin-Robbins restaurants located in certain foreign countries and receive revenue associated with those sales. For fiscal year 2016, we generated 13.9%, or \$114.9 million, of our total revenue from the sale of ice cream products to franchisees primarily in certain foreign countries.

Other revenue sources include online training fees, licensing fees earned from the sale of K-Cup® pods, retail packaged coffee, and other branded products, net refranchising gains, other one-time fees such as transfer fees, and late fees. For fiscal year 2016, we generated 4.9%, or \$40.7 million, of our total revenue from these other sources.

### International operations

Our international business is organized by brand and by country and/or region. Operations are primarily conducted through master franchise agreements with local operators. In certain instances, the master franchisee may have the right to sub-franchise. We utilize a multi-franchise system in certain markets, including the United Kingdom, Germany, China and Mexico. In addition, we have a joint venture with a local, publicly-traded company for the Baskin-Robbins brand in Japan, and joint ventures with local companies in Australia for the Baskin-Robbins brand and in South Korea for both the Dunkin' Donuts and Baskin-Robbins brands. The Company also had an interest in a joint venture in Spain for the Dunkin' Donuts brand, which it sold during the fourth quarter of fiscal year 2016. By teaming with local operators, we believe we are better able to adapt our concepts to local business practices and consumer preferences. We have had an international presence since 1961 when the first Dunkin' Donuts restaurant opened in Canada. As of December 31, 2016, there were 5,284 Baskin-Robbins restaurants in 51 countries outside the U.S. and 3,430 Dunkin' Donuts restaurants in 44 countries outside the U.S. Baskin-Robbins points of distribution represent the majority of our international presence and accounted for approximately 65% of international systemwide sales.

Our key markets for both brands are predominantly based in Asia and the Middle East, which accounted for approximately 70% and 17%, respectively, of international systemwide sales for fiscal year 2016. For fiscal year 2016, \$2.0 billion of total systemwide sales were generated by restaurants located in international markets, which represented approximately 19% of total systemwide sales, with the Dunkin' Donuts brand accounting for \$707.2 million and the Baskin-Robbins brand accounting for \$1.3 billion of our international systemwide sales. For the same period, our revenues from international operations totaled \$141.9 million, with the Baskin-Robbins brand generating approximately 84% of such revenues.

#### Overview of key markets

As of December 31, 2016, the top foreign countries and regions in which the Dunkin' Donuts brand and/or the Baskin-Robbins brand operated were:

Country/Region	Type	Franchised brand(s)	Number of restaurants
South Korea	Joint Venture	Dunkin' Donuts	775
		Baskin-Robbins	1,288
Japan	Joint Venture	Baskin-Robbins	1,179
Middle East	Master Franchise Agreements	Dunkin' Donuts	501
		Baskin-Robbins	855

#### South Korea

Restaurants in South Korea accounted for approximately 36% of total systemwide sales from international operations for fiscal year 2016. Baskin-Robbins accounted for 67% of such sales. In South Korea, we conduct business through a 33.3% ownership stake in a combination Dunkin' Donuts brand/Baskin-Robbins brand joint venture, with South Korean shareholders owning the remaining 66.7% of the joint venture. The joint venture acts as the master franchisee for South Korea, sub-franchising the Dunkin' Donuts and Baskin-Robbins brands to franchisees. The joint venture also manufactures and supplies restaurants located in South Korea with ice cream, donuts, and coffee products.

#### Japan

Restaurants in Japan accounted for approximately 21% of total systemwide sales from international operations for fiscal year 2016, 100% of which came from Baskin-Robbins. We conduct business in Japan through a 43.3% ownership stake in a Baskin-Robbins brand joint venture. Our partner also owns a 43.3% interest in the joint venture, with the remaining 13.4% owned by public shareholders. The joint venture primarily manufactures and sells ice cream to restaurants in Japan and acts as master franchisee for the country.

### *Middle East*

The Middle East represents another key region for us. Restaurants in the Middle East accounted for approximately 17% of total systemwide sales from international operations for fiscal year 2016. Baskin-Robbins accounted for approximately 68% of such sales. We conduct operations in the Middle East through master franchise arrangements.

### **Industry overview**

According to The NPD Group/CREST® (“CREST®”), the QSR segment of the U.S. restaurant industry accounted for approximately \$282 billion of the total \$443 billion restaurant industry sales in the U.S. for the twelve months ended December 31, 2016. The U.S. restaurant industry is generally categorized into segments by price point ranges, the types of food and beverages offered, and service available to consumers. QSR is a restaurant format characterized by counter or drive-thru ordering and limited, or no, table service. QSRs generally seek to capitalize on consumer desires for quality and convenient food at economical prices.

Our Dunkin’ Donuts brand competes in the QSR segment categories and subcategories that include coffee, donuts, muffins, bagels, and breakfast sandwiches. In addition, in the U.S., our Dunkin’ Donuts brand has historically focused on the breakfast daypart, which we define to include the portion of each day from 5:00 a.m. until 11:00 a.m. While, according to CREST® data, the compound annual growth rate for total QSR daypart visits in the U.S. was 1% over the five-year period ended December 31, 2016, the compound annual growth rate for QSR visits in the U.S. during the morning meal daypart was 2% over the same five-year period. There can be no assurance that such growth rates will be sustained in the future.

For the twelve months ended December 31, 2016, there were sales of over 8 billion restaurant servings of coffee in the U.S., 86% of which were attributable to the QSR segment, according to CREST® data. According to CREST®, total coffee servings at QSR have grown at a 4% compound annual rate for the five-year period ending December 31, 2016. Over the years, our Dunkin’ Donuts brand has evolved into a predominantly coffee-based concept, with approximately 58% of Dunkin’ Donuts’ U.S. systemwide sales for fiscal year 2016 generated from coffee and other beverages. We believe QSRs, including Dunkin’ Donuts, are positioned to capture additional coffee market share through an increased focus on coffee offerings.

Our Baskin-Robbins brand competes primarily in QSR segment categories and subcategories that include hard-serve ice cream as well as those that include soft serve ice cream, frozen yogurt, shakes, malts, floats, and cakes. While both of our brands compete internationally, approximately 68% of Baskin-Robbins restaurants are located outside of the U.S. and represent the majority of our total international sales and points of distribution.

### **Competition**

We compete primarily in the QSR segment of the restaurant industry and face significant competition from a wide variety of restaurants, convenience stores, and other outlets that provide consumers with coffee, baked goods, sandwiches, and ice cream on an international, national, regional, and local level. We believe that we compete based on, among other things, product quality, restaurant concept, service, convenience, value perception, and price. Our competition continues to intensify as competitors increase the breadth and depth of their product offerings, particularly during the breakfast daypart, and open new units. Although new competitors may emerge at any time due to the low barriers to entry, our competitors include: 7-Eleven, Burger King, Cold Stone Creamery, Cumberland Farms, Dairy Queen, McDonald’s, Panera Bread, Quick Trip, Starbucks, Subway, Taco Bell, Tim Hortons, WaWa, and Wendy’s, among others. Additionally, we compete with QSRs, specialty restaurants, and other retail concepts for prime restaurant locations and qualified franchisees.

### **Licensing**

We derive licensing revenue from agreements with Dean Foods for domestic ice cream sales, with The J.M. Smucker Co. (“Smuckers”) for the sale of packaged coffee in certain retail outlets (primarily grocery retail), and with Keurig Green Mountain, Inc. (“KGM”) and Smuckers for sale of Dunkin’ K-Cup® pods in certain retail outlets (primarily grocery retail), as well as from other licensees. For the 52 weeks ending December 25, 2016, the Dunkin’ Donuts branded 12 oz. original blend coffee, which is distributed by Smuckers, was the #1 stock-keeping unit nationally in the premium coffee category. For the 52 weeks ending December 25, 2016, sales of our 12 oz. original blend, as expressed in total equivalent units and dollar sales, were double that of the next closest competitor. Additionally, for the 52 weeks ending December 25, 2016, the 10 count carton of our original blend K-Cup® pods, also distributed by Smuckers, was the #1 stock-keeping unit nationally in the K-Cup® pod category. Through December 25, 2016, we have sold more than 550 million Dunkin’ K-Cup® pods in grocery outlets since launch in May 2015. With the introduction of Dunkin’ K-Cup® pods into grocery outlets, more than 2.4 billion cups of Dunkin’ Donuts coffee were sold through grocery outlets during calendar year 2016. In early 2017, the Company launched Dunkin’ Donuts branded ready-to-drink (“RTD”) bottled iced coffee for sale in grocery, convenience stores, and mass merchandisers, as well as inside Dunkin’ Donuts restaurants, across the U.S., through an agreement with The Coca-Cola Company.

## **Marketing**

We coordinate domestic advertising and marketing at the national and local levels through our administration of brand specific advertising funds. The goals of our marketing strategy include driving comparable store sales and brand differentiation, increasing our total coffee and beverage sales, protecting and growing our morning daypart sales, and growing our afternoon daypart sales. Generally, our domestic franchisees contribute 5% of weekly gross retail sales to fund brand specific advertising funds. The funds are used for various national and local advertising campaigns including print, radio, television, online, mobile, loyalty, billboards, and sponsorships. Over the past ten years, our U.S. franchisees have invested approximately \$2.6 billion on advertising to increase brand awareness and restaurant performance across both brands. Additionally, we have various pricing strategies, so that our products appeal to a broad range of customers. In August 2012, we launched the Dunkin' Donuts mobile application for payment and gifting, which built the foundation for one-to-one marketing with our customers. In January 2014, we launched a new DD Perks® Rewards loyalty program nationally, which is fully integrated with the Dunkin' Donuts mobile application and allows us to engage our customers in these one-to-one marketing interactions. In June 2016, we continued to leverage digital technologies to drive customer loyalty and enhance the restaurant experience through the launch of On-the-Go mobile ordering for our DD Perks® members, which enables users to order ahead and speed to the front of the line in restaurants. As of December 31, 2016 our DD Perks® Rewards loyalty program had over 6 million members.

## **The supply chain**

### *Domestic*

We do not typically supply products to our domestic franchisees. As a result, with the exception of licensing fees paid by Dean Foods on domestic ice cream sales, we do not typically derive revenues from product distribution. Our franchisees' suppliers include Rich Products Corp., Dean Foods, The Coca-Cola Company, and KGM. In addition, our franchisees' primary coffee roasters currently are New England Tea & Coffee Co., Inc., Mother Parkers Tea & Coffee Inc., S&D Coffee, Inc., and Massimo Zanetti Beverage USA, Inc., and their primary donut mix suppliers currently are Continental Mills and Pennant Ingredients Inc. We periodically review our relationships with licensees and approved suppliers and evaluate whether those relationships continue to be on competitive or advantageous terms for us and our franchisees.

### *Purchasing*

Purchasing for the Dunkin' Donuts brand is facilitated by National DCP, LLC (the "NDCP"), which is a Delaware limited liability company operated as a cooperative owned by its franchisee members. The NDCP is managed by a staff of supply chain professionals who report directly to the NDCP's board of directors. The NDCP has approximately 1,500 employees including executive leadership, sourcing professionals, warehouse staff, and drivers. The NDCP board of directors has eight voting franchisee members, one NDCP non-voting member, and one independent non-voting member. In addition, our Chief Financial Officer is a voting member of the NDCP board. The NDCP engages in purchasing, warehousing, and distribution of food and supplies on behalf of participating restaurants and some international markets. The NDCP program provides franchisee members nationwide the benefits of scale while fostering consistent product quality across the Dunkin' Donuts brand. We do not control the NDCP and have only limited contractual rights associated with managing that franchisee-owned purchasing and distribution cooperative.

### *Manufacturing of Dunkin' Donuts bakery goods*

Centralized production is another element of our supply chain that is designed to support growth for the Dunkin' Donuts brand. Centralized manufacturing locations ("CMLs") are franchisee-owned and -operated facilities for the centralized production of donuts and bakery goods. The CMLs deliver freshly baked products to Dunkin' Donuts restaurants on a daily basis and are designed to provide consistent quality products while simplifying restaurant-level operations. As of December 31, 2016, there were 100 CMLs (of varying size and capacity) in the U.S. CMLs are an important part of franchise economics, and are supportive of profit building initiatives as well as protecting brand quality standards and consistency.

Certain of our Dunkin' Donuts brand restaurants produce donuts and bakery goods on-site rather than sourcing from CMLs. Many of such restaurants, known as full producers, also supply other local Dunkin' Donuts restaurants that do not have access to CMLs. In addition, in newer markets, Dunkin' Donuts brand restaurants source donuts and bakery goods that are finished in restaurants. We believe that this "just baked on demand" donut manufacturing platform enables the Dunkin' Donuts brand to more efficiently expand its restaurant base in newer markets where franchisees may not have access to a CML.

### *Baskin-Robbins ice cream*

We outsource the manufacturing and distribution of ice cream products for the domestic Baskin-Robbins brand franchisees to Dean Foods, which strengthens our relationships with franchisees and allows us to focus on our core franchising operations.

## ***International***

### ***Dunkin' Donuts***

International Dunkin' Donuts franchisees are responsible for sourcing their own supplies, subject to compliance with our standards. Most also produce their own donuts following the Dunkin' Donuts brand's approved processes. Franchisees in some markets source donuts produced by a brand approved third party supplier. Franchisees are permitted to source coffee from a number of coffee roasters approved by the brand, including the NDCP, as well as certain approved regional and local roasters. In certain countries, our international franchisees source virtually everything locally within their market while in others our international franchisees source most of their supplies from the NDCP. Where supplies are sourced locally, we help identify and approve those suppliers. In addition, we assist our international franchisees in identifying regional and global suppliers with the goal of leveraging the purchasing volume for pricing and product continuity advantages.

### ***Baskin-Robbins***

The Baskin-Robbins manufacturing network is comprised of 14 facilities, none of which are owned or operated by us, that supply our international markets with ice cream products. We utilize facilities owned by Dean Foods to produce ice cream products which we purchase and distribute to many of our international markets. Certain international franchisees rely on third-party-owned facilities to supply ice cream products to them, including facilities in Ireland and Canada. The Baskin-Robbins brand restaurants in India and Russia are supported by master franchisee-owned facilities in those respective countries while the restaurants in Japan and South Korea are supported by the joint venture-owned facilities located within each country.

## **Research and development**

New product innovation is a critical component of our success. We believe the development of successful new products for each brand attracts new customers, increases comparable store sales, and allows franchisees to expand into other dayparts. New product research and development is located in a state-of-the-art facility at our headquarters in Canton, Massachusetts. The facility includes a sensory lab, a quality assurance lab, and a demonstration test kitchen. We rely on our internal culinary team, which uses consumer research, to develop and test new products.

## **Operational support**

Substantially all of our executive management, finance, marketing, legal, technology, human resources, and operations support functions are conducted from our global headquarters in Canton, Massachusetts. In the United States, our franchise operations for both brands are organized into regions, each of which is headed by a regional vice president and directors of operations supported by field personnel who interact directly with the franchisees. Our international businesses are organized by region and have dedicated marketing and restaurant operations support teams that work with our master licensees and joint venture partners to improve restaurant operations and restaurant-level economics. Management of a franchise restaurant is the responsibility of the franchisee, who is trained in our techniques and is responsible for ensuring that the day-to-day operations of the restaurant are in compliance with our operating standards. We have implemented a computer-based disaster recovery program to address the possibility that a natural (or other form of) disaster may impact the information technology systems located at our Canton, Massachusetts headquarters.

## **Regulatory matters**

### ***Domestic***

We and our franchisees are subject to various federal, state, and local laws affecting the operation of our respective businesses, including various health, sanitation, fire, and safety standards. In some jurisdictions our restaurants are required by law to display nutritional information about our products. Each restaurant is subject to licensing and regulation by a number of governmental authorities, which include zoning, health, safety, sanitation, building, and fire agencies in the jurisdiction in which the restaurant is located. Franchisee-owned NDCP and CMLs are licensed and subject to similar regulations by federal, state, and local governments.

We and our franchisees are also subject to the Fair Labor Standards Act and various other laws governing such matters as minimum wage requirements, overtime and other working conditions, and citizenship requirements. A significant number of food-service personnel employed by franchisees are paid at rates related to the federal minimum wage.

Our franchising activities are subject to the rules and regulations of the Federal Trade Commission ("FTC") and various state laws regulating the offer and sale of franchises. The FTC's franchise rule and various state laws require that we furnish a franchise disclosure document ("FDD") containing certain information to prospective franchisees and a number of states require registration of the FDD with state authorities. We are operating under exemptions from registration in several states based on our experience and aggregate net worth. Substantive state laws that regulate the franchisor-franchisee relationship

exist in a substantial number of states, and bills have been introduced in Congress from time to time that would provide for federal regulation of the franchisor-franchisee relationship. The state laws often limit, among other things, the duration and scope of non-competition provisions, the ability of a franchisor to terminate or refuse to renew a franchise and the ability of a franchisor to designate sources of supply. We believe that the FDD for each of our Dunkin' Donuts brand and our Baskin-Robbins brand, together with any applicable state versions or supplements, and franchising procedures, comply in all material respects with both the FTC franchise rule and all applicable state laws regulating franchising in those states in which we have offered franchises.

### ***International***

Internationally, we and our franchisees are subject to national and local laws and regulations that often are similar to those affecting us and our franchisees in the U.S., including laws and regulations concerning franchises, labor, health, sanitation, and safety. International Baskin-Robbins brand and Dunkin' Donuts brand restaurants are also often subject to tariffs and regulations on imported commodities and equipment, and laws regulating foreign investment. We believe that the international disclosure statements, franchise offering documents, and franchising procedures for our Baskin-Robbins brand and Dunkin' Donuts brand comply in all material respects with the laws of the applicable countries.

### **Environmental**

Our operations, including the selection and development of the properties we lease and sublease to our franchisees and any construction or improvements we make at those locations, are subject to a variety of federal, state, and local laws and regulations, including environmental, zoning, and land use requirements. Our properties are sometimes located in developed commercial or industrial areas and might previously have been occupied by more environmentally significant operations, such as gasoline stations and dry cleaners. Environmental laws sometimes require owners or operators of contaminated property to remediate that property, regardless of fault. While we have been required to, and are continuing to, clean up contamination at a limited number of our locations, we have no known material environmental liabilities.

### **Employees**

As of December 31, 2016, we employed 1,163 people, 1,116 of whom were based in the U.S. and 47 of whom were based in other countries. Of our domestic employees, 462 worked in the field and 654 worked at our corporate headquarters or our satellite office in California. Of these employees, 213, who are almost exclusively in marketing positions, were paid by certain of our advertising funds. None of our employees are represented by a labor union, and we believe our relationships with our employees are healthy.

Our franchisees are independent business owners, so they and their employees are not included in our employee count.

### **Intellectual property**

We own many registered trademarks and service marks ("Marks") in the U.S. and in other countries throughout the world. We believe that our Dunkin' Donuts and Baskin-Robbins names and logos, in particular, have significant value and are important to our business. Our policy is to pursue registration of our Marks in the U.S. and selected international jurisdictions, monitor our Marks portfolio both internally and externally through external search agents and vigorously oppose the infringement of any of our Marks. We license the use of our registered Marks to franchisees and third parties through franchise arrangements and licenses. The franchise and license arrangements restrict franchisees' and licensees' activities with respect to the use of our Marks, and impose quality control standards in connection with goods and services offered in connection with the Marks and an affirmative obligation on the franchisees to notify us upon learning of potential infringement. In addition, we maintain a limited patent portfolio in the U.S. for bakery and serving-related methods, designs, and articles of manufacture. We generally rely on common law protection for our copyrighted works. Neither the patents nor the copyrighted works are material to the operation of our business. We also license some intellectual property from third parties for use in certain of our products. Such licenses are not individually, or in the aggregate, material to our business.

### **Seasonality**

Our revenues are subject to fluctuations based on seasonality, primarily with respect to Baskin-Robbins. The ice cream industry generally experiences an increase during the spring and summer months, whereas Dunkin' Donuts hot beverage sales generally increase during the fall and winter months and iced beverage sales generally increase during the spring and summer months.

### **Additional Information**

The Company makes available, free of charge, through its internet website [www.dunkinbrands.com](http://www.dunkinbrands.com), its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements, and amendments to those reports filed or

furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, as soon as reasonably practicable after electronically filing such material with the Securities and Exchange Commission. You may read and copy any materials filed with the Securities and Exchange Commission at the Securities and Exchange Commission's Public Reference Room at 100 F Street, NE, Washington, DC 20549. You may obtain information on the operation of the Public Reference Room by calling the Securities and Exchange Commission at 1-800-SEC-0330. This information is also available at [www.sec.gov](http://www.sec.gov). The reference to these website addresses does not constitute incorporation by reference of the information contained on the websites and should not be considered part of this document.

## **Item 1A. Risk Factors.**

### **Risks related to our business and industry**

#### ***Our financial results are affected by the operating results of our franchisees.***

We receive a substantial majority of our revenues in the form of royalties, which are generally based on a percentage of gross sales at franchised restaurants, rent, and other fees from franchisees. Accordingly, our financial results are to a large extent dependent upon the operational and financial success of our franchisees. If sales trends or economic conditions worsen for franchisees, their financial results may deteriorate and our royalty, rent, and other revenues may decline and our accounts receivable and related allowance for doubtful accounts may increase. In addition, if our franchisees fail to renew their franchise agreements, our royalty revenues may decrease which in turn may materially and adversely affect our business and operating results.

#### ***Our franchisees could take actions that could harm our business.***

Our franchisees are contractually obligated to operate their restaurants in accordance with the operations, safety, and health standards set forth in our agreements with them. However, franchisees are independent third parties whom we do not control. The franchisees own, operate, and oversee the daily operations of their restaurants and have sole control over all employee and other workforce decisions. As a result, the ultimate success and quality of any franchised restaurant rests with the franchisee. If franchisees do not successfully operate restaurants in a manner consistent with required standards, franchise fees paid to us and royalty income will be adversely affected and brand image and reputation could be harmed, which in turn could materially and adversely affect our business and operating results.

Although we believe we generally enjoy a positive working relationship with the vast majority of our franchisees, active and/or potential disputes with franchisees could damage our brand reputation and/or our relationships with the broader franchisee group.

#### ***Our success depends substantially on the value of our brands.***

Our success is dependent in large part upon our ability to maintain and enhance the value of our brands, our customers' connection to our brands, and a positive relationship with our franchisees. Brand value can be severely damaged even by isolated incidents, particularly if the incidents receive considerable negative publicity or result in litigation. Some of these incidents may relate to the way we manage our relationship with our franchisees, our growth strategies, our development efforts in domestic and foreign markets, or the ordinary course of our, or our franchisees', business. Other incidents may arise from events that are or may be beyond our ability to control and may damage our brands, such as actions taken (or not taken) by one or more franchisees or their employees relating to health, safety, welfare, or otherwise; litigation and claims; security breaches or other fraudulent activities associated with our electronic payment systems; and illegal activity targeted at us or others. Consumer demand for our products and our brands' value could diminish significantly if any such incidents or other matters erode consumer confidence in us or our products, which would likely result in lower sales and, ultimately, lower royalty income, which in turn could materially and adversely affect our business and operating results.

#### ***Incidents involving food-borne illnesses, food tampering, or food contamination involving our brands or our supply chain could create negative publicity and significantly harm our operating results***

While we and our franchisees dedicate substantial resources to food safety matters to enable customers to enjoy safe, quality food products, food safety events, including instances of food-borne illness (such as salmonella or E. Coli), have occurred in the food industry in the past, and could occur in the future.

Instances or reports, whether true or not, of food-safety issues, such as food-borne illnesses, food tampering, food contamination or mislabeling, either during the growing, manufacturing, packaging, storing, or preparation of products, have in the past severely injured the reputations of companies in the quick-service restaurant sectors and could affect us as well. Any report linking us, our franchisees, or our suppliers to food-borne illnesses or food tampering, contamination, mislabeling, or

other food-safety issues could damage the value of our brands immediately and severely hurt sales of our products and possibly lead to product liability claims, litigation (including class actions), or other damages.

In addition, food safety incidents, whether or not involving our brands, could result in negative publicity for the industry or market segments in which we operate. Increased use of social media could create and/or amplify the effects of negative publicity. This negative publicity may reduce demand for our products and could result in a decrease in guest traffic to our restaurants as consumers shift their preferences to our competitors or to other products or food types. A decrease in traffic as a result of these health concerns or negative publicity could materially and adversely affect our brands, our business, and our stock price.

***The quick service restaurant segment is highly competitive, and competition could lower our revenues.***

The QSR segment of the restaurant industry is intensely competitive. The beverage and food products sold by our franchisees compete directly against products sold at other QSRs, local and regional beverage and food operations, specialty beverage and food retailers, supermarkets, and wholesale suppliers, many bearing recognized brand names and having significant customer loyalty. In addition to the prevailing baseline level of competition, major market players in noncompeting industries may choose to enter the restaurant industry. Key competitive factors include the number and location of restaurants, quality and speed of service, attractiveness of facilities, effectiveness of advertising, marketing, and operational programs, price, demographic patterns and trends, consumer preferences and spending patterns, menu diversification, health or dietary preferences and perceptions, and new product development. Some of our competitors have substantially greater financial and other resources than us, which may provide them with a competitive advantage. In addition, we compete within the restaurant industry and the QSR segment not only for customers but also for qualified franchisees. We cannot guarantee the retention of any, including the top-performing, franchisees in the future, or that we will maintain the ability to attract, retain, and motivate sufficient numbers of franchisees of the same caliber, which could materially and adversely affect our business and operating results. If we are unable to maintain our competitive position, we could experience lower demand for products, downward pressure on prices, the loss of market share, and the inability to attract, or loss of, qualified franchisees, which could result in lower franchise fees and royalty income, and materially and adversely affect our business and operating results.

***If we or our franchisees or licensees are unable to protect our customers' credit card data and other personal information, we or our franchisees could be exposed to data loss, litigation, and liability, and our reputation could be significantly harmed.***

Data protection is increasingly demanding and the use of electronic payment methods and collection of other personal information exposes us and our franchisees to increased risk of privacy and/or security breaches as well as other risks. In connection with credit card transactions in-store and online, we and our franchisees collect and transmit confidential credit card information by way of retail networks. Additionally, we collect and store personal information from individuals, including our customers, franchisees, and employees. We rely on commercially available systems, software, tools, and monitoring to provide security for processing, transmitting, and storing such information. The failure of these systems to operate effectively, problems with transitioning to upgraded or replacement systems, or a breach in security of these systems, including through cyber terrorism, could materially and adversely affect our business and operating results.

Further, the standards for systems currently used for transmission and approval of electronic payment transactions, and the technology utilized in electronic payment themselves, all of which can put electronic payment data at risk, are determined and controlled by the payment card industry, not by us. In addition, our employees, franchisees, contractors, or third parties with whom we do business or to whom we outsource business operations may attempt to circumvent our security measures in order to misappropriate such information, and may purposefully or inadvertently cause a breach involving such information. Third parties may have the technology or know-how to breach the security of the personal information collected, stored, or transmitted by us or our franchisees, and our respective security measures, as well as those of our technology vendors, may not effectively prohibit others from obtaining improper access to this information. Advances in computer and software capabilities and encryption technology, new tools, and other developments may increase the risk of such a breach. If a person is able to circumvent our data security measures or that of third parties with whom we do business, including our franchisees, he or she could destroy or steal valuable information or disrupt our operations. Any security breach could expose us to risks of data loss, litigation, liability, and could seriously disrupt our operations. Any resulting negative publicity could significantly harm our reputation and could materially and adversely affect our business and operating results.

***Sub-franchisees could take actions that could harm our business and that of our master franchisees.***

In certain of our international markets, we enter into agreements with master franchisees that permit the master franchisee to develop and operate restaurants in defined geographic areas. As permitted by our master franchisee agreements, certain master franchisees elect to sub-franchise rights to develop and operate restaurants in the geographic area covered by the master franchisee agreement. Our master franchisee agreements contractually obligate our master franchisees to operate their

restaurants in accordance with specified operations, safety, and health standards and also require that any sub-franchise agreement contain similar requirements. However, we are not party to the agreements with the sub-franchisees and, as a result, are dependent upon our master franchisees to enforce these standards with respect to sub-franchised restaurants. As a result, the ultimate success and quality of any sub-franchised restaurant rests with the master franchisee. If sub-franchisees do not successfully operate their restaurants in a manner consistent with required standards, franchise fees and royalty income paid to the applicable master franchisee and, ultimately, to us could be adversely affected and our brand image and reputation may be harmed, which could materially and adversely affect our business and operating results.

***We cannot predict the impact that the following may have on our business: (i) new or improved technologies, (ii) alternative methods of delivery, or (iii) changes in consumer behavior facilitated by these technologies and alternative methods of delivery.***

Advances in technologies or alternative methods of delivery, including advances in vending machine technology and home coffee makers, or certain changes in consumer behavior driven by these or other technologies and methods of delivery could have a negative effect on our business. Moreover, technology and consumer offerings continue to develop, and we expect that new or enhanced technologies and consumer offerings will be available in the future. We may pursue certain of those technologies and consumer offerings if we believe they offer a sustainable customer proposition and can be successfully integrated into our business model. However, we cannot predict consumer acceptance of these delivery channels or their impact on our business. In addition, our competitors, some of whom have greater resources than us, may be able to benefit from changes in technologies or consumer acceptance of alternative methods of delivery, which could harm our competitive position. There can be no assurance that we will be able to successfully respond to changing consumer preferences, including with respect to new technologies and alternative methods of delivery, or to effectively adjust our product mix, service offerings, and marketing and merchandising initiatives for products and services that address, and anticipate advances in, technology and market trends. If we are not able to successfully respond to these challenges, our business, financial condition, and operating results could be harmed.

***Economic conditions adversely affecting consumer discretionary spending may negatively impact our business and operating results.***

We believe that our franchisees' sales, customer traffic, and profitability are strongly correlated to consumer discretionary spending, which is influenced by general economic conditions, unemployment levels, and the availability of discretionary income. Our franchisees' sales are dependent upon discretionary spending by consumers; any reduction in sales at franchised restaurants will result in lower royalty payments from franchisees to us and adversely impact our profitability. In an economic downturn our business and results of operations could be materially and adversely affected. In addition, the pace of new restaurant openings may be slowed and restaurants may be forced to close, reducing the restaurant base from which we derive royalty income.

***Our substantial indebtedness could adversely affect our financial condition.***

We have a significant amount of indebtedness. As of December 31, 2016, we had total indebtedness of approximately \$2.5 billion under our securitized debt facility, excluding \$25.9 million of undrawn letters of credit and \$74.1 million of unused commitments.

Subject to the limits contained in the agreements governing our securitized debt facility, we may be able to incur substantial additional debt from time to time to finance capital expenditures, investments, acquisitions, or for other purposes. If we do incur substantial additional debt, the risks related to our high level of debt could intensify. Specifically, our high level of indebtedness could have important consequences, including:

- limiting our ability to obtain additional financing to fund capital expenditures, investments, acquisitions, or other general corporate requirements;
- requiring a substantial portion of our cash flow to be dedicated to payments to service our indebtedness instead of other purposes, thereby reducing the amount of cash flow available for capital expenditures, investments, acquisitions, and other general corporate purposes;
- increasing our vulnerability to and the potential impact of adverse changes in general economic, industry, and competitive conditions;
- limiting our flexibility in planning for and reacting to changes in the industry in which we compete;
- placing us at a disadvantage compared to other, less leveraged competitors or competitors with comparable debt at more favorable interest rates; and

- increasing our costs of borrowing.

In addition, the financial and other covenants we agreed to with our lenders may limit our ability to incur additional indebtedness, make investments, and engage in other transactions, and the leverage may cause other potential lenders to be less willing to loan funds to us in the future.

***We may be unable to generate sufficient cash flow to satisfy our significant debt service obligations, which would adversely affect our financial condition and results of operations.***

Our ability to make principal and interest payments on and to refinance our indebtedness will depend on our ability to generate cash in the future. This, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory, and other factors that are beyond our control. If our business does not generate sufficient cash flow from operations, in the amounts projected or at all, or if future borrowings are not available to us under our variable funding notes in amounts sufficient to fund our other liquidity needs, our financial condition and results of operations may be adversely affected. If we cannot generate sufficient cash flow from operations to make scheduled principal amortization and interest payments on our debt obligations in the future, we may need to refinance all or a portion of our indebtedness on or before maturity, sell assets, delay capital expenditures, or seek additional equity investments. If we are unable to refinance any of our indebtedness on commercially reasonable terms or at all or to effect any other action relating to our indebtedness on satisfactory terms or at all, our business may be harmed.

***The terms of our securitized debt financing of certain of our wholly-owned subsidiaries have restrictive terms and our failure to comply with any of these terms could put us in default, which would have an adverse effect on our business and prospects.***

Unless and until we repay all outstanding borrowings under our securitized debt facility, we will remain subject to the restrictive terms of these borrowings. The securitized debt facility, under which certain of our wholly-owned subsidiaries issued and guaranteed fixed rate notes and variable funding notes, contain a number of covenants, with the most significant financial covenant being a debt service coverage calculation. These covenants limit the ability of certain of our subsidiaries to, among other things:

- sell assets;
- alter the business we conduct;
- engage in mergers, acquisitions, and other business combinations;
- declare dividends or redeem or repurchase capital stock;
- incur, assume, or permit to exist additional indebtedness or guarantees;
- make loans and investments;
- incur liens; and
- enter into transactions with affiliates.

The securitized debt facility also requires us to maintain specified financial ratios. Our ability to meet these financial ratios can be affected by events beyond our control, and we may not satisfy such a test. A breach of these covenants could result in a rapid amortization event or default under the securitized debt facility. If amounts owed under the securitized debt facility are accelerated because of a default and we are unable to pay such amounts, the investors may have the right to assume control of substantially all of the securitized assets.

If we are unable to refinance or repay amounts under the securitized debt facility prior to the expiration of the applicable term, our cash flow would be directed to the repayment of the securitized debt and, other than management fees sufficient to cover minimal selling, general and administrative expenses, would not be available for operating our business.

No assurance can be given that any refinancing or additional financing will be possible when needed or that we will be able to negotiate acceptable terms. In addition, our access to capital is affected by prevailing conditions in the financial and capital markets and other factors beyond our control. There can be no assurance that market conditions will be favorable at the times that we require new or additional financing.

***The indenture governing the securitized debt will restrict the cash flow from the entities subject to the securitization to any of our other entities and upon the occurrence of certain events, cash flow would be further restricted.***

In the event that a rapid amortization event occurs under the indenture (including, without limitation, upon an event of default under the indenture or the failure to repay the securitized debt at the end of the applicable term), the funds available to us would be reduced or eliminated, which would in turn reduce our ability to operate or grow our business.

***Infringement, misappropriation, or dilution of our intellectual property could harm our business.***

We regard our Dunkin' Donuts® and Baskin-Robbins® trademarks as having significant value and as being important factors in the marketing of our brands. We have also obtained trademark protection for the trademarks associated with several of our product offerings and advertising slogans, including "America Runs on Dunkin'®". We believe that these and other intellectual property are valuable assets that are critical to our success. We rely on a combination of protections provided by contracts, as well as copyright, patent, trademark, and other laws, such as trade secret and unfair competition laws, to protect our intellectual property from infringement, misappropriation, or dilution. We have registered certain trademarks and service marks and have other trademark and service mark registration applications pending in the United States and foreign jurisdictions. However, not all of the trademarks or service marks that we currently use have been registered in all of the countries in which we do business, and they may never be registered in all of those countries.

Although we monitor trademark portfolios both internally and through external search agents and impose an obligation on franchisees to notify us upon learning of potential infringement, there can be no assurance that we will be able to adequately maintain, enforce, and protect our trademarks or other intellectual property rights. We are aware of names and marks similar to our service marks being used by other persons. Although we believe such uses will not adversely affect us, further or currently unknown unauthorized uses or other infringement of our trademarks or service marks could diminish the value of our brands and may adversely affect our business. Effective intellectual property protection may not be available in every country in which we have or intend to open or franchise a restaurant or license our intellectual property. Failure to adequately protect our intellectual property rights could damage our brands and impair our ability to compete effectively. Even where we have effectively secured statutory protection for our trade secrets and other intellectual property, our competitors may misappropriate our intellectual property and our employees, consultants, and suppliers may breach their contractual obligations not to reveal our confidential information, including trade secrets. Although we have taken measures to protect our intellectual property, there can be no assurance that these protections will be adequate or that third parties will not independently develop products or concepts that are substantially similar to ours. Despite our efforts, it may be possible for third-parties to reverse engineer, otherwise obtain, copy, and use information that we regard as proprietary. Furthermore, defending or enforcing our trademark rights, branding practices, and other intellectual property, and seeking an injunction and/or compensation for misappropriation of confidential information, could result in the expenditure of significant resources and divert the attention of management, which in turn may materially and adversely affect our business and operating results.

***Our brands may be limited or diluted through franchisee and third-party activity.***

Although we monitor and restrict franchisee activities through our franchise and license agreements, franchisees or third parties may refer to or make statements about our brands that do not make proper use of our trademarks or required designations, that improperly alter trademarks or branding, or that are critical of our brands or place our brands in a context that may tarnish their reputation. This may result in dilution or tarnishment of our intellectual property. It is not possible for us to obtain registrations for all possible variations of our branding in all territories where we operate. Franchisees, licensees, or third parties may seek to register or obtain registration for domain names and trademarks involving localizations, variations, and versions of certain branding tools, and these activities may limit our ability to obtain or use such rights in such territories. Franchisee noncompliance with the terms and conditions of our franchise or license agreements may reduce the overall goodwill of our brands, whether through the failure to meet health and safety standards, engage in quality control or maintain product consistency, or through the participation in improper or objectionable business practices.

Moreover, unauthorized third parties may use our intellectual property to trade on the goodwill of our brands, resulting in consumer confusion or dilution. Any reduction of our brands' goodwill, consumer confusion, or dilution is likely to impact sales, and could materially and adversely impact our business and operating results.

***We are and may become subject to third-party infringement claims or challenges to the validity of our intellectual property.***

We are and may, in the future, become the subject of claims for infringement, misappropriation, or other violation of intellectual property rights, which may or not be unfounded, from owners of intellectual property in areas where our franchisees operate or where we intend to conduct operations, including in foreign jurisdictions. Such claims could harm our image, our brands, our competitive position, or our ability to expand our operations into other jurisdictions and cause us to incur significant costs related to defense or settlement. If such claims were decided against us, or a third party indemnified by us pursuant to license terms, we

could be required to pay damages, develop or adopt non-infringing products or services, or acquire a license to the intellectual property that is the subject of the asserted claim, which license may not be available on acceptable terms or at all. The attendant expenses could require the expenditure of additional capital, and there would be expenses associated with the defense of any infringement, misappropriation, or other third-party claims, and there could be attendant negative publicity, even if ultimately decided in our favor.

***Growth into new territories may be hindered or blocked by pre-existing third-party rights.***

We act to obtain and protect our intellectual property rights we need to operate successfully in those territories where we operate. Certain intellectual property rights including rights in trademarks are national in character, and are obtained on a country-by-country basis by the first person to obtain protection through use or registration in that country in connection with specified products and services. As our business grows, we continuously evaluate the potential for expansion into new territories and new products and services. There is a risk with each expansion that growth will be limited or unavailable due to blocking pre-existing third-party intellectual property rights.

***The restaurant industry is affected by consumer preferences and perceptions. Changes in these preferences and perceptions may lessen the demand for our products, which could reduce sales by our franchisees and reduce our royalty revenues.***

The restaurant industry is affected by changes in consumer tastes, national, regional, and local economic conditions, and demographic trends. For instance, if prevailing health or dietary preferences cause consumers to avoid donuts and other products we offer in favor of foods that are perceived as healthier, our franchisees' sales would suffer, resulting in lower royalty payments to us, and our business and operating results would be harmed.

***If we fail to successfully implement our growth strategy, which includes opening new domestic and international restaurants, our ability to increase our revenues and operating profits could be adversely affected.***

Our growth strategy relies in part upon new restaurant development by existing and new franchisees. We and our franchisees face many challenges in opening new restaurants, including:

- availability of financing;
- selection and availability of suitable restaurant locations;
- competition for restaurant sites;
- negotiation of acceptable lease and financing terms;
- securing required domestic or foreign governmental permits and approvals;
- consumer tastes in new geographic regions and acceptance of our products;
- employment and training of qualified personnel;
- impact of inclement weather, natural disasters, and other acts of nature; and
- general economic and business conditions.

In particular, because the majority of our new restaurant development is funded by franchisee investment, our growth strategy is dependent on our franchisees' (or prospective franchisees') ability to access funds to finance such development. We do not provide our franchisees with direct financing and therefore their ability to access borrowed funds generally depends on their independent relationships with various financial institutions. If our franchisees (or prospective franchisees) are not able to obtain financing at commercially reasonable rates, or at all, they may be unwilling or unable to invest in the development of new restaurants, and our future growth could be adversely affected.

To the extent our franchisees are unable to open new restaurants as we anticipate, our revenue growth would come primarily from growth in comparable store sales. Our failure to add a significant number of new restaurants or grow comparable store sales would adversely affect our ability to increase our revenues and operating income and could materially and adversely harm our business and operating results.

***Increases in commodity prices may negatively affect payments from our franchisees and licensees.***

Coffee and other commodity prices are subject to substantial price fluctuations, stemming from variations in weather patterns, shifting political or economic conditions in coffee-producing countries, potential taxes or fees on certain imported goods, and delays in the supply chain. If commodity prices rise, franchisees may experience reduced sales, due to decreased consumer demand at retail prices that have been raised to offset increased commodity prices, which may reduce franchisee profitability.

Any such decline in franchisee sales will reduce our royalty income, which in turn may materially and adversely affect our business and operating results.

Our joint ventures in Japan and South Korea, as well as our licensees in Russia and India, manufacture ice cream products independently. The joint ventures in Japan and South Korea each own a manufacturing facility in its country of operation. The revenues derived from these joint ventures differ fundamentally from those of other types of franchise arrangements in the system because the income that we receive from the joint ventures in Japan and South Korea is based in part on the profitability, rather than the gross sales, of the restaurants operated by these joint ventures. Accordingly, in the event that the joint ventures in Japan or South Korea experience staple ingredient price increases that adversely affect the profitability of the restaurants operated by these joint ventures, that decrease in profitability would reduce distributions by these joint ventures to us, which in turn could materially and adversely impact our business and operating results.

***Shortages of coffee or milk could adversely affect our revenues.***

If coffee or milk consumption continues to increase worldwide or there is a disruption in the supply of coffee or milk due to natural disasters, political unrest, or other calamities, the global supply of these commodities may fail to meet demand. If coffee or milk demand is not met, franchisees may experience reduced sales which, in turn, would reduce our royalty income. Additionally, if milk demand is not met, we may not be able to purchase and distribute ice cream products to our international franchisees, which would reduce our sales of ice cream and other products. Such reductions in our royalty income and sales of ice cream and other products may materially and adversely affect our business and operating results.

***We and our franchisees rely on information technology and computer systems to process transactions and manage our business, and a disruption or a failure of such systems or technology could harm our ability to effectively manage our business.***

Network and information technology systems are integral to our business. We utilize various computer systems, including our FAST System and our EFTPay System, which are customized, web-based systems. The FAST System is the system by which our U.S. and Canadian franchisees report their weekly sales and pay their corresponding royalty fees and required advertising fund contributions. When sales are reported by a U.S. or Canadian franchisee, a withdrawal for the authorized amount is initiated from the franchisee's bank after 12 days (from the week ending or month ending date). The FAST System is critical to our ability to accurately track sales and compute royalties due from our U.S. and Canadian franchisees. The EFTPay System is used by our U.S. and Canadian franchisees to make payments against open, non-fee invoices (i.e., all invoices except royalty and advertising funds). When a franchisee selects an invoice and submits the payment, on the following day a withdrawal for the selected amount is initiated from the franchisee's bank. Additionally, an increasing number of transactions in our restaurants are processed through our mobile application. Despite the implementation of security measures, our systems are subject to damage and/or interruption as a result of power outages, computer and network failures, computer viruses and other disruptive software, security breaches, terrorist attacks, catastrophic events, and improper usage by employees. Such events could result in a material disruption in operations, a need for a costly repair, upgrade, or replacement of systems, or a decrease in, or in the collection of, royalties paid to us by our franchisees. To the extent that any disruption or security breach were to result in a loss of, or damage to, our data or applications, or inappropriate disclosure of confidential or proprietary information, we could incur liability which could materially affect our results of operations.

***Interruptions in the supply of product to franchisees and licensees could adversely affect our revenues.***

In order to maintain quality-control standards and consistency among restaurants, we require through our franchise agreements that our franchisees obtain food and other supplies from preferred suppliers approved in advance. In this regard, we and our franchisees depend on a group of suppliers for ingredients, foodstuffs, beverages, and disposable serving instruments including, but not limited to, Rich Products Corp., Dean Foods Co., The Coca-Cola Company, and Silver Pail Dairy, Ltd. as well as four primary coffee roasters and two primary donut mix suppliers. In 2016, we and our franchisees purchased products from nearly 600 approved domestic suppliers, with approximately 13 of such suppliers providing half, based on dollar volume, of all products purchased domestically. We look to approve multiple suppliers for most products, and require any single sourced supplier, such as The Coca-Cola Company, to have contingency plans in place to ensure continuity of supply. In addition we believe that, if necessary, we could obtain readily available alternative sources of supply for each product that we currently source through a single supplier. To facilitate the efficiency of our franchisees' supply chain, we have historically entered into several preferred-supplier arrangements for particular food or beverage items.

The Dunkin' Donuts system is supported domestically by the franchisee-owned purchasing and distribution cooperative known as the National Distributor Commitment Program. We have a long-term agreement with the National DCP, LLC (the "NDCP") for the NDCP to provide substantially all of the goods needed to operate a Dunkin' Donuts restaurant in the United States. The NDCP also supplies some international markets. The NDCP aggregates the franchisee demand, sends requests for proposals to

approved suppliers, and negotiates contracts for approved items. The NDCP also inventories the items in its seven regional distribution centers and ships products to franchisees at least one time per week. We do not control the NDCP and have only limited contractual rights under our agreement with the NDCP associated with supplier certification and quality assurance and protection of our intellectual property. While the NDCP maintains contingency plans with its approved suppliers and has a contingency plan for its own distribution function to restaurants, our franchisees bear risks associated with the timeliness, solvency, reputation, labor relations, freight costs, price of raw materials, and compliance with health and safety standards of each supplier (including those of our international joint ventures) including, but not limited to, risks associated with contamination to food and beverage products. We have little control over such suppliers. Disruptions in these relationships may reduce franchisee sales and, in turn, our royalty income.

Overall difficulty of suppliers (including those of certain international joint ventures) meeting franchisee product demand, interruptions in the supply chain, obstacles or delays in the process of renegotiating or renewing agreements with preferred suppliers, financial difficulties experienced by suppliers, or the deficiency, lack, or poor quality of alternative suppliers could adversely impact franchisee sales which, in turn, would reduce our royalty income and could materially and adversely affect our business and operating results.

***We may not be able to recoup our expenditures on properties we sublease to franchisees.***

In some locations, we may pay more rent and other amounts to third-party landlords under a prime lease than we receive from the franchisee who subleases such property. Typically, our franchisees' rent is based in part on a percentage of gross sales at the restaurant, so a downturn in gross sales would negatively affect the level of the payments we receive. Additionally, pursuant to the terms of certain prime leases we have entered into with third-party landlords, we may be required to construct or improve a property, pay taxes, maintain insurance, and comply with building codes and other applicable laws. The subleases we enter into with franchisees related to such properties typically pass through such obligations, but if a franchisee fails to perform the obligations passed through to them, we will be required to perform those obligations, resulting in an increase in our leasing and operational costs and expenses.

***If the international markets in which we compete are affected by changes in political, social, legal, economic, or other factors, our business and operating results may be materially and adversely affected.***

As of December 31, 2016, we had 8,714 international restaurants located in 67 foreign countries. The international operations of our franchisees may subject us to additional risks, which differ in each country in which our franchisees operate, and such risks may negatively affect our business or result in a delay in or loss of royalty income to us.

The factors impacting the international markets in which restaurants are located may include:

- recessionary or expansive trends in international markets;
- changes in foreign currency exchange rates and hyperinflation or deflation in the foreign countries in which we or our international joint ventures operate;
- the imposition of restrictions on currency conversion or the transfer of funds;
- availability of credit for our franchisees, licensees, and our international joint ventures to finance the development of new restaurants;
- increases in the taxes paid and other changes in applicable tax laws;
- legal and regulatory changes and the burdens and costs of local operators' compliance with a variety of laws, including trade restrictions and tariffs;
- interruption of the supply of product;
- increases in anti-American sentiment and the identification of the Dunkin' Donuts brand and Baskin-Robbins brand as American brands;
- political and economic instability; and
- natural disasters, terrorist threats and/or activities, and other calamities.

Any or all of these factors may reduce distributions from our international joint ventures or other international partners and/or royalty income, which in turn may materially and adversely impact our business and operating results.

***Termination of an arrangement with a master franchisee could adversely impact our revenues.***

Internationally, and in limited cases domestically, we enter into relationships with "master franchisees" to develop and operate

restaurants in defined geographic areas. Master franchisees are granted exclusivity rights with respect to larger territories than the typical franchisees, and in particular cases, expansion after minimum requirements are met is subject to the discretion of the master franchisee. In fiscal years 2016, 2015, and 2014, we derived approximately 14.6%, 14.8%, and 15.7%, respectively, of our total revenues from master franchisee arrangements. The termination of an arrangement with a master franchisee or a lack of expansion by certain master franchisees could result in the delay of the development of franchised restaurants, or an interruption in the operation of one of our brands in a particular market or markets. Any such delay or interruption would result in a delay in, or loss of, royalty income to us whether by way of delayed royalty income or delayed revenues from the sale of ice cream and other products by us to franchisees internationally, or reduced sales. Any interruption in operations due to the termination of an arrangement with a master franchisee similarly could result in lower revenues for us, particularly if we were to determine to close restaurants following the termination of an arrangement with a master franchisee.

***Fluctuations in exchange rates affect our revenues.***

We are subject to inherent risks attributed to operating in a global economy. Most of our revenues, costs, and debts are denominated in U.S. dollars. However, sales made by franchisees outside of the U.S. are denominated in the currency of the country in which the point of distribution is located, and this currency could become less valuable prior to calculation of our royalty payments in U.S. dollars as a result of exchange rate fluctuations. As a result, currency fluctuations could reduce our royalty income. Unfavorable currency fluctuations could result in a reduction in our revenues. Income we earn from our joint ventures is also subject to currency fluctuations. These currency fluctuations affecting our revenues and costs could adversely affect our business and operating results.

***Adverse public or medical opinions about the health effects of consuming our products, whether or not accurate, could harm our brands and our business.***

Some of our products contain caffeine, dairy products, sugar, other carbohydrates, fats, and other active compounds, the health effects of which are the subject of increasing public scrutiny, including the suggestion that excessive consumption of caffeine, dairy products, sugar, other carbohydrates, fats, and other active compounds can lead to a variety of adverse health effects. There has also been greater public awareness that sedentary lifestyles, combined with excessive consumption of high-carbohydrate, high-fat, or high-calorie foods, have led to a rapidly rising rate of obesity. In the United States and certain other countries, there is increasing consumer awareness of health risks, including obesity, as well as increased consumer litigation based on alleged adverse health impacts of consumption of various food products. While we offer some healthier beverage and food items, including reduced fat items and reduced sugar items, an unfavorable report on the health effects of caffeine or other compounds present in our products, or negative publicity or litigation arising from other health risks such as obesity, could significantly reduce the demand for our beverages and food products. A decrease in customer traffic as a result of these health concerns or negative publicity could materially and adversely affect our brands and our business.

***We may not be able to enforce payment of fees under certain of our franchise arrangements.***

In certain limited instances, a franchisee may be operating a restaurant pursuant to an unwritten franchise arrangement. Such circumstances may arise where a franchisee arrangement has expired and new or renewal agreements have yet to be executed or where the franchisee has developed and opened a restaurant but has failed to memorialize the franchisor-franchisee relationship in an executed agreement as of the opening date of such restaurant. In certain other limited instances, we may allow a franchisee in good standing to operate domestically pursuant to franchise arrangements which have expired in their normal course and have not yet been renewed. As of December 31, 2016, less than 1% of our restaurants were operating without a written agreement. There is a risk that either category of these franchise arrangements may not be enforceable under federal, state, or local laws and regulations prior to correction or if left uncorrected. In these instances, the franchise arrangements may be enforceable on the basis of custom and assent of performance. If the franchisee, however, were to neglect to remit royalty payments in a timely fashion, we may be unable to enforce the payment of such fees which, in turn, may materially and adversely affect our business and operating results. While we generally require franchise arrangements in foreign jurisdictions to be entered into pursuant to written franchise arrangements, subject to certain exceptions, some expired contracts, letters of intent, or oral agreements in existence may not be enforceable under local laws, which could impair our ability to collect royalty income, which in turn may materially and adversely impact our business and operating results.

***Our business activities subject us to litigation risk that could affect us adversely by subjecting us to significant money damages and other remedies or by increasing our litigation expense.***

In the ordinary course of business, we are the subject of complaints or litigation from franchisees, usually related to alleged breaches of contract or wrongful termination under the franchise arrangements. In addition, we are, from time to time, the subject of complaints or litigation from customers alleging illness, injury, or other food-quality, health, or operational concerns and from suppliers alleging breach of contract. We may also be subject to employee claims based on, among other things,

discrimination, harassment, or wrongful termination. Finally, litigation against a franchisee or its affiliates by third parties, whether in the ordinary course of business or otherwise, may include claims against us by virtue of our relationship with the defendant-franchisee. In addition to decreasing the ability of a defendant-franchisee to make royalty payments and diverting management resources, adverse publicity resulting from such allegations may materially and adversely affect us and our brands, regardless of whether such allegations are valid or whether we are liable. Our international operations may be subject to additional risks related to litigation, including difficulties in enforcement of contractual obligations governed by foreign law due to differing interpretations of rights and obligations, compliance with multiple and potentially conflicting laws, new and potentially untested laws and judicial systems, and reduced or diminished protection of intellectual property. A substantial unsatisfied judgment against us or one of our subsidiaries could result in bankruptcy, which would materially and adversely affect our business and operating results.

***Our business is subject to various laws and regulations and changes in such laws and regulations, and/or failure to comply with existing or future laws and regulations, could adversely affect us.***

We are subject to state franchise registration requirements, the rules and regulations of the Federal Trade Commission (the “FTC”), various state laws regulating the offer and sale of franchises in the United States through the provision of franchise disclosure documents containing certain mandatory disclosures, and certain rules and requirements regulating franchising arrangements in foreign countries. Although we believe that the Franchisors’ Franchise Disclosure Documents, together with any applicable state-specific versions or supplements, and franchising procedures that we use comply in all material respects with both the FTC guidelines and all applicable state laws regulating franchising in those states in which we offer new franchise arrangements, noncompliance could reduce anticipated royalty income, which in turn may materially and adversely affect our business and operating results.

Our franchisees are subject to various existing U.S. federal, state, local, and foreign laws affecting the operation of the restaurants including various health, sanitation, fire, and safety standards. Franchisees may in the future become subject to regulation (or further regulation) seeking to tax or regulate high-fat foods, to limit the serving size of beverages containing sugar, to ban the use of certain packaging materials (including polystyrene used in the iconic Dunkin’ Donuts cup), or requiring the display of detailed nutrition information. Each of these regulations would be costly to comply with and/or could result in reduced demand for our products.

In connection with the continued operation or remodeling of certain restaurants, franchisees may be required to expend funds to meet U.S. federal, state, and local and foreign regulations. Difficulties in obtaining, or the failure to obtain, required licenses or approvals could delay or prevent the opening of a new restaurant in a particular area or cause an existing restaurant to cease operations. All of these situations would decrease sales of an affected restaurant and reduce royalty payments to us with respect to such restaurant.

The franchisees are also subject to the Fair Labor Standards Act of 1938, as amended, and various other laws in the United States and in foreign countries governing such matters as minimum-wage requirements, overtime and other working conditions, and citizenship requirements. A significant number of our franchisees’ food-service employees are paid at rates related to the U.S. federal minimum wage and applicable minimum wages in foreign jurisdictions and past increases in the U.S. federal minimum wage and foreign jurisdiction minimum wage have increased labor costs, as would future such increases. Any increases in labor costs might result in franchisees inadequately staffing restaurants. Understaffed restaurants could reduce sales at such restaurants, decrease royalty payments, and adversely affect our brands. Evolving labor and employment laws, rules, and regulations could also result in increased exposure on the part of Dunkin’ Brands’ for labor and employment related liabilities that have historically been borne by franchisees.

Our and our franchisees’ operations and properties are subject to extensive U.S. federal, state, and local laws and regulations, including those relating to environmental, building, and zoning requirements. Our development of properties for leasing or subleasing to franchisees depends to a significant extent on the selection and acquisition of suitable sites, which are subject to zoning, land use, environmental, traffic, and other regulations and requirements. Failure to comply with legal requirements could result in, among other things, revocation of required licenses, administrative enforcement actions, fines, and civil and criminal liability. We may incur investigation, remediation, or other costs related to releases of hazardous materials or other environmental conditions at our properties, regardless of whether such environmental conditions were created by us or a third party, such as a prior owner or tenant. We have incurred costs to address soil and groundwater contamination at some sites, and continue to incur nominal remediation costs at some of our other locations. If such issues become more expensive to address, or if new issues arise, they could increase our expenses, generate negative publicity, or otherwise adversely affect us.

***We are subject to a variety of additional risks associated with our franchisees.***

Our franchise system subjects us to a number of additional risks, any one of which may impact our ability to collect royalty payments from our franchisees, may harm the goodwill associated with our brands, and/or may materially and adversely impact

our business and results of operations.

*Bankruptcy of U.S. Franchisees.* A franchisee bankruptcy could have a substantial negative impact on our ability to collect payments due under such franchisee's franchise arrangements and, to the extent such franchisee is a lessee pursuant to a franchisee lease/sublease with us, payments due under such franchisee lease/sublease. In a franchisee bankruptcy, the bankruptcy trustee may reject its franchise arrangements and/or franchisee lease/sublease pursuant to Section 365 under the United States bankruptcy code, in which case there would be no further royalty payments and/or franchisee lease/sublease payments from such franchisee, and there can be no assurance as to the proceeds, if any, that may ultimately be recovered in a bankruptcy proceeding of such franchisee in connection with a damage claim resulting from such rejection.

*Franchisee Changes in Control.* The franchise arrangements prohibit "changes in control" of a franchisee without our consent as the franchisor, except in the event of the death or disability of a franchisee (if a natural person) or a principal of a franchisee entity. In such event, the executors and representatives of the franchisee are required to transfer the relevant franchise arrangements to a successor franchisee approved by the franchisor. There can be, however, no assurance that any such successor would be found or, if found, would be able to perform the former franchisee's obligations under such franchise arrangements or successfully operate the restaurant. If a successor franchisee is not found, or if the successor franchisee that is found is not as successful in operating the restaurant as the then-deceased or disabled franchisee or franchisee principal, the sales of the restaurant could be adversely affected.

*Franchisee Insurance.* The franchise arrangements require each franchisee to maintain certain insurance types and levels. Certain extraordinary hazards, however, may not be covered, and insurance may not be available (or may be available only at prohibitively expensive rates) with respect to many other risks. Moreover, any loss incurred could exceed policy limits and policy payments made to franchisees may not be made on a timely basis. Any such loss or delay in payment could have a material and adverse effect on a franchisee's ability to satisfy its obligations under its franchise arrangement, including its ability to make royalty payments.

*Some of Our Franchisees are Operating Entities.* Franchisees may be natural persons or legal entities. Our franchisees that are operating companies (as opposed to limited purpose entities) are subject to business, credit, financial, and other risks, which may be unrelated to the operations of the restaurants. These unrelated risks could materially and adversely affect a franchisee that is an operating company and its ability to make its royalty payments in full or on a timely basis, which in turn could materially and adversely affect our business and operating results.

*Franchise Arrangement Termination; Nonrenewal.* Each franchise arrangement is subject to termination by us as the franchisor in the event of a default, generally after expiration of applicable cure periods, although under certain circumstances a franchise arrangement may be terminated by us upon notice without an opportunity to cure. The default provisions under the franchise arrangements are drafted broadly and include, among other things, any failure to meet operating standards and actions that may threaten our licensed intellectual property.

In addition, each franchise agreement has an expiration date. Upon the expiration of the franchise arrangement, we or the franchisee may, or may not, elect to renew the franchise arrangements. If the franchise arrangement is renewed, the franchisee will receive a "successor" franchise arrangement for an additional term. Such option, however, is contingent on the franchisee's execution of the then-current form of franchise arrangements (which may include increased royalty payments, advertising fees, and other costs), the satisfaction of certain conditions (including modernization of the restaurant and related operations), and the payment of a renewal fee. If a franchisee is unable or unwilling to satisfy any of the foregoing conditions, the expiring franchise arrangements will terminate upon expiration of the term of the franchise arrangements.

*Product Liability Exposure.* We require franchisees to maintain general liability insurance coverage to protect against the risk of product liability and other risks and demand strict franchisee compliance with health and safety regulations. However, franchisees may receive through the supply chain (from central manufacturing locations ("CMLs"), NDCP, or otherwise), or produce defective food or beverage products, which may adversely impact our brands' goodwill.

*Americans with Disabilities Act.* Restaurants located in the United States must comply with Title III of the Americans with Disabilities Act of 1990, as amended (the "ADA"). Although we believe newer restaurants meet the ADA construction standards and, further, that franchisees have historically been diligent in the remodeling of older restaurants, a finding of noncompliance with the ADA could result in the imposition of injunctive relief, fines, an award of damages to private litigants, or additional capital expenditures to remedy such noncompliance. Any imposition of injunctive relief, fines, damage awards, or capital expenditures could adversely affect the ability of a franchisee to make royalty payments, or could generate negative publicity, or otherwise adversely affect us.

*Franchisee Litigation.* Franchisees are subject to a variety of litigation risks, including, but not limited to, customer claims, personal-injury claims, environmental claims, employee allegations of improper termination and discrimination, claims related to violations of the ADA, religious freedom, the Fair Labor Standards Act, the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and intellectual-property claims. Each of these claims may increase costs and limit the funds

available to make royalty payments and reduce the execution of new franchise arrangements.

*Potential Conflicts with Franchisee Organizations.* Although we believe our relationship with our franchisees is open and strong, the nature of the franchisor-franchisee relationship can give rise to conflict. In the U.S., our approach is collaborative in that we have established district advisory councils, regional advisory councils, and a national brand advisory council for each of the Dunkin' Donuts brand and the Baskin-Robbins brand. The councils are comprised of franchisees, brand employees, and executives, and they meet to discuss the strengths, weaknesses, challenges, and opportunities facing the brands as well as the rollout of new products and projects. Internationally, our operations are primarily conducted through joint ventures with local licensees, so our relationships are conducted directly with our licensees rather than separate advisory committees. No material disputes with franchisee organizations exist in the United States or internationally at this time.

***Failure to retain our existing senior management team or the inability to attract and retain new qualified personnel could hurt our business and inhibit our ability to operate and grow successfully.***

Our success will continue to depend to a significant extent on our executive management team and the ability of other key management personnel to replace executives who retire or resign. We may not be able to retain our executive officers and key personnel or attract additional qualified management personnel to replace executives who retire or resign. Failure to retain our leadership team and attract and retain other important personnel could lead to ineffective management and operations, which could materially and adversely affect our business and operating results.

***Unforeseen weather or other events, including terrorist threats or activities, may disrupt our business.***

Unforeseen events, including war, terrorism, and other international, regional, or local instability or conflicts (including labor issues), embargos, public health issues (including tainted food, food-borne illnesses, food tampering, or water supply or widespread/pandemic illness such as Ebola, the avian or H1N1 flu, MERS), and natural disasters such as earthquakes, tsunamis, hurricanes, or other adverse weather and climate conditions, whether occurring in the U.S. or abroad, could disrupt our operations or that of our franchisees or suppliers; or result in political or economic instability. These events could reduce traffic in our restaurants and demand for our products; make it difficult or impossible for our franchisees to receive products from their suppliers; disrupt or prevent our ability to perform functions at the corporate level; and/or otherwise impede our or our franchisees' ability to continue business operations in a continuous manner consistent with the level and extent of business activities prior to the occurrence of the unexpected event or events, which in turn may materially and adversely impact our business and operating results.

#### **Risks related to our common stock**

***Our stock price could be extremely volatile and, as a result, you may not be able to resell your shares at or above the price you paid for them.***

Since our initial public offering in July 2011, the price of our common stock, as reported by NASDAQ, has ranged from a low of \$23.24 on December 15, 2011 to a high of \$56.79 on July 14, 2015. In addition, the stock market in general has been highly volatile. As a result, the market price of our common stock is likely to be similarly volatile, and investors in our common stock may experience a decrease, which could be substantial, in the value of their stock, including decreases unrelated to our operating performance or prospects, and could lose part or all of their investment. The price of our common stock could be subject to wide fluctuations in response to a number of factors, including those described elsewhere in this report and others such as:

- variations in our operating performance and the performance of our competitors;
- actual or anticipated fluctuations in our quarterly or annual operating results;
- publication of research reports by securities analysts about us, our competitors, or our industry;
- our failure or the failure of our competitors to meet analysts' projections or guidance that we or our competitors may give to the market;
- additions and departures of key personnel;
- strategic decisions by us or our competitors, such as acquisitions, divestitures, spin-offs, joint ventures, strategic investments, or changes in business strategy;
- the passage of legislation or other regulatory developments affecting us or our industry;
- speculation in the press or investment community;

- changes in accounting principles;
- terrorist acts, acts of war, or periods of widespread civil unrest;
- natural disasters and other calamities; and
- changes in general market and economic conditions.

As we operate in a single industry, we are especially vulnerable to these factors to the extent that they affect our industry, our products, or to a lesser extent our markets. In the past, securities class action litigation has often been initiated against companies following periods of volatility in their stock price. This type of litigation could result in substantial costs and divert our management's attention and resources, and could also require us to make substantial payments to satisfy judgments or to settle litigation.

***Provisions in our charter documents and Delaware law may deter takeover efforts that you feel would be beneficial to stockholder value.***

Our certificate of incorporation and bylaws and Delaware law contain provisions which could make it harder for a third party to acquire us, even if doing so might be beneficial to our stockholders. These provisions include a classified board of directors and limitations on actions by our stockholders. In addition, our board of directors has the right to issue preferred stock without stockholder approval that could be used to dilute a potential hostile acquirer. Our certificate of incorporation also imposes some restrictions on mergers and other business combinations between us and a holder of 15% or more of our outstanding common stock. As a result, you may lose your ability to sell your stock for a price in excess of the prevailing market price due to these protective measures, and efforts by stockholders to change the direction or management of the company may be unsuccessful.

**Item 1B. Unresolved Staff Comments.**

None.

**Item 2. Properties.**

Our corporate headquarters, located in Canton, Massachusetts, houses substantially all of our executive management and employees who provide our primary corporate support functions: legal, marketing, technology, human resources, public relations, finance, and research and development.

As of December 31, 2016, we owned 96 properties and leased 963 locations across the U.S. and Canada, a majority of which we leased or subleased to franchisees. For fiscal year 2016, we generated 12.2%, or \$101.0 million, of our total revenue from rental fees from franchisees who lease or sublease their properties from us.

The remaining balance of restaurants selling our products are situated on real property owned by franchisees or leased directly by franchisees from third-party landlords. All international restaurants (other than 11 located in Canada) are situated on real property owned by licensees and their sub-franchisees or leased by licensees and their sub-franchisees directly from a third-party landlord.

As of December 31, 2016, 100% of Dunkin' Donuts and Baskin-Robbins restaurants are owned and operated by franchisees. We have construction and site management personnel who oversee the construction of restaurants by outside contractors. The restaurants are built to our specifications as to exterior style and interior decor. As of December 31, 2016, there were 12,258 Dunkin' Donuts points of distribution, operating in 41 states and the District of Columbia in the U.S. and 44 foreign countries. Baskin-Robbins points of distribution totaled 7,822, operating in 43 U.S. states, the District of Columbia, Puerto Rico, and 51 foreign countries. As of December 31, 2016, the Company did not own or operate any restaurants. The following table illustrates domestic and international points of distribution by brand as of December 31, 2016.

	<b>Franchised points of distribution</b>
Dunkin' Donuts—US*	8,828
Dunkin' Donuts—International	3,430
Total Dunkin' Donuts*	12,258
Baskin-Robbins—US*	2,538
Baskin-Robbins—International	5,284
Total Baskin-Robbins*	7,822
Total US	11,366
Total International	8,714

\* Combination restaurants, as more fully described below, count as both a Dunkin' Donuts and a Baskin-Robbins point of distribution.

Dunkin' Donuts and Baskin-Robbins restaurants operate in a variety of formats. Dunkin' Donuts traditional restaurant formats include free standing restaurants, end-caps (i.e., end location of a larger multi-store building), and gas and convenience locations. A free-standing building typically ranges in size from 1,200 to 2,500 square feet, and may include a drive-thru window. An end-cap typically ranges in size from 1,000 to 2,000 square feet and may include a drive-thru window. Dunkin' Donuts also has other restaurants designed to fit anywhere, consisting of small full-service restaurants and/or self-serve kiosks in offices, hospitals, colleges, airports, grocery stores, wholesale clubs, and drive-thru-only units on smaller pieces of property (collectively referred to as alternative points of distributions or "APODs"). APODs typically range in size between 400 to 1,800 square feet. The majority of our Dunkin' Donuts restaurants have their fresh baked goods delivered to them from franchisee-owned and -operated CMLs.

Baskin-Robbins traditional restaurant formats include free standing restaurants and end-caps. A free-standing building typically ranges in size from 600 to 1,200 square feet, and may include a drive-thru window. An end-cap typically ranges in size from 800 to 1,200 square feet and may include a drive-thru window. We also have other restaurants, consisting of small full-service restaurants and/or self-serve kiosks (collectively referred to as APODs). APODs typically range in size between 400 to 1,000 square feet.

In the U.S., Baskin-Robbins can also be found in 1,265 combination restaurants ("combos") that also include a Dunkin' Donuts restaurant, and are typically either free-standing or an end-cap. These combos, which we count as both a Dunkin' Donuts and a Baskin-Robbins point of distribution, typically range from 1,400 to 3,500 square feet.

Of the 11,366 U.S. locations, 92 were sites owned by the Company and leased to franchisees, 932 were leased by us, and in turn, subleased to franchisees, with the remainder either owned or leased directly by the franchisee. Our land or land and building leases are generally for terms of ten years to twenty years, and often have one or more five-year or ten-year renewal options. In certain lease agreements, we have the option to purchase, or the right of first refusal to purchase, the real estate. Certain leases require the payment of additional rent equal to a percentage of annual sales in excess of specified amounts.

Of the sites owned or leased by the Company in the U.S., 15 are locations that no longer have a Dunkin' Donuts or Baskin-Robbins restaurant ("surplus properties"). Some of these surplus properties have been sublet to other parties while the remaining are currently vacant.

We also have leased office space in Brazil, China, Dubai, and the United Kingdom.

The following table sets forth the Company's owned and leased office and training facilities, including the approximate square footage of each facility. None of these owned properties, or the Company's leasehold interest in leased property, is encumbered by a mortgage.

<u>Location</u>	<u>Type</u>	<u>Owned/Leased</u>	<u>Approximate Sq. Ft.</u>
Canton, MA	Office	Leased	175,000
Braintree, MA (training facility)	Office	Owned	15,000
Burbank, CA (training facility)	Office	Leased	19,000
Dubai, United Arab Emirates (regional office space)	Office	Leased	3,200
Shanghai, China (regional office spaces)	Office	Leased	2,900
Various (regional sales offices)	Office	Leased	Range of 150 to 300

### Item 3. Legal Proceedings.

We are engaged in several matters of litigation arising in the ordinary course of our business as a franchisor. Such matters include disputes related to compliance with the terms of franchise and development agreements, including claims or threats of claims of breach of contract, negligence, and other alleged violations by us. As of December 31, 2016, \$5.6 million is recorded within other current liabilities in the consolidated balance sheet in connection with all outstanding litigation.

### Item 4. Mine Safety Disclosures

Not applicable.

## PART II

### Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Our common stock has been listed on the NASDAQ Global Select Market under the symbol "DNKN" since July 27, 2011. Prior to that time, there was no public market for our common stock. The following table sets forth for the periods indicated the high and low sale prices of our common stock on the NASDAQ Global Select Market.

<u>Fiscal Quarter</u>	<u>High</u>	<u>Low</u>
<i>2016</i>		
Fourth Quarter (14 weeks ended December 31, 2016)	\$ 56.13	\$ 46.55
Third Quarter (13 weeks ended September 24, 2016)	\$ 50.34	\$ 41.29
Second Quarter (13 weeks ended June 25, 2016)	\$ 49.59	\$ 42.00
First Quarter (13 weeks ended March 26, 2016)	\$ 48.29	\$ 36.44
<i>2015</i>		
Fourth Quarter (13 weeks ended December 26, 2015)	\$ 50.17	\$ 39.29
Third Quarter (13 weeks ended September 26, 2015)	\$ 56.79	\$ 46.50
Second Quarter (13 weeks ended June 27, 2015)	\$ 55.60	\$ 46.89
First Quarter (13 weeks ended March 28, 2015)	\$ 48.69	\$ 41.72

On February 20, 2017, we had 974 holders of record of our common stock.

## Dividend policy

During fiscal years 2016 and 2015, the Company paid dividends on common stock as follows:

	Dividend per share	Total amount (in thousands)	Payment date
<b>Fiscal year 2016:</b>			
First quarter	\$ 0.3000	\$ 27,395	March 16, 2016
Second quarter	\$ 0.3000	\$ 27,456	June 8, 2016
Third quarter	\$ 0.3000	\$ 27,475	August 31, 2016
Fourth quarter	\$ 0.3000	\$ 27,377	November 30, 2016
<b>Fiscal year 2015:</b>			
First quarter	\$ 0.2650	\$ 25,688	March 18, 2015
Second quarter	\$ 0.2650	\$ 25,127	June 17, 2015
Third quarter	\$ 0.2650	\$ 25,197	September 2, 2015
Fourth quarter	\$ 0.2650	\$ 24,504	December 2, 2015

On February 9, 2017, we announced that our board of directors approved an increase to the next quarterly dividend to \$0.3225 per share of common stock payable on March 22, 2017.

We currently anticipate continuing the payment of quarterly cash dividends. The actual amount of such dividends will depend upon future earnings, results of operations, capital requirements, our financial condition, and certain other factors. There can be no assurance as to the amount of free cash flow that we will generate in future years and, accordingly, dividends will be considered after reviewing returns to shareholders, profitability expectations, and financing needs and will be declared at the discretion of our board of directors.

## Issuer Purchases of Equity Securities

The following table contains information regarding purchases of our common stock made during the quarter ended December 31, 2016 by or on behalf of Dunkin' Brands Group, Inc. or any "affiliated purchaser," as defined by Rule 10b-18(a)(3) of the Securities Exchange Act of 1934:

Period	Issuer Purchases of Equity Securities			
	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet be Purchased Under the Plans or Programs
09/25/16 - 10/22/16	—	\$ —	—	\$ 170,000,000
10/23/16 - 11/26/16	520,631	48.01	520,631	145,002,654
11/27/16 - 12/31/16	—	—	—	145,002,654
Total	520,631	\$ 48.01	520,631	

On February 4, 2016, our board of directors increased the availability under the existing share repurchase program, which was approved by our board of directors on January 26, 2015, to \$200.0 million of outstanding shares of our common stock. This repurchase authorization expires two years from the date of such increase. Under the program, purchases may be made in the open market or in privately negotiated transactions from time to time subject to market conditions.

## Securities authorized for issuance under our equity compensation plans

	(a)	(b)	(c)
<b>Plan Category</b>	<b>Number of securities to be issued upon exercise of outstanding options, warrants, and rights<sup>(1)(4)</sup></b>	<b>Weighted-average exercise price of outstanding options, warrants and rights<sup>(2)</sup></b>	<b>Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))<sup>(3)(4)</sup></b>
Equity compensation plans approved by security holders	6,227,376	\$ 35.75	5,166,611
Equity compensation plans not approved by security holders	—	—	—
<b>TOTAL</b>	<b>6,227,376</b>	<b>\$ 35.75</b>	<b>5,166,611</b>

<sup>(1)</sup>Consists of 5,896,826 shares issuable upon exercise of outstanding options, 217,509 shares issuable upon vesting of outstanding restricted stock units, and 113,041 shares issuable upon vesting of performance stock units under approved plans.

<sup>(2)</sup>The weighted-average exercise price takes into account 330,550 shares under approved plans issuable upon vesting of outstanding restricted stock units and performance stock units, which have no exercise price. The weighted average exercise price solely with respect to stock options outstanding under the approved plans is \$37.75.

<sup>(3)</sup>Consists of 4,694,292 shares remaining available for issuance under the Company's 2015 Omnibus Long-Term Incentive Plan and 472,319 shares remaining available for issuance under the Company's employee stock purchase plan.

<sup>(4)</sup>Amounts exclude the impact of a maximum 113,041 of incremental shares that may be issuable upon vesting based on the level of performance achieved related to performance stock units.

## Performance Graph

The following graph depicts the total return to shareholders for the five-year period ended December 31, 2016, relative to the performance of the Standard & Poor's 500 Index and the Standard & Poor's 500 Consumer Discretionary Sector, a peer group. The graph assumes an investment of \$100 in our common stock and each index on December 31, 2011 and the reinvestment of dividends paid since that date. The stock price performance shown in the graph is not necessarily indicative of future price performance.

	12/31/2011	12/29/2012	12/28/2013	12/27/2014	12/26/2015	12/31/2016
Dunkin' Brands Group, Inc. (DNKN)	\$ 100.00	\$ 131.49	\$ 197.64	\$ 178.79	\$ 182.76	\$ 231.90
S&P 500	\$ 100.00	\$ 111.06	\$ 145.82	\$ 165.41	\$ 163.21	\$ 177.29
S&P Consumer Discretionary	\$ 100.00	\$ 118.87	\$ 169.60	\$ 184.78	\$ 201.00	\$ 208.87

**Item 6. Selected Financial Data.**

The following table sets forth our selected historical consolidated financial and other data, and should be read in conjunction with “Management’s discussion and analysis of financial condition and results of operations” and the consolidated financial statements and the related notes thereto appearing elsewhere in this Annual Report on Form 10-K. The selected historical financial data has been derived from our audited consolidated financial statements. Historical results are not necessarily indicative of the results to be expected for future periods. The data in the following table related to adjusted operating income, adjusted net income, points of distribution, comparable store sales growth, systemwide sales, and systemwide sales growth are unaudited for all periods presented. The data for fiscal year 2016 reflects the results of operations for a 53-week period. All other periods presented reflect the results of operations for 52-week periods.

- (1) Fiscal year 2012 includes a \$20.7 million incremental legal reserve recorded in the second quarter related to the Quebec Superior Court's ruling in the Bertico litigation, in which the Court found for the Plaintiffs and issued a judgment against Dunkin' Brands in the amount of approximately C\$16.4 million, plus costs and interest. Fiscal year 2015 includes a net reduction to legal reserves for the Bertico litigation and related matters of \$2.8 million, as a result of the Quebec Court of Appeals (Montreal) ruling to reduce the damages assessed against the Company in the Bertico litigation from approximately C\$16.4 million to approximately C\$10.9 million, plus costs and interest. Fiscal year 2016 includes a net reduction to legal reserves for the Bertico litigation and related matters of \$428 thousand based upon final agreement of interest and related costs associated with the judgment.
- (2) Fiscal year 2015 includes an impairment of our equity method investment in the Japan joint venture of \$54.3 million.
- (3) Includes capital lease obligations of \$8.1 million, \$8.0 million, \$8.1 million, \$7.4 million, and \$7.6 million as of December 31, 2016, December 26, 2015, December 27, 2014, December 28, 2013, and December 29, 2012, respectively.

- (4) Adjusted operating income and adjusted net income are non-GAAP measures reflecting operating income and net income adjusted for amortization of intangible assets, long-lived asset impairments, impairment of joint ventures, and other non-recurring, infrequent, or unusual charges, net of the tax impact of such adjustments in the case of adjusted net income. The Company uses adjusted operating income and adjusted net income as key performance measures for the purpose of evaluating performance internally. We also believe adjusted operating income and adjusted net income provide our investors with useful information regarding our historical operating results. These non-GAAP measurements are not intended to replace the presentation of our financial results in accordance with GAAP. Use of the terms adjusted operating income and adjusted net income may differ from similar measures reported by other companies. Adjusted operating income and adjusted net income are reconciled from operating income and net income, respectively, determined under GAAP as follows:

	Fiscal Year				
	2016	2015	2014	2013	2012
	(Unaudited, \$ in thousands)

Adjusted net income	<u>\$ 208,694</u>	<u>187,893</u>	<u>186,113</u>	<u>165,761</u>	<u>149,700</u>

- (a) For fiscal year 2012, the adjustment includes \$3.4 million of severance and other payroll-related costs, \$4.2 million of accelerated depreciation, \$2.7 million of incremental costs of ice cream products, and \$1.6 million of other transition-related costs incurred related to the closure of the Baskin-Robbins ice cream manufacturing plant in Peterborough, Canada. The amount for fiscal year 2012 also reflects the one-time delay in revenue recognition, net of related cost of ice cream and other products, related to the shift in manufacturing to Dean Foods of \$2.1 million. For fiscal year 2013, the adjustment represents transition-related general and administrative costs incurred related to the plant closure, such as

information technology integration, project management, and transportation costs. For fiscal year 2015, the adjustment represents costs incurred related to the final settlement of the Canadian pension plan as a result of the plant closure.

- (b) Represents non-capitalizable costs incurred in connection with obtaining a new securitized financing facility, which was completed in January 2015.
  - (c) Amount consists of an other-than-temporary impairment of the investment in the Japan joint venture of \$54.3 million, less a reduction in depreciation and amortization of \$0.4 million resulting from the allocation of the impairment charge to the underlying long-lived assets of the joint venture.
  - (d) For fiscal year 2012, the adjustment represents the incremental legal reserve recorded in the second quarter of 2012 related to the Quebec Superior Court's ruling in the Bertico litigation, in which the Court found for the Plaintiffs and issued a judgment against Dunkin' Brands in the amount of approximately C\$16.4 million (approximately \$15.9 million), plus costs and interest. The adjustment for fiscal year 2015 represents the net reduction to legal reserves for the Bertico litigation and related matters of \$2.8 million, as a result of the Quebec Court of Appeals (Montreal) ruling to reduce the damages assessed against the Company in the Bertico litigation from approximately C\$16.4 million to approximately C\$10.9 million, plus costs and interest. The adjustment for the fiscal year 2016 represents a net reduction to legal reserves for the Bertico litigation and related matters of \$428 thousand based upon final agreement of interest and related costs associated with the judgment.
  - (e) Adjusted operating income includes the impact of the 53rd week for fiscal year 2016. Based on our estimate of that extra week on certain revenues and expenses, the impact of the extra week in fiscal year 2016 on adjusted operating income was approximately \$6.1 million. Excluding the impact of the extra week, adjusted operating income for fiscal year 2016 would have been approximately \$430.5 million on a 52-week basis.
  - (f) Tax impact of adjustments calculated at a 40% effective tax rate for each period presented, excluding the Japan joint venture impairment as there was no tax impact related to this charge and the Bertico litigation adjustment for which the tax impact is calculated separately.
  - (g) Tax impact of Bertico litigation adjustments calculated as if the adjustments had not been recorded, considering deductibility and statutory tax rates in effect for the respective fiscal years.
  - (h) Represents income tax benefits resulting from the settlement of historical tax positions settled during the prior period, primarily related to the accounting for the acquisition of the Company by private equity firms in 2006.
  - (i) Represents the net tax impact of converting Dunkin' Brands Canada Ltd. to Dunkin' Brands Canada ULC.
  - (j) Represents tax expense recognized due to an increase in our overall state tax rate for a shift in the apportionment of income to certain state jurisdictions.
- (5) Represents period end points of distribution. Beginning in fiscal year 2016, restaurants located in Puerto Rico were previously included in the Dunkin' Donuts International and Baskin-Robbins International segments, but are now included in the Dunkin' Donuts U.S. and Baskin-Robbins U.S. segments based on functional responsibility. Prior year amounts have been revised to reflect these changes for all years presented.
- (6) Represents the growth in average weekly sales for franchisee- and company-operated restaurants that have been open at least 78 weeks (approximately 18 months) that have reported sales in the current and comparable prior year week.
- (7) Generally represents the growth in local currency average monthly sales for franchisee-operated restaurants, including joint ventures, that have been open at least 13 months and that have reported sales in the current and comparable prior year month.
- (8) Systemwide sales include sales at franchisee- and company-operated restaurants, including joint ventures. While we do not record sales by franchisees, licensees, or joint ventures as revenue, and such sales are not included in our consolidated financial statements, we believe that this operating measure is important in obtaining an understanding of our financial performance. We believe systemwide sales information aids in understanding how we derive royalty revenue and in evaluating our performance relative to competitors. Beginning in the fiscal year 2016, we began presenting systemwide sales rather than franchisee-reported sales, which excluded sales of company-operated restaurants, as we believe the systemwide sales information is a more complete metric in obtaining an understanding of our financial performance. Additionally, systemwide sales related to restaurants located in Puerto Rico were previously included in the Dunkin' Donuts International and Baskin-Robbins International segments, but are now included in the Dunkin' Donuts U.S. and Baskin-Robbins U.S. segments based on functional responsibility for all years presented.
- (9) Systemwide sales growth represents the percentage change in systemwide sales from the comparable period of the prior year. Changes in systemwide sales are driven by changes in average comparable store sales and changes in the number of restaurants. Percentage change in systemwide sales for all prior years presented was revised for systemwide sales related to restaurants located in Puerto Rico that were previously included in the Dunkin' Donuts International and Baskin-Robbins International segments, but are now included in the Dunkin' Donuts U.S. and Baskin-Robbins U.S. segments based on functional responsibility.

## Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

*The following discussion of our financial condition and results of operations should be read in conjunction with the selected financial data and the audited financial statements and related notes appearing elsewhere in this Annual Report on Form 10-K. This discussion contains forward-looking statements about our markets, the demand for our products and services and our future results and involves numerous risks and uncertainties. Generally these statements can be identified by the use of words such as "anticipate," "believe," "could," "estimate," "expect," "feel," "forecast," "intend," "may," "plan," "potential," "project," "should" or "would" and similar expressions intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. Our forward-looking statements are subject to risks and uncertainties, which may cause actual results to differ materially from those projected or implied by the forward-looking statement. Forward-looking statements are based on current expectations and assumptions and currently available data and are neither predictions nor guarantees of future events or performance. You should not place undue reliance on forward-looking statements, which speak only as of the date hereof. See "Risk factors" for a discussion of factors that could cause our actual results to differ from those expressed or implied by forward-looking statements.*

### Introduction and overview

We are one of the world's leading franchisors of quick service restaurants ("QSRs") serving hot and cold coffee and baked goods, as well as hard serve ice cream. We franchise restaurants under our Dunkin' Donuts and Baskin-Robbins brands. With over 20,000 points of distribution in more than 60 countries worldwide, we believe that our portfolio has strong brand awareness in our key markets. QSR is a restaurant format characterized by counter or drive-thru ordering and limited or no table service. As of December 31, 2016, Dunkin' Donuts had 12,258 global points of distribution with restaurants in 41 U.S. states and the District of Columbia and in 44 foreign countries. Baskin-Robbins had 7,822 global points of distribution as of the same date, with restaurants in 43 U.S. states, the District of Columbia, Puerto Rico, and in 51 foreign countries.

We are organized into four reporting segments: Dunkin' Donuts U.S., Dunkin' Donuts International, Baskin-Robbins U.S., and Baskin-Robbins International. We generate revenue from four primary sources: (i) royalty income and franchise fees associated with franchised restaurants, (ii) rental income from restaurant properties that we lease or sublease to franchisees, (iii) sales of ice cream and other products to franchisees in certain international markets, and (iv) other income including fees for the licensing of our brands for products sold in certain retail outlets, the licensing of the right to manufacture Baskin-Robbins ice cream products sold to U.S. franchisees, refranchising gains, transfer fees from franchisees, and online training fees. Prior to completing the sale of all company-operated restaurants in fiscal year 2016, we also generated revenue from retail store sales at our company-operated restaurants.

Approximately 66% of our revenue for fiscal year 2016 was derived from royalty income and franchise fees. Rental income from franchisees that lease or sublease their properties from us accounted for 12% of our revenue for fiscal year 2016. An additional 14% of our revenue for fiscal year 2016 was generated from sales of ice cream and other products to franchisees in certain international markets. The balance of our revenue for fiscal year 2016 consisted of revenue from our company-operated restaurants, license fees on products sold in non-franchised outlets, license fees on sales of ice cream and other products to Baskin-Robbins franchisees in the U.S., refranchising gains, transfer fees from franchisees, and online training fees.

Franchisees fund the vast majority of the cost of new restaurant development. As a result, we are able to grow our system with lower capital requirements than many of our competitors. With no company-operated points of distribution as of December 31, 2016, we are less affected by store-level costs, profitability, and fluctuations in commodity costs than other QSR operators.

Our franchisees fund substantially all of the advertising that supports both brands. Those advertising funds also fund the cost of our marketing, research and development, and innovation personnel. Royalty payments and advertising fund contributions typically are made on a weekly basis for restaurants in the U.S., which limit our working capital needs. For fiscal year 2016, franchisee contributions to the U.S. advertising funds were \$430.3 million.

We operate and report financial information on a 52- or 53-week year on a 13-week quarter basis with the fiscal year ending on the last Saturday in December and fiscal quarters ending on the 13th Saturday of each quarter (or 14th Saturday when applicable with respect to the fourth fiscal quarter). The data periods contained within fiscal years 2016, 2015, and 2014 reflect the results of operations for the 53-week, 52 week, and 52-week periods ending on December 31, 2016, December 26, 2015, and December 27, 2014, respectively. Certain financial measures and other metrics have been presented with the impact of the additional week on the results for fiscal year 2016. The impact of the additional week in fiscal year 2016 reflects our estimate of the 53rd week on systemwide sales growth, revenues, and expenses.

## Selected operating and financial highlights

	Fiscal year		
	2016	2015	2014
Systemwide sales growth	6.6 %	4.1 %	5.1 %
Comparable store sales growth (decline):			
Dunkin' Donuts U.S.	1.6 %	1.4 %	1.7 %
Dunkin' Donuts International	(1.9)%	0.5 %	(2.0)%
Baskin-Robbins U.S.	0.7 %	6.1 %	4.9 %
Baskin-Robbins International	(4.2)%	(1.9)%	(1.2)%
Total revenues	\$ 828,889	810,933	748,709
Operating income	414,714	319,567	338,858
Adjusted operating income	436,578	400,477	365,956
Net income attributable to Dunkin' Brands	195,576	105,227	176,357
Adjusted net income	208,694	187,893	186,113

Adjusted operating income and adjusted net income are non-GAAP measures reflecting operating income and net income adjusted for amortization of intangible assets, long-lived asset impairments, impairments of investments in joint ventures, and other non-recurring, infrequent, or unusual charges, net of the tax impact of such adjustments in the case of adjusted net income. The Company uses adjusted operating income and adjusted net income as key performance measures for the purpose of evaluating performance internally. We also believe adjusted operating income and adjusted net income provide our investors with useful information regarding our historical operating results. These non-GAAP measurements are not intended to replace the presentation of our financial results in accordance with GAAP. Use of the terms adjusted operating income and adjusted net income may differ from similar measures reported by other companies. See note 4 to "Selected Financial Data" for reconciliations of operating income and net income determined under GAAP to adjusted operating income and adjusted net income, respectively.

Systemwide sales and points of distribution information related to restaurants located in Puerto Rico were previously included in the Dunkin' Donuts International and Baskin-Robbins International segments, but are now included in the Dunkin' Donuts Donuts U.S. and Baskin-Robbins U.S. segments based on functional responsibility. Prior year amounts below have been revised to reflect these changes for all years presented.

### *Fiscal year 2016 compared to fiscal year 2015*

Overall growth in systemwide sales of 6.6% for fiscal year 2016, or 5.2% on a 52-week basis, resulted from the following:

- Dunkin' Donuts U.S. systemwide sales growth of 7.9%, which was the result of 397 net new restaurants opened in fiscal year 2016 and comparable store sales growth of 1.6%. The increase in comparable store sales was driven by an increase in average ticket, which was favorably impacted by price and unfavorably impacted by units per transaction, offset by a decline in traffic. The growth in sales was driven by beverages, led by iced coffee, including Cold Brew, and hot and iced espresso-based beverages, as well as breakfast sandwiches, led by limited-time-offer products. Approximately 190 basis points of the increase in systemwide sales was attributable to the extra week in fiscal year 2016.
- Dunkin' Donuts International systemwide sales growth of 4.2% as a result of sales increases in Europe, the Middle East, Asia, and South America, offset by a decline in sales in South Korea. Systemwide sales in all of these regions were negatively impacted by unfavorable foreign exchange rates. On a constant currency basis, systemwide sales for fiscal year 2016 increased by approximately 7%. Dunkin' Donuts International comparable store sales decreased 1.9% due primarily to declines in South Korea and Europe, offset by growth in South America.
- Baskin-Robbins U.S. systemwide sales growth of 1.5% resulting primarily from comparable store sales growth of 0.7%. Comparable store sales growth was driven by an increase in average ticket offset by a decline in traffic. Sales growth was driven primarily by increased sales of cups and cones, which was a result of increased scoop sales and the new Warm Cookie Sandwich platform. Approximately 130 basis points of the increase in systemwide sales was attributable to the extra week in fiscal year 2016.
- Baskin-Robbins International systemwide sales growth of 2.7%, driven by a sales increase in Japan, offset by sales declines in South Korea and the Middle East. Sales in Japan were positively impacted by favorable foreign exchange rates, while sales in all other regions were negatively impacted by unfavorable foreign exchange rates, most notably

South Korea. On a constant currency basis, systemwide sales for fiscal year 2016 increased by approximately 1%. Baskin-Robbins International comparable store sales declined 4.2% driven primarily by declines in South Korea and the Middle East, offset by growth in Japan.

Changes in systemwide sales are impacted, in part, by changes in the number of points of distribution. Points of distribution and net openings as of and for the fiscal years ended December 31, 2016 and December 26, 2015 were as follows:

	December 31, 2016	December 26, 2015
Points of distribution, at period end:		
Dunkin' Donuts U.S.	8,828	8,431
Dunkin' Donuts International	3,430	3,319
Baskin-Robbins U.S.	2,538	2,529
Baskin-Robbins International	5,284	5,078
Consolidated global points of distribution	<u>20,080</u>	<u>19,357</u>
	<b>Fiscal year</b>	
	<b>2016</b>	<b>2015</b>
Net openings, during the period:		
Dunkin' Donuts U.S. <sup>(1)</sup>	397	349
Dunkin' Donuts International	111	91
Baskin-Robbins U.S.	9	—
Baskin-Robbins International	206	55
Consolidated global net openings	<u>723</u>	<u>495</u>

(1) Net openings for Dunkin' Donuts U.S. for fiscal years 2016 and 2015 reflect the previously-announced closing of 18 and 81 self-serve coffee stations within Speedway locations, respectively.

The increase in total revenues of \$18.0 million, or 2.2%, for fiscal year 2016 resulted primarily from a \$36.3 million increase in franchise fees and royalty income driven by the increase in Dunkin' Donuts U.S. systemwide sales and the extra week in fiscal year 2016. These increases in revenues were offset by a decrease in sales at company-operated restaurants of \$16.4 million driven by a net decrease in the number of company-operated restaurants, as well as a decrease in other revenues of \$2.2 million, due primarily to revenue recorded in the prior fiscal year in connection with a settlement reached with a master licensee. Approximately \$8.8 million of the increase in total revenues was attributable to the extra week in fiscal year 2016, consisting primarily of additional royalty income.

Operating income increased \$95.1 million, or 29.8%, for fiscal year 2016 due primarily to an impairment of our investment in the Japan joint venture ("Japan JV") in the prior fiscal year, the increase in franchise fees and royalty income, and gains recognized in connection with the sale of company-operated restaurants. These increases in operating income were offset by an increase in general and administrative expenses. Approximately \$6.1 million of the increase in operating income was attributable to the extra week in fiscal year 2016, consisting primarily of additional royalty income, offset by additional personnel costs.

Adjusted operating income increased \$36.1 million, or 9.0%, for fiscal year 2016 driven by the increases in franchise fees and royalty income, as well as the gains recognized in connection with the sale of company-operated restaurants. These increases in revenues were offset by an increase in general and administrative expenses. Approximately \$6.1 million of the increase in adjusted operating income was attributable to the extra week in fiscal year 2016, consisting primarily of additional royalty income, offset by additional personnel costs.

Net income attributable to Dunkin' Brands increased \$90.3 million, or 85.9%, for fiscal year 2016 as a result of the \$95.1 million increase in operating income and a \$20.6 million loss on debt extinguishment and refinancing transactions recorded in the prior fiscal year, offset by increases in income tax expense of \$21.3 million and net interest expense of \$3.9 million driven by additional borrowings incurred in conjunction with the securitization refinancing transaction completed during January 2015. Also contributing to the increase in net interest expense was the extra week in fiscal year 2016.

Adjusted net income increased \$20.8 million, or 11.1%, for fiscal year 2016 resulting primarily from the \$36.1 million increase in adjusted operating income, offset by increases in income tax expense and net interest expense.

### ***Fiscal year 2015 compared to fiscal year 2014***

Overall growth in systemwide sales of 4.1% for fiscal year 2015, resulted from the following:

- Dunkin' Donuts U.S. systemwide sales growth of 6.2%, which was the result of 349 net new restaurants opened in fiscal year 2015 and comparable store sales growth of 1.4%. The increase in comparable store sales was driven by an increase in average ticket, which was favorably impacted by pricing and unfavorably impacted by product mix, offset by a decline in traffic. The growth in average ticket was led by sales of beverages, including iced coffee and espresso, and donuts. In-restaurant K-Cup® sales had a negative impact on comparable store sales.
- Dunkin' Donuts International systemwide sales decline of 2.8% as a result of sales decreases in South Korea and Colombia, offset by sales increases in the Middle East, Asia, and Europe. Sales in South Korea, Europe, South America, and Asia were negatively impacted by unfavorable foreign exchange rates. On a constant currency basis, systemwide sales for fiscal year 2015 increased by approximately 6%. Dunkin' Donuts International comparable store sales increased 0.5% driven primarily by increases in Asia, South America, and the Middle East, offset by declines in Europe and South Korea.
- Baskin-Robbins U.S. systemwide sales growth of 6.1% resulting primarily from comparable store sales growth of 6.1%. Baskin-Robbins U.S. comparable store sales growth was driven by increased sales of cups and cones, beverages, desserts, and sundaes, as well as increased sales of cakes stimulated by strong year-over-year growth of online cake ordering. Comparable store sales growth was driven by increases in both traffic and ticket.
- Baskin-Robbins International systemwide sales decline of 4.6%, driven by sales declines in Japan, South Korea, and Europe, offset by sales growth in the Middle East and Asia. Sales in all regions were negatively impacted by unfavorable foreign exchange rates, most notably Japan and South Korea. On a constant currency basis, systemwide sales for fiscal year 2015 increased by approximately 5%. Baskin-Robbins International comparable store sales declined 1.9% driven primarily by declines in Japan and South Korea, offset by growth in the Middle East.

Changes in systemwide sales are impacted, in part, by changes in the number of points of distribution. Points of distribution and net openings as of and for the fiscal years ended December 26, 2015 and December 27, 2014 were as follows:

	<b>December 26, 2015</b>	<b>December 27, 2014</b>
<b>Points of distribution, at period end:</b>		
Dunkin' Donuts U.S.	8,431	8,082
Dunkin' Donuts International	3,319	3,228
Baskin-Robbins U.S.	2,529	2,529
Baskin-Robbins International	5,078	5,023
Consolidated global points of distribution	<u>19,357</u>	<u>18,862</u>
	<b>Fiscal year ended</b>	
	<b>December 26, 2015</b>	<b>December 27, 2014</b>
<b>Net openings, during the period:</b>		
Dunkin' Donuts U.S.	349	387
Dunkin' Donuts International	91	65
Baskin-Robbins U.S.	—	17
Baskin-Robbins International	55	235
Consolidated global net openings	<u>495</u>	<u>704</u>

The increase in total revenues of \$62.2 million, or 8.3%, for fiscal year 2015 resulted primarily from a \$30.9 million increase in franchise fees and royalty income driven by the increase in Dunkin' Donuts U.S. systemwide sales and additional franchise fees due to favorable development mix and additional gross development, and an increase in other revenues of \$24.7 million, due primarily to licensing fees earned from the Dunkin' K-Cup® pod licensing agreement. Also contributing to the increase in revenues for fiscal year 2015 was an increase in sales at company-operated restaurants of \$6.1 million, driven by a net increase in the number of company-operated restaurants.

Operating income decreased \$19.3 million, or 5.7%, for fiscal year 2015 driven by a \$54.3 million impairment of our investment in the Japan JV, an increase in general and administrative expenses driven primarily by incremental incentive compensation accruals, an increase in share-based compensation, and costs incurred related to the final settlement of our

Canadian pension plan as a result of the closure of our Canadian ice cream manufacturing plant in fiscal year 2012. Also contributing to the decrease in operating income was a decrease in other operating income due to the timing of the sale of real estate and a gain recognized in the prior year in connection with the sale of company-operated restaurants in the Atlanta market. These items were offset by the increase in franchise fees and royalty income, licensing fees earned from the sale of Dunkin' K-Cup® pods, and an increase in ice cream margin.

Adjusted operating income increased \$34.5 million, or 9.4%, for fiscal year 2015 driven by the increases in franchise fees and royalty income, licensing fees earned from the Dunkin' K-Cup® pod licensing agreement, and ice cream margin. The increases in revenues and ice cream margin were offset by an increase in general and administrative expenses, net, driven primarily by incremental incentive compensation accruals and share-based compensation, and a decrease in other operating income due to the timing of the sale of real estate and a gain recognized in the prior year in connection with the sale of company-operated restaurants in the Atlanta market.

Net income attributable to Dunkin' Brands decreased \$71.1 million, or 40.3%, for fiscal year 2015 as a result of the \$19.3 million decrease in operating income, a \$28.5 million increase in net interest expense driven by additional borrowings incurred in conjunction with the securitization refinancing transaction completed during January 2015, a \$16.2 million increase in income tax expense as the prior year was favorably impacted by tax benefits resulting from a restructuring of our Canadian subsidiaries, and a \$6.8 million increase in loss on debt extinguishment and refinancing transactions.

Adjusted net income increased \$1.8 million, or 1.0%, for fiscal year 2015 resulting primarily from a \$34.5 million increase in adjusted operating income, offset by increases in net interest expense and income tax expense.

### **Earnings per share**

Earnings per common share and diluted adjusted earnings per common share were as follows:

	Fiscal year		
	2016	2015	2014
Earnings per share:			
Common – basic	\$ 2.14	1.10	1.67
Common – diluted	2.11	1.08	1.65
Diluted adjusted earnings per share	2.26	1.93	1.74

Diluted adjusted earnings per share is calculated using adjusted net income, as defined above, and diluted weighted average shares outstanding. Diluted adjusted earnings per share is not a presentation made in accordance with GAAP, and our use of the term diluted adjusted earnings per share may vary from similar measures reported by others in our industry due to the potential differences in the method of calculation. Diluted adjusted earnings per share should not be considered as an alternative to earnings per share derived in accordance with GAAP. Diluted adjusted earnings per share has important limitations as an analytical tool and should not be considered in isolation or as a substitute for analysis of our results as reported under GAAP. Because of these limitations, we rely primarily on our GAAP results. However, we believe that presenting diluted adjusted earnings per share is appropriate to provide investors with useful information regarding our historical operating results.

The following table sets forth the computation of diluted adjusted earnings per share:

	Fiscal year		
	2016	2015	2014
Adjusted net income	\$ 208,694	187,893	186,113
Weighted average number of common shares–diluted	92,538,282	97,131,674	106,705,778
Diluted adjusted earnings per share	\$ 2.26	1.93	1.74

## Results of operations

### Fiscal year 2016 compared to fiscal year 2015

#### Consolidated results of operations

	Fiscal year		Increase (Decrease)	
	2016	2015	\$	%
(In thousands, except percentages)				
Franchise fees and royalty income	\$ 549,571	513,222	36,349	7.1 %
Rental income	101,020	100,422	598	0.6 %
Sales of ice cream and other products	114,857	115,252	(395)	(0.3)%
Sales at company-operated restaurants	11,975	28,340	(16,365)	(57.7)%
Other revenues	51,466	53,697	(2,231)	(4.2)%
Total revenues	\$ 828,889	810,933	17,956	2.2 %

Total revenues increased \$18.0 million, or 2.2%, in fiscal year 2016, driven by an increase in franchise fees and royalty income of \$36.3 million, or 7.1%, primarily as a result of Dunkin' Donuts U.S. systemwide sales growth and the extra week in fiscal year 2016, as well as an increase in rental income of \$0.6 million driven primarily by an increase in the number of leases. These increases in revenues were offset by a decrease in sales at company-operated restaurants of \$16.4 million driven by a net decrease in the number of company-operated restaurants. All remaining company-operated points of distribution were sold during fiscal year 2016. Also offsetting the increase in revenues was a decrease in other revenues of \$2.2 million due primarily to revenue recorded in the prior fiscal year in connection with a settlement reached with a master licensee, a decrease in refranchising gains, and a one-time upfront license fee recognized in connection with the Dunkin' K-Cup® pod licensing agreement in the prior fiscal year, offset by increases in transfer fees and licensing income. Sales of ice cream and other products decreased by \$0.4 million. Approximately \$8.8 million of the increase in total revenues was attributable to the extra week in fiscal year 2016, consisting primarily of additional royalty income.

	Fiscal year		Increase (Decrease)	
	2016	2015	\$	%
(In thousands, except percentages)				
Occupancy expenses – franchised restaurants	\$ 57,409	54,611	2,798	5.1 %
Cost of ice cream and other products	77,608	76,877	731	1.0 %
Company-operated restaurant expenses	13,591	29,900	(16,309)	(54.5)%
General and administrative expenses, net	246,814	243,796	3,018	1.2 %
Depreciation and amortization	42,537	45,244	(2,707)	(6.0)%
Long-lived asset impairment charges	149	623	(474)	(76.1)%
Total operating costs and expenses	\$ 438,108	451,051	(12,943)	(2.9)%
Net income (loss) of equity method investments	14,552	(41,745)	56,297	n/m
Other operating income, net	9,381	1,430	7,951	556.0 %
Operating income	\$ 414,714	319,567	95,147	29.8 %

Occupancy expenses for franchised restaurants for fiscal year 2016 increased \$2.8 million, or 5.1%, from the prior fiscal year due primarily to expenses incurred to record lease-related liabilities as a result of lease terminations, as well as an increase in the number of leases for franchised locations.

Net margin on ice cream products decreased \$1.1 million for fiscal year 2016 to \$37.2 million due primarily to an increase in commodity costs and a decline in sales volume.

Company-operated restaurant expenses decreased \$16.3 million, or 54.5%, from the prior year primarily as a result of a net decrease in the number of company-operated restaurants.

General and administrative expenses increased \$3.0 million, or 1.2%, in fiscal year 2016 due primarily to an increase in consulting fees, a reduction in legal reserves recorded in the prior fiscal year, and an increase in personnel costs due partially to the 53rd week in the fiscal year. These increases in general and administrative expenses were offset by costs incurred in the prior fiscal year related to the final settlement of our Canadian pension plan, a decrease in bad debt expense, and costs incurred in the prior fiscal year to support brand-building activities.

Depreciation and amortization decreased \$2.7 million in fiscal year 2016 resulting primarily from a decrease in amortization due to certain intangible assets becoming fully amortized and favorable lease intangible assets being written-off upon termination of the related leases.

The decrease in long-lived asset impairment charges in fiscal year 2016 of \$0.5 million was driven primarily by the timing of lease terminations, which resulted in the write-off of favorable lease intangible assets and leasehold improvements.

Net income (loss) of equity method investments increased \$56.3 million in fiscal year 2016 as the prior fiscal year included an impairment of our investment in the Japan JV of \$54.3 million as a result of an other-than-temporary decline in the value of our investment. Also contributing to the increase was an increase in net income from our Japan JV, offset by a decrease in net income from our South Korea joint venture.

Other operating income, net includes gains recognized in connection with the sale of real estate and company-operated restaurants and fluctuates based on the timing of such transactions. Other operating income for fiscal year 2016 includes gains totaling \$7.6 million recognized in connection with the sale of the company-operated restaurants in the Dallas, Texas and Boston, Massachusetts markets.

	Fiscal year		Increase (Decrease)	
	2016	2015	\$	%
(In thousands, except percentages)				
Interest expense, net	\$ 100,270	96,341	3,929	4.1 %
Loss on debt extinguishment and refinancing transactions	—	20,554	(20,554)	(100.0)%
Other losses, net	1,195	1,084	111	10.2 %
Total other expense	\$ 101,465	117,979	(16,514)	(14.0)%

The increase in net interest expense for fiscal year 2016 of \$3.9 million was driven primarily by the securitization refinancing transaction that occurred in January 2015, which resulted in additional borrowings and an increase in the weighted average interest rate, as well as an increase in amortization of capitalized debt issuance costs compared to the prior fiscal year. Also contributing to the increase in net interest expense was the extra week in fiscal year 2016.

The loss on debt extinguishment and refinancing transactions for fiscal year 2015 of \$20.6 million resulted from the January 2015 securitization refinancing transaction.

The increase in other losses, net, for fiscal year 2016 was driven primarily by foreign exchange losses due primarily to fluctuations in the U.S. dollar against foreign currencies.

	Fiscal year	
	2016	2015
(In thousands, except percentages)		
Income before income taxes	\$ 313,249	201,588
Provision for income taxes	117,673	96,359
Effective tax rate	37.6%	47.8%

The decrease in the effective tax rate compared to the prior fiscal year resulted primarily from the impairment of our investment in the Japan JV in the prior fiscal year, which reduced income before income taxes but for which there is no corresponding tax benefit. The impact of the impairment of our investment in the Japan JV was approximately 10% on the overall effective tax rate for fiscal year 2015.

### Operating segments

We operate four reportable operating segments: Dunkin' Donuts U.S., Dunkin' Donuts International, Baskin-Robbins U.S., and Baskin-Robbins International. We evaluate the performance of our segments and allocate resources to them based on operating income adjusted for amortization of intangible assets, long-lived asset impairment charges, and other infrequent or unusual charges, which does not reflect the allocation of any corporate charges. This profitability measure is referred to as segment profit. Segment profit for the Dunkin' Donuts International and Baskin-Robbins International segments includes net income of equity method investments, except for other-than-temporary impairment charges and the related reduction in depreciation, net of tax, on the underlying long-lived assets.

Beginning in fiscal year 2016, certain segment profit amounts in the tables below have been reclassified as a result of the realignment of our organizational structure to better support our segment operations, including the allocation of previously unallocated costs. Additionally, revenues and segment profit related to restaurants located in Puerto Rico were previously included in the Dunkin' Donuts International and Baskin-Robbins International segments, but are now included in the Dunkin' Donuts Donuts U.S. and Baskin-Robbins U.S. segments based on functional responsibility. Prior year amounts in the tables below have been revised to reflect these changes for all years presented.

For reconciliations to total revenues and income before income taxes, see note 12 to our consolidated financial statements included herein. Revenues for all segments include only transactions with unaffiliated customers and include no intersegment revenues. Revenues not included in segment revenues include revenue earned through certain licensing arrangements with third parties in which our brand names are used, revenue generated from online training programs for franchisees, and revenues from the sale of Dunkin' Donuts products in certain international markets, all of which are not allocated to a specific segment.

*Dunkin' Donuts U.S.*

	Fiscal year		Increase (Decrease)	
	2016	2015	\$	%
	(In thousands, except percentages)			
Royalty income	\$ 448,609	413,692	34,917	8.4 %
Franchise fees	40,973	42,503	(1,530)	(3.6)%
Rental income	97,540	96,827	713	0.7 %
Sales at company-operated restaurants	11,975	28,340	(16,365)	(57.7)%
Other revenues	8,867	9,700	(833)	(8.6)%
Total revenues	\$ 607,964	591,062	16,902	2.9 %
Segment profit	\$ 466,976	431,065	35,911	8.3 %

The increase in Dunkin' Donuts U.S. revenues for fiscal year 2016 was driven primarily by an increase in royalty income of \$34.9 million as a result of an increase in systemwide sales and the extra week in fiscal year 2016, offset by a decrease in sales at company-operated restaurants of \$16.4 million due to a net decrease in the number of company-operated restaurants operating during the year, as well as a decrease in franchise fees of \$1.5 million due to unfavorable development mix. Approximately \$8.3 million of the increase in total revenues was attributable to the extra week in fiscal year 2016, consisting primarily of additional royalty income.

The increase in Dunkin' Donuts U.S. segment profit for fiscal year 2016 was driven primarily by the increase in royalty income and gains recognized in connection with the sale of company-operated restaurants. These increases in segment profit were offset by an increase in general and administrative expenses driven by an increase in personnel costs, due partially to the 53rd week in the fiscal year, as well as expenses incurred to record lease-related liabilities as a result of lease terminations and the decrease in franchise fees.

*Dunkin' Donuts International*

	Fiscal year		Increase (Decrease)	
	2016	2015	\$	%
	(In thousands, except percentages)			
Royalty income	\$ 16,791	15,658	1,133	7.2 %
Franchise fees	5,655	5,017	638	12.7 %
Rental income	—	13	(13)	(100.0)%
Other revenues	457	2,285	(1,828)	(80.0)%
Total revenues	\$ 22,903	22,973	(70)	(0.3)%
Segment profit	\$ 9,658	10,240	(582)	(5.7)%

The decrease in Dunkin' Donuts International revenues for fiscal year 2016 resulted primarily from a decrease in other revenues of \$1.8 million due primarily to revenue recorded in the prior fiscal year in connection with a settlement reached with a master licensee, offset by increases in royalty income of \$1.1 million and franchise fees of \$0.6 million driven by development in new markets.

The decrease in Dunkin' Donuts International segment profit for fiscal year 2016 was due primarily to a decrease in net income from our South Korea joint venture and the decrease in revenues, offset by a decrease in general and administrative expenses.

*Baskin-Robbins U.S.*

	Fiscal year		Increase (Decrease)	
	2016	2015	\$	%
	(In thousands, except percentages)			
Royalty income	\$ 28,909	28,348	561	2.0 %
Franchise fees	1,077	871	206	23.7 %
Rental income	2,994	2,989	5	0.2 %
Sales of ice cream and other products	2,632	4,014	(1,382)	(34.4)%
Other revenues	11,900	10,918	982	9.0 %
Total revenues	\$ 47,512	47,140	372	0.8 %
Segment profit	\$ 34,240	29,289	4,951	16.9 %

The increase in Baskin-Robbins U.S. revenues for fiscal year 2016 was due primarily to increases in other revenues of \$1.0 million driven by an increase in licensing income, royalty income of \$0.6 million due primarily to the extra week in fiscal year 2016 and an increase in systemwide sales, and franchise fees of \$0.2 million due to an increase in renewal income. Offsetting these increases in revenues was a decrease in sales of ice cream and other products of \$1.4 million. A portion of the fluctuations in licensing income and sales of ice cream and other products can be attributed to a shift in certain franchisees who previously purchased ice cream from the Company now purchasing ice cream directly from our third-party ice cream manufacturer through which we earn a licensing fee. Approximately \$0.5 million of the increase in total revenues was attributable to the extra week in fiscal year 2016, consisting primarily of additional royalty income.

Baskin-Robbins U.S. segment profit for fiscal year 2016 increased primarily as a result of a decrease in general and administrative expenses due primarily to decreases in expenses incurred related to brand-building activities and incentive compensation. Also contributing to the increase in segment profit were the increases in other revenues, royalty income, and franchise fees.

*Baskin-Robbins International*

	Fiscal year		Increase (Decrease)	
	2016	2015	\$	%
	(In thousands, except percentages)			
Royalty income	\$ 6,618	6,261	357	5.7 %
Franchise fees	939	872	67	7.7 %
Rental income	458	475	(17)	(3.6)%
Sales of ice cream and other products	110,628	109,047	1,581	1.4 %
Other revenues	372	421	(49)	(11.6)%
Total revenues	\$ 119,015	117,076	1,939	1.7 %
Segment profit	\$ 38,967	36,218	2,749	7.6 %

The increase in Baskin-Robbins International revenues for fiscal year 2016 was due primarily to an increase in sales of ice cream and other products of \$1.6 million due primarily to an increase in sales to the Middle East, as well as an increase in royalty income of \$0.4 million.

Baskin-Robbins International segment profit increased \$2.7 million for fiscal year 2016 due primarily to a decrease in general and administrative expenses driven by a reduction in bad debt expense, as well as increases in net income from our Japan joint venture and royalty income, offset by a decrease in net income of our South Korea joint venture. The increase in sales of ice cream products was offset by an increase in commodity costs.

## Fiscal year 2015 compared to fiscal year 2014

### Consolidated results of operations

	Fiscal year		Increase (Decrease)	
	2015	2014	\$	%
(In thousands, except percentages)				
Franchise fees and royalty income	\$ 513,222	482,329	30,893	6.4 %
Rental income	100,422	97,663	2,759	2.8 %
Sales of ice cream and other products	115,252	117,484	(2,232)	(1.9)%
Sales at company-operated restaurants	28,340	22,206	6,134	27.6 %
Other revenues	53,697	29,027	24,670	85.0 %
Total revenues	\$ 810,933	748,709	62,224	8.3 %

Total revenues increased \$62.2 million, or 8.3%, in fiscal year 2015, driven by an increase in franchise fees and royalty income of \$30.9 million, or 6.4%, primarily as a result of Dunkin' Donuts U.S. systemwide sales growth and additional franchise fees due to favorable development mix and additional gross development, as well as an increase in other revenues of \$24.7 million. The increase in other revenues was driven by licensing fees earned from the Dunkin' K-Cup® pod licensing agreement and increased licensing fees earned from ice cream sales by our third-party ice cream manufacturer, as well as a settlement reached with a master licensee, which resulted in the recovery of prior period royalty income and franchise fees. Also contributing to the increase in revenues was an increase in sales at company-operated restaurants of \$6.1 million driven by a net increase in the number of company-operated restaurants. An increase in rental income of \$2.8 million, driven by increases in average rent per lease, sales-based rental income, and the number of leases was offset by a decline in sales of ice cream and other products of \$2.2 million.

	Fiscal year		Increase (Decrease)	
	2015	2014	\$	%
(In thousands, except percentages)				
Occupancy expenses – franchised restaurants	\$ 54,611	53,395	1,216	2.3 %
Cost of ice cream and other products	76,877	83,129	(6,252)	(7.5)%
Company-operated restaurant expenses	29,900	22,687	7,213	31.8 %
General and administrative expenses, net	243,796	226,301	17,495	7.7 %
Depreciation and amortization	45,244	45,539	(295)	(0.6)%
Long-lived asset impairment charges	623	1,484	(861)	(58.0)%
Total operating costs and expenses	\$ 451,051	432,535	18,516	4.3 %
Net income (loss) of equity method investments	(41,745)	14,846	(56,591)	(381.2)%
Other operating income, net	1,430	7,838	(6,408)	(81.8)%
Operating income	\$ 319,567	338,858	(19,291)	(5.7)%

Occupancy expenses for franchised restaurants for fiscal year 2015 increased \$1.2 million, or 2.3%, from the prior fiscal year driven primarily by an increase in average rent per lease and an increase in sales-based rental expense.

Net margin on ice cream products increased for fiscal year 2015 to \$38.4 million as a decrease in commodity costs, increase in pricing, and favorable foreign exchange rates more than offset the decrease in sales volume.

Company-operated restaurant expenses increased \$7.2 million, or 31.8%, from the prior year primarily as a result of a net increase in the number of company-operated restaurants operating during the year.

General and administrative expenses increased \$17.5 million, or 7.7%, in fiscal year 2015 due primarily to an increase in personnel costs driven by incremental incentive compensation accruals and an increase in share-based compensation. Also contributing to the increase in general and administrative expenses were costs incurred related to the final settlement of our Canadian pension plan as a result of the closure of our Canadian ice cream manufacturing plant in fiscal year 2012, as well as an increase in costs incurred to support our consumer packaged goods and international businesses.

Depreciation and amortization decreased \$0.3 million in fiscal year 2015 resulting primarily from a decrease in amortization due to intangible assets becoming fully amortized and favorable lease intangible assets being written-off upon termination of the related leases, offset by an increase in depreciation due to the addition of depreciable assets.

The decrease in long-lived asset impairment charges in fiscal year 2015 of \$0.9 million was driven primarily by the timing of lease terminations, which resulted in the write-off of favorable lease intangible assets and leasehold improvements.

Net income (loss) of equity method investments decreased \$56.6 million in fiscal year 2015 driven by an impairment of our investment in the Japan JV of \$54.3 million. The Japan JV impairment resulted from an other-than-temporary decline in the value of our investment as a result of various factors including the continued declines in the operating performance of the joint venture and reduced future expectations of the Baskin-Robbins business in Japan, as well as an announced reconsideration of the amount of semi-annual dividend payments by the Japan JV in the fourth quarter (see note 6 to the consolidated financial statements included herein for further discussion). Also contributing to the decrease were unfavorable results from our Japan JV compared to the prior fiscal year and the impact of unfavorable foreign exchange rates on net income of our South Korea joint venture.

Other operating income, net includes gains recognized in connection with the sale of real estate and fluctuates based on the timing of such transactions. Additionally, other operating income, net of \$7.8 million for fiscal year 2014 included a gain recognized in connection with the sale of the company-operated restaurants in the Atlanta market.

	Fiscal year		Increase (Decrease)	
	2015	2014	\$	%
	(In thousands, except percentages)			
Interest expense, net	\$ 96,341	67,824	28,517	42.0 %
Loss on debt extinguishment and refinancing transactions	20,554	13,735	6,819	49.6 %
Other losses, net	1,084	1,566	(482)	(30.8)%
Total other expense	\$ 117,979	83,125	34,854	41.9 %

The increase in net interest expense for fiscal year 2015 of \$28.5 million was driven primarily by the securitization refinancing transaction that occurred in January 2015, which resulted in additional borrowings and an increase in the weighted average interest rate, as well as an increase in amortization of capitalized debt issuance costs compared to the prior fiscal year.

The loss on debt extinguishment and refinancing transactions for fiscal year 2015 of \$20.6 million resulted from the January 2015 securitization refinancing transaction. The loss on debt extinguishment and refinancing transactions for fiscal year 2014 of \$13.7 million resulted from the February 2014 refinancing transaction.

The decrease in other losses, net, for fiscal year 2015 was driven primarily by foreign exchange losses due primarily to fluctuations in the U.S. dollar against the Australian dollar and the pound sterling.

	Fiscal year	
	2015	2014
	(In thousands, except percentages)	
Income before income taxes	\$ 201,588	255,733
Provision for income taxes	96,359	80,170
Effective tax rate	47.8%	31.3%

The increased effective tax rate for fiscal year 2015 resulted primarily from the impairment of our investment in the Japan JV, which reduced income before income taxes but for which there is no corresponding tax benefit. The impact of the impairment of our investment in the Japan JV was approximately 10% on the overall effective tax rate for fiscal year 2015.

The effective tax rate for fiscal year 2014 was lower than normal primarily as a result of the net reversal of approximately \$7.0 million of reserves for uncertain tax positions for which settlement with taxing authorities was reached during the year or were otherwise deemed effectively settled. Additionally, the effective tax rate for fiscal year 2014 reflects a net tax benefit of \$8.5 million related to the restructuring of our Canadian subsidiaries, which included a legal entity conversion of Dunkin' Brands Canada, Ltd. to a British Columbia unlimited liability company.

### Operating segments

Beginning in fiscal year 2016, certain segment profit amounts in the tables below have been reclassified as a result of the realignment of our organizational structure to better support our segment operations, including the allocation of previously unallocated costs. Additionally, revenues and segment profit related to restaurants located in Puerto Rico were previously included in the Dunkin' Donuts International and Baskin-Robbins International segments, but are now included in the Dunkin' Donuts Donuts U.S. and Baskin-Robbins U.S. segments based on functional responsibility. Amounts in the tables below have been revised to reflect these changes for all years presented.

#### Dunkin' Donuts U.S.

	Fiscal year		Increase (Decrease)	
	2015	2014	\$	%
(In thousands, except percentages)				
Royalty income	\$ 413,692	388,000	25,692	6.6%
Franchise fees	42,503	37,388	5,115	13.7%
Rental income	96,827	93,703	3,124	3.3%
Sales at company-operated restaurants	28,340	22,206	6,134	27.6%
Other revenues	9,700	7,574	2,126	28.1%
Total revenues	\$ 591,062	548,871	42,191	7.7%
Segment profit	\$ 431,065	404,657	26,408	6.5%

The increase in Dunkin' Donuts U.S. revenues for fiscal year 2015 was driven primarily by an increase in royalty income of \$25.7 million as a result of an increase in systemwide sales, as well as an increase in sales at company-operated restaurants of \$6.1 million due to a net increase in the number of company-operated restaurants operating during the year. Also contributing to revenue growth were increases in franchise fees of \$5.1 million due to favorable development mix and additional gross development, rental income of \$3.1 million driven primarily by increases in average rent per lease, sales-based rental income, and the number of leases, as well as an increase in other revenues of \$2.1 million.

The increase in Dunkin' Donuts U.S. segment profit for fiscal year 2015 was driven primarily by the increases in royalty income, franchise fees, and other revenues, as well as a reduction in bad debt expense. These increases in segment profit were offset by gains recognized in the prior fiscal year in connection with the sale of the company-operated restaurants in Atlanta and other real estate, as well as increases in personnel and travel costs in the current year.

#### Dunkin' Donuts International

	Fiscal year		Increase (Decrease)	
	2015	2014	\$	%
(In thousands, except percentages)				
Royalty income	\$ 15,658	15,209	449	3.0 %
Franchise fees	5,017	4,430	587	13.3 %
Rental income	13	110	(97)	(88.2)%
Other revenues	2,285	(56)	2,341	n/m
Total revenues	\$ 22,973	19,693	3,280	16.7 %
Segment profit	\$ 10,240	9,478	762	8.0 %

The increase in Dunkin' Donuts International revenues for fiscal year 2015 resulted primarily from an increase in other revenues of \$2.3 million due primarily to a settlement reached with a master licensee resulting in the recovery of prior period royalty income and franchise fees, as well as increases in franchise fees of \$0.6 million driven by development in new markets and royalty income of \$0.4 million.

The increase in Dunkin' Donuts International segment profit for fiscal year 2015 was driven primarily by revenue growth, offset by increases in general and administrative expenses, driven by increased personnel costs, investments in international markets, and bad debt, as well as a decrease in net income from our South Korea joint venture.

*Baskin-Robbins U.S.*

	Fiscal year		Increase (Decrease)	
	2015	2014	\$	%
(In thousands, except percentages)				
Royalty income	\$ 28,348	27,015	1,333	4.9 %
Franchise fees	871	935	(64)	(6.8)%
Rental income	2,989	3,250	(261)	(8.0)%
Sales of ice cream and other products	4,014	6,725	(2,711)	(40.3)%
Other revenues	10,918	7,940	2,978	37.5 %
Total revenues	\$ 47,140	45,865	1,275	2.8 %
Segment profit	\$ 29,289	28,357	932	3.3 %

The increase in Baskin-Robbins U.S. revenues for fiscal year 2015 was due primarily to an increase in other revenues of \$3.0 million, driven by an increase in licensing income, and an increase in royalty income of \$1.3 million due to an increase in systemwide sales, offset by a decrease in sales of ice cream and other products of \$2.7 million. The fluctuations in licensing income and sales of ice cream and other products can be attributed to a shift in certain franchisees now purchasing ice cream directly from our third-party ice cream manufacturer.

Baskin-Robbins U.S. segment profit for fiscal year 2015 increased primarily as a result of the increases in other revenues and royalty income, offset by increases in general and administrative expenses due primarily to expenses incurred related to brand-building activities and increased personnel costs.

*Baskin-Robbins International*

	Fiscal year		Increase (Decrease)	
	2015	2014	\$	%
(In thousands, except percentages)				
Royalty income	\$ 6,261	7,850	(1,589)	(20.2)%
Franchise fees	872	1,502	(630)	(41.9)%
Rental income	475	516	(41)	(7.9)%
Sales of ice cream and other products	109,047	109,448	(401)	(0.4)%
Other revenues	421	433	(12)	(2.8)%
Total revenues	\$ 117,076	119,749	(2,673)	(2.2)%
Segment profit	\$ 36,218	38,968	(2,750)	(7.1)%

The decrease in Baskin-Robbins International revenues for fiscal year 2015 was due to decreases of \$1.6 million in royalty income, which was driven by a decrease in royalty income earned on ice cream sales in Russia and the negative impact of unfavorable foreign exchange rates, \$0.6 million of franchise fees, and \$0.4 million of sales of ice cream and other products due primarily to a decline in sales to Australia.

Baskin-Robbins International segment profit decreased \$2.8 million for fiscal year 2015 due primarily to the decreases in royalty income and franchise fees, and an increase in general and administrative expenses driven primarily by an increase in bad debt expense. Also contributing to the decrease in segment profit were unfavorable results from our Japan JV compared to the prior fiscal year and the impact of unfavorable foreign exchange rates on net income of our South Korea joint venture. These decreases in segment profit were offset by an increase in net margin on ice cream. A decrease in commodity costs, increase in pricing, and favorable foreign exchange rates more than offset the decrease in sales volume, resulting in an increase in net ice cream margin.

**Liquidity and capital resources**

As of December 31, 2016, we held \$361.4 million of cash and cash equivalents and \$69.7 million of short-term restricted cash that was restricted under our securitized financing facility. Included in cash and cash equivalents is \$177.9 million of cash held for advertising funds and reserved for gift card/certificate programs. Cash reserved for gift card/certificate programs also includes cash that will be used to fund initiatives from the gift card breakage liabilities (see note 10 to the consolidated

financial statements included herein). In addition, as of December 31, 2016, we had a borrowing capacity of \$74.1 million under our \$100.0 million Variable Funding Notes (as defined below).

### ***Operating, investing, and financing cash flows***

Net cash provided by operating activities was \$276.2 million during fiscal year 2016, as compared to \$185.6 million in fiscal year 2015. The \$90.6 million increase in operating cash flows was driven primarily by an increase in pre-tax income excluding non-cash items, the fluctuation of restricted cash of \$67.8 million driven by the initial funding of restricted cash accounts in accordance with the requirements of our securitized debt structure in the prior fiscal year, favorable cash flows related to our gift card program due primarily to the timing of holidays and our fiscal year end, as well as the timing of receipts and payments related to the sale of Dunkin' K-Cup® pods and the related franchisee profit-sharing program. Offsetting these increases in operating cash flows were payments made in connection with the settlement of the Bertico litigation and increases in incentive compensation payments and cash paid for income taxes.

Net cash provided by investing activities was \$1.3 million during fiscal year 2016, as compared to net cash used in investing activities of \$35.5 million in fiscal year 2015. The \$36.8 million increase in investing cash flows was driven primarily by a reduction of capital expenditures of \$15.1 million, an increase in proceeds received from the sale of real estate and company-operated restaurants of \$17.8 million, as well as cash paid for the acquisition of a company-operated restaurant in the prior fiscal year period.

Net cash used in financing activities was \$176.3 million during fiscal year 2016, as compared to \$96.9 million in fiscal year 2015. The \$79.5 million increase in net cash used in financing activities was driven primarily by the favorable impact of debt-related activities of \$614.1 million in the prior fiscal year, resulting from proceeds from the issuance of long-term debt, net of debt repayment, payment of debt issuance and other debt-related costs, and funding of restricted cash accounts, as well as the repayment of debt in the current fiscal year of \$25.0 million. Also contributing to the increase in net cash used in financing activities were additional dividends paid on common stock of \$9.2 million in fiscal year 2016 compared to fiscal year 2015, as well as a reduction of excess tax benefits from share-based compensation of \$8.8 million. Offsetting the unfavorable impact of debt-related activities was incremental cash used in the prior fiscal year for repurchases of common stock of \$570.0 million.

### ***Free cash flow***

During fiscal year 2016, net cash provided by operating activities was \$276.2 million, as compared to \$185.6 million for fiscal year 2015. Net cash provided by operating activities for fiscal years 2016 and 2015 includes net cash inflows of \$29.4 million and \$12.3 million, respectively, related to advertising funds and gift card/certificate programs. Net cash provided by operating activities for fiscal year 2015 includes the net funding of restricted cash accounts of \$65.7 million, which represents cash restricted in accordance with our securitized financing facility and will be used for operating activities such as to pay interest and real estate obligations, while net cash provided by operating activities for fiscal year 2016 includes the net release of restricted cash of \$2.1 million. Excluding cash held for advertising funds and reserved for gift card/certificate programs and excluding the fluctuation in restricted cash, we generated \$246.1 million and \$203.4 million of free cash flow during fiscal years 2016 and 2015, respectively.

The increase in free cash flow from fiscal year 2015 to 2016 was due primarily to an increase in pre-tax income, excluding non-cash items, the timing of receipts and payments related to the sale of Dunkin' K-Cup® pods and the related franchisee profit-sharing program, an increase in proceeds from the sale of real estate and company-operated restaurants, and a reduction in capital expenditures compared to the prior fiscal year. Offsetting these increases in free cash flow were payments made in connection with the settlement of the Bertico litigation and increases in incentive compensation payments and cash paid for income taxes.

Free cash flow is a non-GAAP measure reflecting net cash provided by operating and investing activities, excluding the cash flows related to advertising funds, gift card/certificate programs, and restricted cash. We use free cash flow as a key performance measure for the purpose of evaluating performance internally and our ability to generate cash. We also believe free cash flow provides our investors with useful information regarding our historical cash flow results. This non-GAAP measurement is not intended to replace the presentation of our financial results in accordance with GAAP. Use of the term free cash flow may differ from similar measures reported by other companies.

Free cash flow is reconciled from net cash provided by operating activities determined under GAAP as follows (in thousands):

	Fiscal year	
	2016	2015
Net cash provided by operating activities	\$ 276,205	185,566
Less: Increase in cash held for advertising funds and gift card/certificate programs	(29,366)	(12,335)
Plus: Increase (decrease) in restricted cash	(2,113)	65,673
Plus: Net cash provided by (used in) investing activities	1,343	(35,467)
Free cash flow, excluding cash held for advertising funds and gift card/certificate programs	<u>\$ 246,069</u>	<u>203,437</u>

### ***Borrowing capacity***

Our securitized financing facility included original aggregate borrowings of approximately \$2.60 billion, consisting of \$2.50 billion Class A-2 Notes (as defined below) and \$100.0 million of Variable Funding Notes (as defined below) which were undrawn at closing. As of December 31, 2016, there was approximately \$2.46 billion of total principal outstanding on the Class A-2 Notes, while there was \$74.1 million in available commitments under the Variable Funding Notes as \$25.9 million of letters of credit were outstanding.

On January 26, 2015, DB Master Finance LLC (the “Master Issuer”), a limited-purpose, bankruptcy-remote, wholly-owned indirect subsidiary of Dunkin’ Brands Group, Inc. (“DBGI”), entered into a base indenture and a related supplemental indenture (collectively, the “Indenture”) under which the Master Issuer may issue multiple series of notes. On the same date, the Master Issuer issued Series 2015-1 3.262% Fixed Rate Senior Secured Notes, Class A-2-I (the “Class A-2-I Notes”) with an initial principal amount of \$750.0 million and Series 2015-1 3.980% Fixed Rate Senior Secured Notes, Class A-2-II (the “Class A-2-II Notes”) and, together with the Class A-2-I Notes, the “Class A-2 Notes”) with an initial principal amount of \$1.75 billion. In addition, the Master Issuer also issued Series 2015-1 Variable Funding Senior Secured Notes, Class A-1 (the “Variable Funding Notes”) and, together with the Class A-2 Notes, the “Notes”), which allow the Master Issuer to borrow up to \$100.0 million on a revolving basis. The Variable Funding Notes may also be used to issue letters of credit. The Notes were issued in a securitization transaction pursuant to which most of the Company’s domestic and certain of its foreign revenue-generating assets, consisting principally of franchise-related agreements, real estate assets, and intellectual property and license agreements for the use of intellectual property, are held by the Master Issuer and certain other limited-purpose, bankruptcy-remote, wholly-owned indirect subsidiaries of the Company that act as guarantors of the Notes and that have pledged substantially all of their assets to secure the Notes.

The legal final maturity date of the Class A-2 Notes is in February 2045, but it is anticipated that, unless earlier prepaid to the extent permitted under the Indenture, the Class A-2-I Notes will be repaid in February 2019 and the Class A-2-II Notes will be repaid in February 2022 (the “Anticipated Repayment Dates”). Principal amortization repayments, payable quarterly, are required on the Class A-2-I Notes and Class A-2-II Notes equal to \$7.5 million and \$17.5 million, respectively, per calendar year through the respective Anticipated Repayment Dates. No principal payments will be required if a specified leverage ratio, which is a measure of outstanding debt to earnings before interest, taxes, depreciation, and amortization, adjusted for certain items (as specified in the Indenture), is less than or equal to 5.0 to 1.0, though the Company intends to continue to make the scheduled principal payments. If the Class A-2 Notes have not been repaid in full by their respective Anticipated Repayment Dates, a rapid amortization event will occur in which residual net cash flows of the Master Issuer, after making certain required payments, will be applied to the outstanding principal of the Class A-2 Notes. Various other events, including failure to maintain a minimum ratio of net cash flows to debt service, may also cause a rapid amortization event.

It is anticipated that the principal and interest on the Variable Funding Notes will be repaid in full on or prior to February 2020, subject to two additional one-year extensions.

In order to assess our current debt levels, including servicing our long-term debt, and our ability to take on additional borrowings, we monitor a leverage ratio of our long-term debt, net of cash (“Net Debt”), to adjusted earnings before interest, taxes, depreciation, and amortization (“Adjusted EBITDA”). This leverage ratio, and the related Net Debt and Adjusted EBITDA measures used to compute it are non-GAAP measures, and our use of the terms Net Debt and Adjusted EBITDA may vary from other companies, including those in our industry, due to the potential inconsistencies in the method of calculation and differences due to items subject to interpretation. Net Debt reflects the gross principal amount outstanding under our securitized financing facility and capital lease obligations, less short-term cash, cash equivalents, and restricted cash, excluding cash reserved for gift card/certificate programs. Adjusted EBITDA is defined in our securitized financing facility as net income before interest, taxes, depreciation and amortization, and impairment charges, as adjusted for certain items that are summarized in the table below. Net Debt should not be considered as an alternative to debt, total liabilities, or any other obligations derived in accordance with GAAP. Adjusted EBITDA should not be considered as an alternative to net income, operating income, or any other performance measures derived in accordance with GAAP, as a measure of operating performance, or as an alternative

to cash flows as a measure of liquidity. Net Debt, Adjusted EBITDA, and the related leverage ratio have important limitations as analytical tools and should not be considered in isolation or as a substitute for analysis of our results as reported under GAAP. However, we believe that presenting Net Debt, Adjusted EBITDA and the related leverage ratio are appropriate to provide additional information to investors to demonstrate our current debt levels and ability to take on additional borrowings.

As of December 31, 2016, we had a Net Debt to Adjusted EBITDA ratio of 4.6 to 1.0. The following is a reconciliation of our Net Debt and Adjusted EBITDA to the corresponding GAAP measures as of and for the fiscal year ending December 31, 2016, respectively (in thousands):

	<b>December 31, 2016</b>
Principal outstanding under Class A-2 Notes	\$ 2,456,250
Total capital lease obligations	8,139
Less: cash and cash equivalents	(361,425)
Less: restricted cash, current	(69,746)
Plus: cash held for gift card/certificate programs	171,749
Net Debt	<u>\$ 2,204,967</u>
	<b>Fiscal year 2016</b>
Net income	\$ 195,576
Interest expense	100,852
Income tax expense	117,673
Depreciation and amortization	42,537
Impairment charges	149
EBITDA	<u>456,787</u>
Adjustments:	
Share based compensation expense	17,181
Other <sup>(a)</sup>	1,538
Total adjustments	<u>18,719</u>
Adjusted EBITDA	<u>\$ 475,506</u>

(a) Represents costs and fees associated with various franchisee-related investments, bank fees, legal reserves, the allocation of share-based compensation expense to the advertising funds, and other non-cash gains and losses.

Based upon our current level of operations and anticipated growth, we believe that the cash generated from our operations and amounts available under our Variable Funding Notes will be adequate to meet our anticipated debt service requirements, capital expenditures, and working capital needs for at least the next twelve months. We believe that we will be able to meet these obligations even if we experience no growth in sales or profits. There can be no assurance, however, that our business will generate sufficient cash flows from operations or that future borrowings will be available under our Variable Funding Notes or otherwise to enable us to service our indebtedness, including our securitized financing facility, or to make anticipated capital expenditures. Our future operating performance and our ability to service, extend, or refinance the securitized financing facility will be subject to future economic conditions and to financial, business, and other factors, many of which are beyond our control.

#### Off balance sheet obligations

In limited instances, we issue guarantees to financial institutions so that our franchisees can obtain financing for various business purposes. We monitor the financial condition of our franchisees and record provisions for estimated losses on guaranteed liabilities of our franchisees if we believe that our franchisees are unable to make their required payments. As of December 31, 2016, if all of our outstanding guarantees of third-party franchisee financing obligations came due simultaneously, we would be liable for approximately \$1.5 million. As of December 31, 2016, there were no amounts under such guarantees that were due. We generally have cross-default provisions with these franchisees that would put the franchisee in default of its franchise agreement in the event of non-payment under such loans. We believe these cross-default provisions significantly reduce the risk that we would not be able to recover the amount of required payments under these guarantees and, historically, we have not incurred significant losses under these guarantees due to defaults by our franchisees.

We have various supply chain contracts that provide for purchase commitments or exclusivity, the majority of which result in us being contingently liable upon early termination of the agreement or engaging with another supplier. As of December 31, 2016, we were contingently liable under such supply chain agreements for approximately \$136.2 million. We assess the risk of performing under each of these guarantees on a quarterly basis, and, based on various factors including internal forecasts, prior history, and ability to extend contract terms, we have determined no material reserves are necessary related to these commitments as of December 31, 2016.

As a result of assigning our interest in obligations under property leases as a condition of the refranchising of certain restaurants and the guarantee of certain other leases, we are contingently liable on certain lease agreements. These leases have varying terms, the latest of which expires in 2024. As of December 31, 2016, the potential amount of undiscounted payments we could be required to make in the event of nonpayment by the primary lessee was \$4.0 million. Our franchisees are the primary lessees under the majority of these leases. We generally have cross-default provisions with these franchisees that would put them in default of their franchise agreement in the event of nonpayment under the lease. We believe these cross-default provisions significantly reduce the risk that we will be required to make payments under these leases, and we have not recorded a liability for such contingent liabilities.

### Contractual obligations

The following table sets forth our contractual obligations as of December 31, 2016:

(In millions)	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Long-term debt <sup>(1)</sup>	\$ 2,863.5	118.3	930.5	166.6	1,648.1
Capital lease obligations	18.7	1.6	3.0	2.5	11.6
Operating lease obligations	668.0	57.7	114.0	101.8	394.5
Short and long-term obligations <sup>(2)</sup>	0.8	0.8	—	—	—
Total <sup>(3)(4)(5)</sup>	\$ 3,551.0	178.4	1,047.5	270.9	2,054.2

- (1) Amounts include scheduled principal payments on long-term debt, as well as estimated interest of \$93.3 million, \$166.1 million, \$131.6 million, and \$16.2 million for less than 1 year, 1-3 years, 3-5 years, and more than 5 years, respectively. Amounts due under the Indenture are reflected through the anticipated repayment dates as described further above in “Liquidity and capital resources.”
- (2) Amounts include obligations to former employees under severance agreements. Excluded from these amounts are any payments that may be required related to pending litigation, as more fully described in note 17(d) to our consolidated financial statements included herein, as the amount and timing of cash requirements, if any, are uncertain. Additionally, liabilities to employees and former employees under deferred compensation arrangements totaling \$11.1 million are excluded from the table above, as timing of payment is uncertain.
- (3) We have various supply chain contracts that provide for purchase commitments or exclusivity, the majority of which result in our being contingently liable upon early termination of the agreement or engaging with another supplier. As of December 31, 2016, we were contingently liable under such supply chain agreements for approximately \$136.2 million, and considering various factors including internal forecasts, prior history, and ability to extend contract terms, no material accrual was required related to these supply chain commitments. Such amounts are not included in the table above as timing of payment, if any, is uncertain.
- (4) We are guarantors of and are contingently liable for certain lease arrangements primarily as the result of our assigning our interest. As of December 31, 2016, we were contingently liable for \$4.0 million under these guarantees, which are discussed further above in “Off balance sheet obligations.” Additionally, in certain cases, we issue guarantees to financial institutions so that franchisees can obtain financing. If all outstanding guarantees came due as of December 31, 2016, we would be liable for approximately \$1.5 million. Such amounts are not included in the table above as timing of payment, if any, is uncertain.
- (5) Income tax liabilities for uncertain tax positions, gift card/certificate liabilities, and liabilities to various advertising funds are excluded from the table above as we are not able to make a reasonably reliable estimate of the amount and period of related future payments. As of December 31, 2016, we had a liability for uncertain tax positions, including accrued interest and penalties thereon, of \$3.4 million. As of December 31, 2016, we had a gift card/certificate liability of \$207.6 million and a gift card breakage liability of \$13.3 million (see note 2(u) to our consolidated financial statements included herein). As of December 31, 2016, we had a net payable of \$11.9 million to various advertising funds.

## Critical accounting policies

Our significant accounting policies are more fully described under the heading “Summary of significant accounting policies” in Note 2 of the notes to the consolidated financial statements. However, we believe the accounting policies described below are particularly important to the portrayal and understanding of our financial position and results of operations and require application of significant judgment by our management. In applying these policies, management uses its judgment in making certain assumptions and estimates.

These judgments involve estimations of the effect of matters that are inherently uncertain and may have a significant impact on our quarterly and annual results of operations or financial condition. Changes in estimates and judgments could significantly affect our result of operations, financial condition, and cash flow in future years. The following is a description of what we consider to be our most significant critical accounting policies.

### *Revenue recognition*

Initial franchise fee revenue is recognized upon substantial completion of the services required of us as stated in the franchise agreement, which is generally upon opening of the respective restaurant. Fees collected in advance are deferred until earned. Royalty income is based on a percentage of franchisee gross sales and is recognized when earned, which occurs at the franchisees’ point of sale. Renewal fees are recognized when a renewal agreement with a franchisee becomes effective. Rental income for base rentals is recorded on a straight-line basis over the lease term. Contingent rent is recognized as earned, and any amounts received from lessees in advance of achieving stipulated thresholds are deferred until such threshold is actually achieved. Revenue from the sale of ice cream is recognized when title and risk of loss transfers to the buyer, which is generally upon delivery. Licensing fees are recognized when earned, which is generally upon sale of the underlying products by the licensees. Retail store revenues at company-operated restaurants are recognized when payment is tendered at the point of sale, net of sales tax and other sales-related taxes. Gains on the refranchise or sale of a restaurant are recognized when the sale transaction closes, the franchisee has a minimum amount of the purchase price in at risk equity, and we are satisfied that the buyer can meet its financial obligations to us.

Our revenue recognition policies will be impacted by new guidance for revenue recognition beginning in fiscal year 2018. See “Recently Issued Accounting Standards” below for further discussion.

### *Impairment of goodwill and other intangible assets*

Goodwill and trade names (“indefinite-lived intangibles”) have been assigned to our reporting units, which are also our operating segments, for purposes of impairment testing. All of our reporting units have indefinite-lived intangibles associated with them.

We evaluate the remaining useful life of our trade names to determine whether current events and circumstances continue to support an indefinite useful life. In addition, all of our indefinite-lived intangible assets are tested for impairment annually. We first assess qualitative factors to determine whether it is more likely than not that a trade name is impaired. In the event we were to determine that the carrying value of a trade name would more likely than not exceed its fair value, quantitative testing would be performed. Quantitative testing consists of a comparison of the fair value of each trade name with its carrying value, with any excess of carrying value over fair value being recognized as an impairment loss. For goodwill, we first perform a qualitative assessment to determine if the fair value of the reporting unit is more likely than not greater than the carrying amount. In the event we were to determine that a reporting unit’s carrying value would more likely than not exceed its fair value, quantitative testing would be performed which consists of a comparison of each reporting unit’s fair value to its carrying value. The fair value of a reporting unit is an estimate of the amount for which the unit as a whole could be sold in a current transaction between willing parties. If the carrying value of a reporting unit exceeds its fair value, goodwill is written down to its implied fair value. We have selected the first day of our fiscal third quarter as the date on which to perform our annual impairment test for all indefinite-lived intangible assets. We also test for impairment whenever events or circumstances indicate that the fair value of such indefinite-lived intangibles has been impaired. We determined the fair values of all reporting units with goodwill balances were substantially in excess of their respective carrying values as of the most recent goodwill testing date. No impairment of indefinite-lived intangible assets was recorded during fiscal years 2016, 2015, or 2014.

We have intangible assets other than goodwill and trade names that are amortized on a straight-line basis over their estimated useful lives or terms of their related agreements. Other intangible assets consist primarily of franchise and international license rights (“franchise rights”), ice cream distribution and territorial franchise agreement license rights (“license rights”), and operating lease interests acquired related to our prime leases and subleases (“operating leases acquired”). Franchise rights, license rights, and operating leases acquired recorded in the consolidated balance sheets were valued using an appropriate valuation method during the period of acquisition. Amortization of franchise rights, license rights, and favorable operating leases acquired is recorded as amortization expense in the consolidated statements of operations and amortized over the

respective franchise, license, and lease terms using the straight-line method. Unfavorable operating leases acquired related to our prime leases and subleases are recorded in the liability section of the consolidated balance sheets and are amortized into rental expense and rental income, respectively, over the base lease term of the respective leases using the straight-line method. Our amortizable intangible assets are evaluated for impairment whenever events or changes in circumstances indicate that the carrying amount of the intangible asset may not be recoverable. An intangible asset that is deemed impaired is written down to its estimated fair value, which is based on discounted cash flows.

#### *Income taxes*

Our major tax jurisdictions subject to income tax are the U.S. and Canada. The majority of our U.S. legal entities are limited liability companies (“LLCs”), which are single member entities that are treated as disregarded entities and included as part of DBGI in a consolidated federal income tax return. We also have subsidiaries in foreign jurisdictions that file separate tax returns in their respective countries and local jurisdictions, as required. Additionally, we have a foreign subsidiary located in Dubai within the United Arab Emirates, for which no income tax return is required to be filed. The current income tax liabilities for our foreign subsidiaries are calculated on a stand-alone basis. The current federal tax liability for each entity included in our consolidated federal income tax return is calculated on a stand-alone basis, including foreign taxes, for which a separate company foreign tax credit is calculated in lieu of a deduction for foreign withholding taxes paid. As a matter of course, we are regularly audited by federal, state, and foreign tax authorities.

Deferred tax assets and liabilities are recorded for the expected future tax consequences of items that have been included in our consolidated financial statements or tax returns. Deferred tax assets and liabilities are determined based on the differences between the financial statement carrying amounts of assets and liabilities and the respective tax bases of assets and liabilities using enacted tax rates that are expected to apply in years in which the temporary differences are expected to reverse. The effects of changes in tax rate and changes in apportionment of income between tax jurisdictions on deferred tax assets and liabilities are recognized in the consolidated statements of operations in the year in which the law is enacted or change in apportionment occurs. Valuation allowances are provided when we do not believe it is more likely than not that we will realize the benefit of identified tax assets.

A tax position taken or expected to be taken in a tax return is recognized in the financial statements when it is more likely than not that the position would be sustained upon examination by tax authorities. A recognized tax position is then measured at the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. Estimates of interest and penalties on unrecognized tax benefits are recorded in the provision for income taxes.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment.

#### *Legal contingencies*

We are engaged in litigation that arises in the ordinary course of business as a franchisor. Such matters typically include disputes related to compliance with the terms of franchise and development agreements, including claims or threats of claims of breach of contract, negligence, and other alleged violations by us. We record reserves for legal contingencies when information available to us indicates that it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. Predicting the outcomes of claims and litigation and estimating the related costs and exposures involve substantial uncertainties that could cause actual costs to vary materially from estimates. Legal costs incurred in connection with legal and other contingencies are expensed as the costs are incurred.

#### *Allowances for franchise, license, and lease receivables*

We reserve all or a portion of a franchisee’s receivable balance when deemed necessary based upon detailed review of such balances, and apply a pre-defined reserve percentage based on an aging criteria to other balances. We perform our reserve analysis during each fiscal quarter or when events or circumstances indicate that we may not collect the balance due. While we use the best information available in making our determination, the ultimate recovery of recorded receivables is also dependent upon future economic events and other conditions that may be beyond our control.

#### *Impairment of equity method investments*

We evaluate our equity method investments for impairment whenever an event or change in circumstances occurs that may have a significant adverse impact on the fair value of the investment. If a loss in value has occurred and is deemed to be other

than temporary, an impairment loss is recorded. We review several factors to determine whether a loss has occurred that is other than temporary, including absence of an ability to recover the carrying amount of the investment, the length and extent of the fair value decline, and the financial condition and future prospects of the investee.

### **Recently Issued Accounting Standards**

In January 2017, the Financial Accounting Standards Board (the "FASB") issued new guidance for goodwill impairment which requires only a single-step quantitative test to identify and measure impairment and record an impairment charge based on the excess of a reporting unit's carrying amount over its fair value. The option to perform a qualitative assessment first for a reporting unit to determine if a quantitative impairment test is necessary does not change under the new guidance. This guidance is effective for us beginning in fiscal year 2020 with early adoption permitted. We expect to adopt this guidance in fiscal year 2017. The adoption of this guidance will have no impact on our consolidated financial statements.

In November 2016, the FASB issued new guidance addressing diversity in practice that exists in the classification and presentation of changes in restricted cash in the statements of cash flows. This guidance is effective for us beginning in fiscal year 2018 with early adoption permitted. We expect to adopt this guidance retrospectively beginning in fiscal year 2017. Upon adoption, restricted cash will be combined with cash and cash equivalents when reconciling the beginning and end of period balances in the consolidated statements of cash flows, and the current presentation of changes in restricted cash within operating and financing activities will be eliminated. Upon adoption of this guidance, net cash provided by operating activities will be reduced by \$2.1 million and will increase by \$65.7 million for fiscal years 2016 and 2015, respectively, and net cash used in financing activities will increase by \$106 thousand and will be reduced by \$6.8 million for fiscal years 2016 and 2015, respectively. The adoption of this guidance will have no impact on our consolidated statements of operations and balance sheets.

In March 2016, the FASB issued new guidance for employee share-based compensation which simplifies several aspects of accounting for share-based payment transactions, including excess tax benefits, forfeiture estimates, statutory tax withholding requirements, and classification in the statements of cash flows. This guidance is effective for us in fiscal year 2017 with early adoption permitted. We expect to adopt this new guidance in fiscal year 2017. Upon adoption, any future excess tax benefits or deficiencies will be recorded to the provision for income taxes in the consolidated statements of operations instead of additional paid-in capital in the consolidated balance sheets. Additionally, excess tax benefits will be presented retrospectively as an operating cash inflow instead of a financing cash inflow in the statements of cash flows. During fiscal years 2016, 2015, and 2014, \$2.7 million, \$11.5 million, and \$10.8 million, respectively, of excess tax benefits were recorded to additional paid-in capital that would have been recorded as a reduction to the provision for income taxes, and such amounts would have been classified as operating cash inflows instead of financing cash inflows in the consolidated statements of cash flows, if this new guidance had been adopted as of the respective dates.

In February 2016, the FASB issued new guidance for lease accounting, which replaces existing lease accounting guidance. The new guidance aims to increase transparency and comparability among organizations by requiring lessees to recognize lease assets and lease liabilities on the balance sheet and requiring disclosure of key information about leasing arrangements. This guidance is effective for us in fiscal year 2019 with early adoption permitted, and modified retrospective application is required. We expect to adopt this new guidance in fiscal year 2019 and are currently evaluating the impact the adoption of this new guidance will have on our consolidated financial statements and related disclosures. We expect that substantially all of our operating lease commitments (see note 11 to our consolidated financial statements included herein) will be subject to the new guidance and will be recognized as operating lease liabilities and right-of-use assets upon adoption.

In May 2014, the FASB issued new guidance for revenue recognition related to contracts with customers, except for contracts within the scope of other standards, which supersedes nearly all existing revenue recognition guidance. The new guidance provides a single framework in which revenue is required to be recognized to depict the transfer of goods or services to customers in amounts that reflect the consideration to which a company expects to be entitled in exchange for those goods or services. The new guidance is effective for us in fiscal year 2018 with early adoption permitted in fiscal year 2017. We expect to adopt this new guidance in fiscal year 2018 using the full retrospective transition method, which will result in restating each prior reporting period presented in the year of adoption. We expect the adoption of the new guidance to change the timing of recognition of initial franchise fees, including master license and territory fees for our international business, and renewal fees. Currently, these fees are generally recognized upfront upon either opening of the respective restaurant or when a renewal agreement becomes effective. The new guidance will generally require these fees to be recognized over the term of the related franchise license for the respective restaurant, which we expect will result in a material impact to revenue recognized for franchise fees and renewal fees. We do not expect this new guidance to materially impact the recognition of royalty income, rental income, or sales of ice cream and other products. We are continuing to evaluate the impact the adoption of this new guidance will have on these and other revenue transactions, as well as the presentation of advertising fund revenues and expenses, in addition to the impact on accounting policies and related disclosures.

**Item 7A. Quantitative and Qualitative Disclosures about Market Risk**

***Foreign exchange risk***

We are subject to inherent risks attributed to operating in a global economy. Most of our revenues, costs, and debts are denominated in U.S. dollars. However, royalty income from our international franchisees is payable in U.S. dollars, and is generally based on a percentage of franchisee gross sales denominated in the foreign currency of the country in which the point of distribution is located, and is therefore subject to foreign currency fluctuations. Additionally, our investments in, and equity income from, joint ventures are denominated in foreign currencies, and are therefore also subject to foreign currency fluctuations. For fiscal year 2016, a 5% change in foreign currencies relative to the U.S. dollar would have had an approximately \$1.2 million impact on international royalty income and an approximately \$0.7 million impact on equity in net income of joint ventures. Additionally, a 5% change in foreign currencies as of December 31, 2016 would have had a \$5.7 million impact on the carrying value of our investments in joint ventures. In the future, we may consider the use of derivative financial instruments, such as forward contracts, to manage foreign currency exchange rate risks.

## Item 8. Financial Statements and Supplementary Data

### Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders  
Dunkin' Brands Group, Inc.:

We have audited the accompanying consolidated balance sheets of Dunkin' Brands Group, Inc. and subsidiaries as of December 31, 2016 and December 26, 2015, and the related consolidated statements of operations, comprehensive income, stockholders' equity (deficit), and cash flows for each of the years in the three-year period ended December 31, 2016. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Dunkin' Brands Group, Inc. and subsidiaries as of December 31, 2016 and December 26, 2015, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2016, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Dunkin' Brands Group, Inc. and subsidiaries' internal control over financial reporting as of December 31, 2016, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 21, 2017 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

**DUNKIN' BRANDS GROUP, INC. AND SUBSIDIARIES**  
**Notes to Consolidated Financial Statements**

**(1) Description of business and organization**

Dunkin' Brands Group, Inc. ("DBGI"), together with its consolidated subsidiaries, is one of the world's leading franchisors of restaurants serving coffee and baked goods, as well as ice cream, within the quick service restaurant segment of the restaurant industry. We develop, franchise, and license a system of both traditional and nontraditional quick service restaurants and, in limited circumstances, have owned and operated individual locations. Through our Dunkin' Donuts brand, we develop and franchise restaurants featuring coffee, donuts, bagels, breakfast sandwiches, and related products. Additionally, we license Dunkin' Donuts brand products sold in certain retail outlets such as retail packaged coffee and Dunkin' K-Cup® pods. Through our Baskin-Robbins brand, we develop and franchise restaurants featuring ice cream, frozen beverages, and related products. Additionally, we distribute Baskin-Robbins ice cream products to Baskin-Robbins franchisees and licensees in certain international markets.

Throughout these consolidated financial statements, "Dunkin' Brands," "the Company," "we," "us," "our," and "management" refer to DBGI and its consolidated subsidiaries taken as a whole.

**(2) Summary of significant accounting policies**

**(a) Fiscal year**

The Company operates and reports financial information on a 52- or 53-week year on a 13-week quarter basis with the fiscal year ending on the last Saturday in December and fiscal quarters ending on the 13th Saturday of each quarter (or 14th Saturday when applicable with respect to the fourth fiscal quarter). The data periods contained within fiscal years 2016, 2015, and 2014 reflect the results of operations for the 53-week period ended December 31, 2016, and the 52-week periods ended December 26, 2015 and December 27, 2014, respectively.

**(b) Basis of presentation and consolidation**

The accompanying consolidated financial statements include the accounts of DBGI and subsidiaries and have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). All significant transactions and balances between subsidiaries and affiliates have been eliminated in consolidation.

We consolidate entities in which we have a controlling financial interest, the usual condition of which is ownership of a majority voting interest. We also consider for consolidation an entity, in which we have certain interests, where the controlling financial interest may be achieved through arrangements that do not involve voting interests. Such an entity, known as a variable interest entity ("VIE"), is required to be consolidated by its primary beneficiary. The primary beneficiary is the entity that possesses the power to direct the activities of the VIE that most significantly impact its economic performance and has the obligation to absorb losses or the right to receive benefits from the VIE that are significant to it. The principal entities in which we possess a variable interest include franchise entities, the advertising funds (see note 4), and our equity method investees. We do not possess any ownership interests in franchise entities, except for our investments in various entities that are accounted for under the equity method. Additionally, we generally do not provide financial support to franchise entities in a typical franchise relationship. As our franchise and license arrangements provide our franchisee and licensee entities the power to direct the activities that most significantly impact their economic performance, we do not consider ourselves the primary beneficiary of any such entity that might be a VIE. Based on the results of our analysis of potential VIEs, we have not consolidated any franchise entities, with the exception of those noted below. The Company's maximum exposure to loss resulting from involvement with potential franchise VIEs is attributable to aged trade and notes receivable balances, outstanding loan guarantees, and future lease payments due from franchisees (see note 11).

Noncontrolling interests included within total stockholders' deficit in the consolidated balance sheet as of December 26, 2015 represented interests in a franchise entity that was deemed a variable interest entity and for which the Company was the primary beneficiary. As of December 31, 2016, the Company was no longer the primary beneficiary of the franchise entity and deconsolidated the noncontrolling interests from the Company's consolidated financial statements.

The Company previously held a 51% interest in a limited partnership that owned and operated Dunkin' Donuts restaurants in the Dallas, Texas area. The Company possessed control of this entity and, therefore, consolidated the results of the limited partnership. The partnership agreement contained a redemption feature that was probable to become redeemable in the future, and this interest was therefore classified as temporary equity (between liabilities and stockholders' deficit) in the consolidated balance sheets. The net loss and comprehensive loss attributable to the noncontrolling interest are presented separately in the

consolidated statements of operations and comprehensive income, respectively. During fiscal year 2015, the Company purchased the remaining interests in the limited partnership.

***(c) Accounting estimates***

The preparation of consolidated financial statements in conformity with U.S. GAAP requires the use of estimates, judgments, and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses, and related disclosure of contingent assets and liabilities at the date of the financial statements and for the period then ended. Significant estimates are made in the calculations and assessments of the following: (a) allowance for doubtful accounts and notes receivables, (b) impairment of tangible and intangible assets, (c) other-than-temporary impairment of equity method investments, (d) income taxes, (e) share-based compensation, (f) lease accounting estimates, (g) gift card/certificate breakage, (h) management fees charged to subsidiaries and affiliates, and (i) contingencies. Estimates are based on historical experience, current conditions, and various other assumptions that are believed to be reasonable under the circumstances. These estimates form the basis for making judgments about the carrying values of assets and liabilities when they are not readily apparent from other sources. We adjust such estimates and assumptions when facts and circumstances dictate. Actual results may differ from these estimates under different assumptions or conditions.

***(d) Cash and cash equivalents and restricted cash***

The Company continually monitors its positions with, and the credit quality of, the financial institutions in which it maintains its deposits and investments. As of December 31, 2016 and December 26, 2015, we maintained balances in various cash accounts in excess of federally insured limits. All highly liquid instruments purchased with an original maturity of three months or less are considered cash equivalents.

Cash held related to the advertising funds and the Company's gift card/certificate programs are classified as unrestricted cash as there are no legal restrictions on the use of these funds; however, the Company intends to use these funds solely to support the advertising funds and gift card/certificate programs rather than to fund operations. Total cash balances related to the advertising funds and gift card/certificate programs as of December 31, 2016 and December 26, 2015 were \$177.9 million and \$148.6 million, respectively.

In accordance with the Company's securitized financing facility, certain cash accounts have been established in the name of Citibank, N.A. (the "Trustee") for the benefit of the Trustee and the noteholders, and are restricted in their use. The Company holds restricted cash which primarily represents (i) cash collections held by the Trustee, (ii) interest, principal, and commitment fee reserves held by the Trustee related to the Company's Notes (see note 8), and (iii) real estate reserves used to pay real estate obligations. Changes in restricted cash accounts are presented as either a component of cash flows from operating or financing activities in the consolidated statements of cash flows based on the nature of the restricted balance.

***(e) Fair value of financial instruments***

The carrying amounts of accounts receivable, notes and other receivables, assets and liabilities related to the advertising funds, accounts payable, and other current liabilities approximate fair value because of their short-term nature. For long-term receivables, we review the creditworthiness of the counterparty on a quarterly basis, and adjust the carrying value as necessary. We believe the carrying value of long-term receivables of \$3.1 million and \$2.4 million as of December 31, 2016 and December 26, 2015, respectively, approximates fair value.

Financial assets and liabilities are categorized, based on the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to the quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable inputs. Observable market data, when available, is required to be used in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement.

Financial assets and liabilities measured at fair value on a recurring basis as of December 31, 2016 and December 26, 2015 are summarized as follows (in thousands):

	December 31, 2016		December 26, 2015	
	Significant other observable inputs (Level 2)	Total	Significant other observable inputs (Level 2)	Total
<b>Assets:</b>				
Company-owned life insurance	\$ 9,271	9,271	5,802	5,802
Total assets	\$ 9,271	9,271	5,802	5,802
<b>Liabilities:</b>				
Deferred compensation liabilities	\$ 11,126	11,126	9,068	9,068
Total liabilities	\$ 11,126	11,126	9,068	9,068

The deferred compensation liabilities relate to the Dunkin' Brands, Inc. non-qualified deferred compensation plans ("NQDC Plans"), which allow for pre-tax deferral of compensation for certain qualifying employees and directors (see note 18). Changes in the fair value of the deferred compensation liabilities are derived using quoted prices in active markets of the asset selections made by the participants. The deferred compensation liabilities are classified within Level 2, as defined under U.S. GAAP, because their inputs are derived principally from observable market data by correlation to hypothetical investments. The Company holds company-owned life insurance policies to partially offset the Company's liabilities under the NQDC Plans. The changes in the fair value of any company-owned life insurance policies are derived using determinable cash surrender value. As such, the company-owned life insurance policies are classified within Level 2, as defined under U.S. GAAP.

The carrying value and estimated fair value of long-term debt as of December 31, 2016 and December 26, 2015 were as follows (in thousands):

Financial liabilities	December 31, 2016		December 26, 2015	
	Carrying value	Estimated fair value	Carrying value	Estimated fair value
Long-term debt	\$ 2,426,998	2,460,544	2,445,600	2,443,687

The estimated fair value of our long-term debt is estimated primarily based on current market rates for debt with similar terms and remaining maturities or current bid prices for our long-term debt. Judgment is required to develop these estimates. As such, our long-term debt is classified within Level 2, as defined under U.S. GAAP.

#### **(f) Inventories**

Inventories consist primarily of ice cream products sold to certain international markets that are in-transit from our third-party manufacturer to our international licensees, during which time we hold title to such products. The majority of ice cream products are purchased from one supplier. Inventories are valued at the lower of cost or estimated net realizable value, and cost is generally determined based on the actual cost of the specific inventory sold. Inventories are included within prepaid expenses and other current assets in the consolidated balance sheets.

#### **(g) Assets held for sale**

Assets held for sale primarily represent costs incurred by the Company for store equipment and leasehold improvements constructed for sale to franchisees, as well as restaurants formerly operated by franchisees or the Company waiting to be resold. The value of such restaurants and related assets is reduced to reflect net recoverable values, with such reductions recorded to general and administrative expenses, net in the consolidated statements of operations. Generally, internal specialists estimate the amount to be recovered from the sale of such assets based on their knowledge of the (a) market in which the store is located, (b) results of the Company's previous efforts to dispose of similar assets, and (c) current economic conditions. The actual cost of such assets held for sale is affected by specific factors such as the nature, age, location, and condition of the assets, as well as the economic environment and inflation.

We classify restaurants and their related assets as held for sale and suspend depreciation and amortization when (a) we make a decision to rebrand or sell the property, (b) the stores are available for immediate sale, (c) we have begun an active program to locate a buyer, (d) significant changes to the plan of sale are not likely, and (e) the sale is probable within one year. Assets held for sale are included within prepaid expenses and other current assets in the consolidated balance sheets.

As of December 26, 2015, prepaid expenses and other current assets in the consolidated balance sheet included \$8.8 million of assets held for sale, which primarily consisted of property and equipment, net and goodwill. As of December 31, 2016, assets held for sale were immaterial.

**(h) Property and equipment**

Property and equipment are stated at cost less accumulated depreciation. Depreciation is provided using the straight-line method over the estimated useful lives of the respective assets. Leasehold improvements are depreciated over the shorter of the estimated useful life or the remaining lease term of the related asset. Estimated useful lives are as follows:

	Years
Buildings	20 – 35
Leasehold improvements	5 – 20
Store, production, and other equipment	3 – 10
Software	3 – 7

Routine maintenance and repair costs are charged to expense as incurred. Major improvements, additions, or replacements that extend the life, increase capacity, or improve the safety or the efficiency of property are capitalized at cost and depreciated. Major improvements to leased property are capitalized as leasehold improvements and depreciated. Interest costs incurred during the acquisition period of capital assets are capitalized as part of the cost of the asset and depreciated.

**(i) Leases**

When determining lease terms, we begin with the point at which the Company obtains control and possession of the leased properties. We include option periods for which failure to renew the lease imposes a penalty on the Company in such an amount that the renewal appears, at the inception of the lease, to be reasonably assured, which generally includes option periods through the end of the related franchise agreement term. We also include any rent holidays in the determination of the lease term.

We record rent expense and rent income for leases and subleases, respectively, that contain scheduled rent increases on a straight-line basis over the lease term as defined above. In certain cases, contingent rentals are based on sales levels of our franchisees, in excess of stipulated amounts. Contingent rentals are included in rent income and rent expense as they are earned or accrued, respectively.

We occasionally provide to our sublessees, or receive from our landlords, tenant improvement dollars. Tenant improvement dollars paid to our sublessees are recorded as a deferred rent asset. For fixed asset and/or leasehold purchases for which we receive tenant improvement dollars from our landlords, we record the property and equipment and/or leasehold improvements gross and establish a deferred rent obligation. The deferred lease assets and obligations are amortized on a straight-line basis over the determined sublease and lease terms, respectively.

Management regularly reviews sublease arrangements, where we are the lessor, for losses on sublease arrangements. We recognize a loss, discounted using credit-adjusted risk-free rates, when costs expected to be incurred under an operating prime lease exceed the anticipated future revenue stream of the operating sublease. Furthermore, for properties where we do not currently have an operational franchise or other third-party sublessee and are under long-term lease agreements, the present value of any remaining liability under the lease, discounted using credit-adjusted risk-free rates and net of estimated sublease recovery, is recognized as a liability and recorded as an operating expense at the time we cease use of the property. The value of any equipment and leasehold improvements related to a closed store is assessed for potential impairment (see note 2(j)).

**(j) Impairment of long-lived assets**

Long-lived assets that are used in operations are tested for recoverability whenever events or changes in circumstances indicate that the carrying amount may not be recoverable through undiscounted future cash flows. Recognition and measurement of a potential impairment is performed on assets grouped with other assets and liabilities at the lowest level where identifiable cash flows are largely independent of the cash flows of other assets and liabilities. An impairment loss is the amount by which the carrying amount of a long-lived asset or asset group exceeds its estimated fair value. Fair value is generally estimated by internal specialists based on the present value of anticipated future cash flows or, if required, with the assistance of independent third-party valuation specialists, depending on the nature of the assets or asset group.

***(k) Equity method investments***

The Company's equity method investments consist of interests in B-R 31 Ice Cream Co., Ltd. ("Japan JV"), BR-Korea Co., Ltd. ("South Korea JV"), and Palm Oasis Pty. Ltd. ("Australia JV"), which are accounted for in accordance with the equity method. The Company also previously accounted for an ownership interest in Coffee Alliance, S.L. ("Spain JV") in accordance with the equity method, which interest was sold during the fourth quarter of fiscal year 2016 (see note 6).

The Company evaluates its equity method investments for impairment whenever an event or change in circumstances occurs that may have a significant adverse impact on the fair value of the investment. If a loss in value has occurred and is deemed to be other than temporary, an impairment loss is recorded. Several factors are reviewed to determine whether a loss has occurred that is other than temporary, including absence of an ability to recover the carrying amount of the investment, the length and extent of the fair value decline, and the financial condition and future prospects of the investee.

***(l) Goodwill and other intangible assets***

Goodwill and trade names ("indefinite-lived intangibles") have been assigned to our reporting units, which are also our operating segments, for purposes of impairment testing. All of our reporting units have indefinite-lived intangibles associated with them.

We evaluate the remaining useful life of our trade names to determine whether current events and circumstances continue to support an indefinite useful life. In addition, all of our indefinite-lived intangible assets are tested for impairment annually. We first assess qualitative factors to determine whether it is more likely than not that a trade name is impaired. In the event we were to determine that the carrying value of a trade name would more likely than not exceed its fair value, quantitative testing would be performed which consists of a comparison of the fair value of each trade name with its carrying value, with any excess of carrying value over fair value being recognized as an impairment loss. For goodwill, we first perform a qualitative assessment to determine if the fair value of the reporting unit is more likely than not greater than the carrying amount. In the event we were to determine that a reporting unit's carrying value would more likely than not exceed its fair value, quantitative testing would be performed which consists of a comparison of each reporting unit's fair value to its carrying value. The fair value of a reporting unit is an estimate of the amount for which the unit as a whole could be sold in a current transaction between willing parties. If the carrying value of a reporting unit exceeds its fair value, goodwill is written down to its implied fair value. We have selected the first day of our fiscal third quarter as the date on which to perform our annual impairment test for all indefinite-lived intangible assets. We also test for impairment whenever events or circumstances indicate that the fair value of such indefinite-lived intangibles has been impaired.

Other intangible assets consist primarily of franchise and international license rights ("franchise rights"), ice cream distribution and territorial franchise agreement license rights ("license rights"), and operating lease interests acquired related to our prime leases and subleases ("operating leases acquired"). Franchise rights, license rights, and operating leases acquired recorded in the consolidated balance sheets were valued using an appropriate valuation method during the period of acquisition. Amortization of franchise rights, license rights, and favorable operating leases acquired is recorded as amortization expense in the consolidated statements of operations and amortized over the respective franchise, license, and lease terms using the straight-line method.

Unfavorable operating leases acquired related to our prime and subleases are recorded in the liability section of the consolidated balance sheets and are amortized into rental expense and rental income, respectively, over the base lease term of the respective leases using the straight-line method. The weighted average amortization period for all unfavorable operating leases acquired is 18 years.

Management makes adjustments to the carrying amount of such intangible assets and unfavorable operating leases acquired if they are deemed to be impaired using the methodology for long-lived assets (see note 2(j)), or when such license or lease agreements are reduced or terminated.

***(m) Contingencies***

The Company records reserves for legal and other contingencies when information available to the Company indicates that it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. Predicting the outcomes of claims and litigation and estimating the related costs and exposures involve substantial uncertainties that could cause actual costs to vary materially from estimates. Legal costs incurred in connection with legal and other contingencies are expensed as the costs are incurred.

**(n) Foreign currency translation**

We translate assets and liabilities of non-U.S. operations into U.S. dollars at rates of exchange in effect at the balance sheet date, and revenues and expenses at the average exchange rates prevailing during the period. Resulting translation adjustments are recorded as a separate component of other comprehensive loss and stockholders' deficit, net of deferred taxes. Foreign currency translation adjustments primarily result from our equity method investments, as well as subsidiaries located in Canada, the UK, Australia, and other foreign jurisdictions. Transactions resulting in foreign exchange gains and losses are included in the consolidated statements of operations.

**(o) Revenue recognition**

**Franchise fees and royalty income**

Domestically, the Company sells individual franchises as well as territory agreements in the form of store development agreements ("SDAs") that grant the right to develop restaurants in designated areas. Our franchise agreements and SDAs typically require the franchisee to pay an initial nonrefundable fee and continuing fees, or royalty income, based upon a percentage of sales. The franchisee will typically pay us a renewal fee if we approve a renewal of the franchise agreement. Such fees are paid by franchisees to obtain the rights associated with these franchise agreements or SDAs. Initial franchise fee revenue is recognized upon substantial completion of the services required of the Company as stated in the franchise agreement, which is generally upon opening of the respective restaurant. Fees collected in advance are deferred until earned, with deferred amounts expected to be recognized as revenue within one year classified as current deferred income in the consolidated balance sheets. Royalty income is based on a percentage of franchisee gross sales and is recognized when earned, which occurs at the franchisees' point of sale. Renewal fees are recognized when a renewal agreement with a franchisee becomes effective. Occasionally, the Company offers incentive programs to franchisees in conjunction with a franchise agreement, SDA, or renewal agreement and, when appropriate, records the costs of such programs as reductions of revenue.

For our international business, we sell master territory and/or license agreements that typically allow the master licensee to either act as the franchisee or to sub-franchise to other operators. Master license and territory fees are generally recognized upon substantial completion of the services required of the Company as stated in the franchise agreement, which is generally upon opening of the first restaurant or as stores are opened, depending on the specific terms of the agreement. Royalty income is based on a percentage of franchisee gross sales and is recognized when earned, which generally occurs at the franchisees' point of sale. Renewal fees are recognized when a renewal agreement with a franchisee or licensee becomes effective.

**Rental income**

Rental income for base rentals is recorded on a straight-line basis over the lease term, including the amortization of any tenant improvement dollars paid (see note 2(i)). The differences between the straight-line rent amounts and amounts receivable under the leases are recorded as deferred rent assets in current or long-term assets, as appropriate. Contingent rental income is recognized as earned, and any amounts received from lessees in advance of achieving stipulated thresholds are deferred until such thresholds are actually achieved. Deferred contingent rentals are recorded as deferred income in current liabilities in the consolidated balance sheets.

**Sales of ice cream and other products**

We distribute Baskin-Robbins ice cream products and, in limited cases, Dunkin' Donuts products to franchisees and licensees in certain international locations. Revenue from the sale of ice cream and other products is recognized when title and risk of loss transfers to the buyer, which is generally upon delivery.

**Sales at company-operated restaurants**

Retail store revenues at company-operated restaurants were recognized when payments were tendered at the point of sale, net of sales tax and other sales-related taxes. As of December 31, 2016, the Company did not own or operate any restaurants.

**Other revenues**

Other revenues include fees generated by licensing our brand names and other intellectual property, as well as gains, net of losses and transactions costs, from the sales of restaurants that were not company-operated to new or existing franchisees. Licensing fees are recognized when earned, which is generally upon sale of the underlying products by the licensees. Gains on the refranchise or sale of a restaurant are recognized when the sale transaction closes, the franchisee has a minimum amount of the purchase price in at-risk equity, and we are satisfied that the buyer can meet its financial obligations to us. If the criteria for gain recognition are not met, we defer the gain to the extent we have any remaining financial exposure in connection with the sale transaction. Deferred gains are recognized when the gain recognition criteria are met.

***(p) Allowance for doubtful accounts***

We monitor the financial condition of our franchisees and licensees and record provisions for estimated losses on receivables when we believe that our franchisees or licensees are unable to make their required payments. While we use the best information available in making our determination, the ultimate recovery of recorded receivables is also dependent upon future economic events and other conditions that may be beyond our control. Included in the allowance for doubtful notes and accounts receivables is a provision for uncollectible royalty, lease, ice cream, and licensing fee receivables.

***(q) Share-based payments***

We measure compensation cost at fair value on the date of grant for all share-based awards and recognize compensation expense over the service period that the awards are expected to vest. The Company has elected to recognize compensation cost for graded-vesting awards subject only to a service condition over the requisite service period of the entire award.

***(r) Income taxes***

Deferred tax assets and liabilities are recorded for the expected future tax consequences of items that have been included in our consolidated financial statements or tax returns. Deferred tax assets and liabilities are determined based on the differences between the financial statement carrying amounts of assets and liabilities and the respective tax bases of assets and liabilities using enacted tax rates that are expected to apply in years in which the temporary differences are expected to reverse. The effects of changes in tax rates and changes in apportionment of income between tax jurisdictions on deferred tax assets and liabilities are recognized in the consolidated statements of operations in the year in which the law is enacted or change in apportionment occurs. Valuation allowances are provided when the Company does not believe it is more likely than not that it will realize the benefit of identified tax assets.

A tax position taken or expected to be taken in a tax return is recognized in the financial statements when it is more likely than not that the position would be sustained upon examination by tax authorities. A recognized tax position is then measured at the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. Estimates of interest and penalties on unrecognized tax benefits are recorded in the provision for income taxes.

***(s) Comprehensive income***

Comprehensive income is primarily comprised of net income, foreign currency translation adjustments, and gains and losses on interest rate swaps, and is reported in the consolidated statements of comprehensive income, net of taxes, for all periods presented. Additionally, comprehensive income included pension gains and losses for fiscal years 2015 and 2014. As a result of the final settlement of the pension plan in fiscal year 2015, no pension gains and losses were recorded in 2016 (see note 18).

***(t) Debt issuance costs***

Debt issuance costs represent capitalizable costs incurred related to the issuance and refinancing of the Company's long-term debt (see note 8). As of December 31, 2016 and December 26, 2015, debt issuance costs of \$29.3 million and \$35.7 million, respectively, are included in long-term debt, net in the consolidated balance sheets, and are being amortized over the remaining maturities of the debt, based on projected required repayments, using the effective interest rate method.

***(u) Gift card/certificate breakage***

The Company and our franchisees sell gift cards that are redeemable for product in our Dunkin' Donuts and Baskin-Robbins restaurants. The Company manages the gift card program, and therefore collects all funds from the activation of gift cards and reimburses franchisees for the redemption of gift cards in their restaurants. A liability for unredeemed gift cards, as well as historical gift certificates sold, is included in other current liabilities in the consolidated balance sheets.

There are no expiration dates on our gift cards, and we do not charge any service fees. While our franchisees continue to honor all gift cards presented for payment, we may determine the likelihood of redemption to be remote for certain cards due to long periods of inactivity. In these circumstances, we may recognize income from unredeemed gift cards ("breakage income") if they are not subject to unclaimed property laws.

For Dunkin' Donuts gift cards enrolled in the DD Perks® Rewards loyalty program and other cards with expected similar redemption behavior, breakage is estimated and recognized at the point in time when the likelihood of redemption of any remaining card balance becomes remote, generally after a period of sufficient inactivity. Breakage on all other Dunkin' Donuts gift cards and all Baskin-Robbins gift cards is estimated and recognized over time in proportion to actual gift card redemptions, based on historical redemption rates. The Company recognizes breakage as income only up to the amount of gift card program costs. Any incremental breakage on Dunkin' Donuts gift cards that exceeds gift card program costs is committed to fund future

initiatives that will benefit the Dunkin' Donuts gift card program or to offset future gift card program costs. Any incremental breakage on Baskin-Robbins gift cards that exceeds gift card program costs is committed to fund future sales-driving initiatives for the benefit of Baskin-Robbins franchisees. The incremental breakage in excess of gift card program costs is recorded as a gift card breakage liability within other current liabilities in the consolidated balance sheets (see note 10).

For fiscal years 2016, 2015, and 2014, total breakage income recognized on gift cards, as well as historical gift certificate programs, was \$22.3 million, \$15.9 million, and \$8.5 million, respectively, and is recorded as a reduction to general and administrative expenses, net, to offset the related gift card program costs.

***(v) Concentration of credit risk***

The Company is subject to credit risk through its accounts receivable consisting primarily of amounts due from franchisees and licensees for franchise fees, royalty income, and sales of ice cream and other products. In addition, we have note and lease receivables from certain of our franchisees and licensees. The financial condition of these franchisees and licensees is largely dependent upon the underlying business trends of our brands and market conditions within the quick service restaurant industry. This concentration of credit risk is mitigated, in part, by the large number of franchisees and licensees of each brand and the short-term nature of the franchise and license fee and lease receivables. At December 31, 2016 and December 26, 2015, one master licensee, including its majority-owned subsidiaries, accounted for approximately 15% and 13%, respectively, of total accounts and notes receivable. For fiscal year 2014, one master licensee, including its majority-owned subsidiaries, accounted for approximately 10% of total revenues. No individual franchisee or master licensee accounted for more than 10% of total revenues for fiscal years 2016 or 2015.

Additionally, the Company engages various third parties to manufacture and/or distribute certain Dunkin' Donuts and Baskin-Robbins products under licensing arrangements. As of December 26, 2015, one of these third parties accounted for approximately 13% of total accounts and notes receivable. No individual third party accounted for more than 10% of total accounts and notes receivable as of December 31, 2016.

***(w) Recent accounting pronouncements***

In January 2017, the Financial Accounting Standards Board (the "FASB") issued new guidance for goodwill impairment which requires only a single-step quantitative test to identify and measure impairment and record an impairment charge based on the excess of a reporting unit's carrying amount over its fair value. The option to perform a qualitative assessment first for a reporting unit to determine if a quantitative impairment test is necessary does not change under the new guidance. This guidance is effective for the Company beginning in fiscal year 2020 with early adoption permitted. The Company expects to adopt this guidance in fiscal year 2017. The adoption of this guidance will have no impact on the Company's consolidated financial statements.

In November 2016, the FASB issued new guidance addressing diversity in practice that exists in the classification and presentation of changes in restricted cash in the statements of cash flows. This guidance is effective for the Company beginning in fiscal year 2018 with early adoption permitted. The Company expects to adopt this guidance retrospectively beginning in fiscal year 2017. Upon adoption, restricted cash will be combined with cash and cash equivalents when reconciling the beginning and end of period balances in the consolidated statements of cash flows, and the current presentation of changes in restricted cash within operating and financing activities will be eliminated. Upon adoption of this guidance, net cash provided by operating activities will be reduced by \$2.1 million and will increase by \$65.7 million for fiscal years 2016 and 2015, respectively, and net cash used in financing activities will increase by \$106 thousand and will be reduced by \$6.8 million for fiscal years 2016 and 2015, respectively. The adoption of this guidance will have no impact on the consolidated statements of operations and balance sheets.

In March 2016, the FASB issued new guidance for employee share-based compensation which simplifies several aspects of accounting for share-based payment transactions, including excess tax benefits, forfeiture estimates, statutory tax withholding requirements, and classification in the statements of cash flows. This guidance is effective for the Company in fiscal year 2017 with early adoption permitted. The Company expects to adopt this new guidance in fiscal year 2017. Upon adoption, any future excess tax benefits or deficiencies will be recorded to the provision for income taxes in the consolidated statements of operations instead of additional paid-in capital in the consolidated balance sheets. Additionally, excess tax benefits will be presented retrospectively as an operating cash inflow instead of a financing cash inflow in the statements of cash flows. During fiscal years 2016, 2015, and 2014, \$2.7 million, \$11.5 million, and \$10.8 million, respectively, of excess tax benefits were recorded to additional paid-in capital that would have been recorded as a reduction to the provision for income taxes, and such amounts would have been classified as operating cash inflows instead of financing cash inflows in the consolidated statements of cash flows, if this new guidance had been adopted as of the respective dates.

In February 2016, the FASB issued new guidance for lease accounting, which replaces existing lease accounting guidance. The new guidance aims to increase transparency and comparability among organizations by requiring lessees to recognize lease

assets and lease liabilities on the balance sheet and requiring disclosure of key information about leasing arrangements. This guidance is effective for the Company in fiscal year 2019 with early adoption permitted, and modified retrospective application is required. The Company expects to adopt this new guidance in fiscal year 2019 and is currently evaluating the impact the adoption of this new guidance will have on the Company's consolidated financial statements and related disclosures. The Company expects that substantially all of its operating lease commitments (see note 11) will be subject to the new guidance and will be recognized as operating lease liabilities and right-of-use assets upon adoption.

In May 2014, the FASB issued new guidance for revenue recognition related to contracts with customers, except for contracts within the scope of other standards, which supersedes nearly all existing revenue recognition guidance. The new guidance provides a single framework in which revenue is required to be recognized to depict the transfer of goods or services to customers in amounts that reflect the consideration to which a company expects to be entitled in exchange for those goods or services. The new guidance is effective for the Company in fiscal year 2018 with early adoption permitted in fiscal year 2017. The Company expects to adopt this new guidance in fiscal year 2018 using the full retrospective transition method, which will result in restating each prior reporting period presented in the year of adoption. The Company expects the adoption of the new guidance to change the timing of recognition of initial franchise fees, including master license and territory fees for our international business, and renewal fees. Currently, these fees are generally recognized upfront upon either opening of the respective restaurant or when a renewal agreement becomes effective. The new guidance will generally require these fees to be recognized over the term of the related franchise license for the respective restaurant, which we expect will result in a material impact to revenue recognized for franchise fees and renewal fees. The Company does not expect this new guidance to materially impact the recognition of royalty income, rental income, or sales of ice cream and other products. The Company is continuing to evaluate the impact the adoption of this new guidance will have on these and other revenue transactions, as well as the presentation of advertising fund revenues and expenses, in addition to the impact on accounting policies and related disclosures.

**(x) Subsequent events**

Subsequent events have been evaluated up through the date that these consolidated financial statements were filed.

**(3) Franchise fees and royalty income**

Franchise fees and royalty income consisted of the following (in thousands):

	Fiscal year ended		
	December 31, 2016	December 26, 2015	December 27, 2014
Royalty income	\$ 500,927	463,960	438,074
Initial franchise fees and renewal income	48,644	49,262	44,255
Total franchise fees and royalty income	<u>\$ 549,571</u>	<u>513,222</u>	<u>482,329</u>

The changes in franchised and company-operated points of distribution were as follows:

	Fiscal year ended		
	December 31, 2016	December 26, 2015	December 27, 2014
<b>Systemwide points of distribution:</b>			
Franchised points of distribution in operation—beginning of year	19,308	18,821	18,122
Franchised points of distribution—opened	1,540	1,536	1,442
Franchised points of distribution—closed	(819)	(1,051)	(744)
Net transfers from company-operated points of distribution	51	2	1
Franchised points of distribution in operation—end of year	20,080	19,308	18,821
Company-operated points of distribution—end of year	—	49	41
Total systemwide points of distribution—end of year	<u>20,080</u>	<u>19,357</u>	<u>18,862</u>

During fiscal year 2016, the Company sold all remaining company-operated restaurants and recognized gains on sales of \$7.6 million, which are included in other operating income, net in our consolidated statement of operations. As of December 31, 2016, the Company did not own or operate any restaurants.

#### (4) Advertising funds

On behalf of the Dunkin' Donuts and Baskin-Robbins domestic advertising funds, the Company collects a percentage, which is generally 5%, of gross retail sales from Dunkin' Donuts and Baskin-Robbins domestic franchisees to be used for various forms of advertising for each brand. In most of our international markets, franchisees manage their own advertising expenditures, which are not included in the advertising fund results.

The Company administers and directs the development of all advertising and promotional programs in the advertising funds for which it collects advertising fees, in accordance with the provisions of our franchise agreements. The Company acts as, in substance, an agent with regard to these advertising contributions. We consolidate and report all assets and liabilities held by these advertising funds as restricted assets of advertising funds and liabilities of advertising funds within current assets and current liabilities, respectively, in the consolidated balance sheets. The assets and liabilities held by these advertising funds consist primarily of receivables, prepaid expenses, payables, accrued expenses, and any cumulative surplus or deficit related specifically to the advertising funds. The revenues, expenses, and cash flows of the advertising funds are not included in the Company's consolidated statements of operations or consolidated statements of cash flows because the Company does not have complete discretion over the usage of the funds. Contributions to these advertising funds are restricted to advertising, product development, public relations, merchandising, and administrative expenses and programs to increase sales and further enhance the public reputation of each of the brands.

At December 31, 2016 and December 26, 2015, the Company had a net payable of \$11.9 million and \$11.6 million, respectively, to the various advertising funds.

To cover administrative expenses of the advertising funds, the Company charges each advertising fund a management fee for items such as facilities, accounting services, information technology, data processing, product development, legal, administrative support services, and other operating expenses, as well as share-based compensation expense for employees that provide services directly to the advertising funds. Management fees totaled \$9.5 million, \$9.7 million, and \$7.6 million for fiscal years 2016, 2015, and 2014, respectively. Such management fees are included in the consolidated statements of operations as a reduction in general and administrative expenses, net.

The Company made discretionary contributions to certain advertising funds for the purpose of supplementing national and regional advertising in certain markets of \$1.7 million for each of the fiscal years 2016 and 2015, and \$2.1 million for fiscal year 2014, respectively. Additionally, the Company made net contributions to the advertising funds based on retail sales of company-operated restaurants of \$596 thousand, \$1.3 million, and \$872 thousand for fiscal years 2016, 2015, and 2014, respectively, which are included in company-operated restaurant expenses in the consolidated statements of operations. During fiscal years 2016, 2015, and 2014, the Company also funded advertising fund initiatives of \$3.4 million, \$2.3 million, and \$5.2 million, respectively, which were contributed from the gift card breakage liability included within other current liabilities in the consolidated balance sheets (see note 2(u) and note 10).

#### (5) Property and equipment, net

Property and equipment at December 31, 2016 and December 26, 2015 consisted of the following (in thousands):

	December 31, 2016	December 26, 2015
Land	\$ 34,889	33,346
Buildings	50,571	49,304
Leasehold improvements	157,752	154,479
Software, store, production, and other equipment	52,922	53,273
Construction in progress	5,203	3,837
Property and equipment, gross	301,337	294,239
Accumulated depreciation	(124,675)	(111,625)
Property and equipment, net	\$ 176,662	182,614

## (6) Equity method investments

The Company's ownership interests in its equity method investments as of December 31, 2016 and December 26, 2015 were as follows:

Entity	Ownership
Japan JV	43.3%
South Korea JV	33.3%
Australia JV	20.0%

The Company also had a 33.3% ownership interest in the Spain JV as of December 26, 2015, which was sold during the fourth quarter of fiscal year 2016 for nominal consideration.

Summary financial information for the equity method investments on an aggregated basis was as follows (in thousands):

	December 31, 2016	December 26, 2015
Current assets	\$ 300,999	288,106
Current liabilities	120,611	123,576
Working capital	180,388	164,530
Property, plant, and equipment, net	153,038	142,844
Other assets	124,676	125,000
Long-term liabilities	48,460	40,728
Equity of equity method investments	\$ 409,642	391,646

	Fiscal year ended		
	December 31, 2016	December 26, 2015	December 27, 2014
Revenues	\$ 629,717	622,982	669,416
Gross profit	329,206	327,684	363,536
Net income	32,529	33,650	39,835

During fiscal year 2015, the Company assessed if there was an other-than-temporary loss in value of its investment in the Japan JV based on various factors, including continued declines in the operating performance and reduced future expectations of the Baskin-Robbins business in Japan, as well as an announced reconsideration of the amount of semi-annual dividend payments by the Japan JV. Accordingly, the Company engaged a third-party valuation specialist to assist the Company in determining the fair value of its investment in the Japan JV. The valuation of the investment was determined using a combination of market and income approaches to valuation. Based in part on the fair value determined by the independent third-party valuation specialist, the Company concluded that the carrying value of the investment in the Japan JV exceeded fair value by \$54.3 million and that this reduction in value was other-than-temporary. As such, the Company recorded an impairment charge for that amount in fiscal year 2015.

The impairment of the Japan JV is reflected as a reduction to the Company's equity method investments in the consolidated balance sheets. As the Company had previously recorded a step-up in the basis of our investment in the Japan JV comprising amortizable franchise rights and nonamortizable goodwill, the impairment was first allocated to fully impair these investor-level assets. The remaining impairment was recorded to the underlying assets of the Japan JV by fully impairing the underlying property, plant, and equipment, net of any related tax impact, with any residual impairment allocated ratably to other non-financial long-term assets.

The comparison between the carrying value of the Company's investments in the Japan JV and the South Korea JV and the underlying equity in net assets of those investments is presented in the table below (in thousands):

	Japan JV		South Korea JV	
	December 31, 2016	December 26, 2015	December 31, 2016	December 26, 2015
Carrying value of investment	\$ 10,789	8,666	104,253	98,386
Underlying equity in net assets of investment	34,312	34,271	109,992	103,899
Carrying value less than the underlying equity in net assets <sup>(a)</sup>	\$ (23,523)	(25,605)	(5,739)	(5,513)

(a) The deficits of cost relative to the underlying equity in net assets of the Japan JV and the South Korea JV as of December 31, 2016 and December 26, 2015 are primarily comprised of impairments of long-lived assets, net of tax, recorded in fiscal years 2015 and 2011, respectively.

The carrying values of our investments in the Australia JV for any period presented and in the Spain JV as of December 26, 2015 were not material.

## (7) Goodwill and other intangible assets

The changes and carrying amounts of goodwill by reporting unit were as follows (in thousands):

	Dunkin' Donuts U.S.			Dunkin' Donuts International			Baskin-Robbins International			Total		
	Goodwill	Accumulated impairment charges	Net Balance	Goodwill	Accumulated impairment charges	Net Balance	Goodwill	Accumulated impairment charges	Net Balance	Goodwill	Accumulated impairment charges	Net Balance
Balances at December 27, 2014	\$ 1,151,599	(270,441)	881,158	10,212	—	10,212	24,037	(24,037)	—	1,185,848	(294,478)	891,370
Goodwill acquired	724	—	724	—	—	—	—	—	—	724	—	724
Goodwill disposed or held for sale	(2,413)	—	(2,413)	—	—	—	—	—	—	(2,413)	—	(2,413)
Effects of foreign currency adjustments	—	—	—	(93)	—	(93)	—	—	—	(93)	—	(93)
Balances at December 26, 2015	1,149,910	(270,441)	879,469	10,119	—	10,119	24,037	(24,037)	—	1,184,066	(294,478)	889,588
Goodwill disposed	(1,331)	—	(1,331)	—	—	—	—	—	—	(1,331)	—	(1,331)
Effects of foreign currency adjustments	—	—	—	15	—	15	—	—	—	15	—	15
Balances at December 31, 2016	\$ 1,148,579	(270,441)	878,138	10,134	—	10,134	24,037	(24,037)	—	1,182,750	(294,478)	888,272

The goodwill acquired during fiscal year 2015 is related to the acquisition and consolidation of certain company-operated points of distribution. The goodwill disposed or held for sale during fiscal years 2016 and 2015 is related to the sale or reclassification of goodwill to assets held for sale of certain company-operated points of distribution.

Other intangible assets at December 31, 2016 consisted of the following (in thousands):

	Weighted average amortization period (years)	Gross carrying amount	Accumulated amortization	Net carrying amount
Definite-lived intangibles:				
Franchise rights	20	\$ 358,166	(193,940)	164,226
Favorable operating leases acquired	18	59,948	(36,424)	23,524
Indefinite-lived intangible:				
Trade names	N/A	1,190,970	—	1,190,970
		\$ 1,609,084	(230,364)	1,378,720

Other intangible assets at December 26, 2015 consisted of the following (in thousands):

	Weighted average amortization period (years)	Gross carrying amount	Accumulated amortization	Net carrying amount
<b>Definite-lived intangibles:</b>				
Franchise rights	20	\$ 382,335	(199,374)	182,961
Favorable operating leases acquired	17	64,397	(37,173)	27,224
License rights	10	3,221	(3,168)	53
<b>Indefinite-lived intangible:</b>				
Trade names	N/A	1,190,970	—	1,190,970
		<u>\$ 1,640,923</u>	<u>(239,715)</u>	<u>1,401,208</u>

During fiscal year 2016, certain intangible assets with gross carrying amounts totaling \$26.8 million became fully amortized and were written off as they no longer exist. Additionally, the changes in the gross carrying amount of favorable operating leases acquired and weighted average amortization period from December 26, 2015 to December 31, 2016 are primarily due to the impairment of favorable operating leases acquired resulting from lease terminations.

Total estimated amortization expense for other intangible assets for fiscal years 2017 through 2021 is as follows (in thousands):

<b>Fiscal year:</b>	
2017	\$ 21,300
2018	21,163
2019	20,756
2020	20,305
2021	19,892

#### **(8) Debt**

Debt at December 31, 2016 and December 26, 2015 consisted of the following (in thousands):

	December 31, 2016	December 26, 2015
Class A-2 Notes	\$ 2,456,250	2,481,250
Debt issuance costs, net of amortization	(29,252)	(35,650)
<b>Total debt</b>	<b>2,426,998</b>	<b>2,445,600</b>
Less current portion of long-term debt	25,000	25,000
<b>Total long-term debt</b>	<b>\$ 2,401,998</b>	<b>2,420,600</b>

#### **Securitized Financing Facility**

On January 26, 2015, DB Master Finance LLC (the “Master Issuer”), a limited-purpose, bankruptcy-remote, wholly-owned indirect subsidiary of DBGI, entered into a base indenture and a related supplemental indenture (collectively, the “Indenture”) under which the Master Issuer may issue multiple series of notes. On the same date, the Master Issuer issued Series 2015-1 3.262% Fixed Rate Senior Secured Notes, Class A-2-I (the “Class A-2-I Notes”) with an initial principal amount of \$750.0 million and Series 2015-1 3.980% Fixed Rate Senior Secured Notes, Class A-2-II (the “Class A-2-II Notes”) and, together with the Class A-2-I Notes, the “Class A-2 Notes”) with an initial principal amount of \$1.75 billion. In addition, the Master Issuer also issued Series 2015-1 Variable Funding Senior Secured Notes, Class A-1 (the “Variable Funding Notes”) and, together with the Class A-2 Notes, the “Notes”), which allows the Master Issuer to borrow up to \$100.0 million on a revolving basis. The Variable Funding Notes may also be used to issue letters of credit. The Notes were issued in a securitization transaction pursuant to which most of the Company’s domestic and certain of its foreign revenue-generating assets, consisting principally of franchise-related agreements, real estate assets, and intellectual property and license agreements for the use of intellectual property, are held by the Master Issuer and certain other limited-purpose, bankruptcy-remote, wholly-owned indirect subsidiaries of the Company that act as guarantors of the Notes and that have pledged substantially all of their assets to secure the Notes.

The legal final maturity date of the Class A-2 Notes is in February 2045, but it is anticipated that, unless earlier prepaid to the extent permitted under the Indenture, the Class A-2-I Notes will be repaid in February 2019 and the Class A-2-II Notes will be repaid in February 2022 (the “Anticipated Repayment Dates”). If the Class A-2 Notes have not been repaid in full by their respective Anticipated Repayment Dates, a rapid amortization event will occur in which residual net cash flows of the Master Issuer, after making certain required payments, will be applied to the outstanding principal of the Class A-2 Notes. Various other events, including failure to maintain a minimum ratio of net cash flows to debt service (“DSCR”), may also cause a rapid amortization event. Borrowings under the Class A-2-I and Class A-2-II Notes bear interest at a fixed rate equal to 3.262% and 3.980%, respectively. If the Class A-2 Notes are not repaid or refinanced prior to their respective Anticipated Repayment Dates, incremental interest will accrue. Principal payments are required to be made on the Class A-2-I and Class A-2-II Notes equal to \$7.5 million and \$17.5 million, respectively, per calendar year, payable in quarterly installments. No principal payments will be required if a specified leverage ratio, which is a measure of outstanding debt to earnings before interest, taxes, depreciation, and amortization, adjusted for certain items (as specified in the Indenture), is less than or equal to 5.0 to 1.0, though the Company may elect to continue to make principal payments. Other events and transactions, such as certain asset sales and receipt of various insurance or indemnification proceeds, may trigger additional mandatory prepayments.

It is anticipated that the principal and interest on the Variable Funding Notes will be repaid in full on or prior to February 2020, subject to two additional one-year extensions. Borrowings under the Variable Funding Notes bear interest at a rate equal to a base rate, a LIBOR rate plus 2.25%, or the lenders’ commercial paper funding rate plus 2.25%. If the Variable Funding Notes are not repaid prior to February 2020 or prior to the end of an extension period, if applicable, incremental interest will accrue. In addition, the Company is required to pay a 2.25% fee for letters of credit amounts outstanding and a commitment fee on the unused portion of the Variable Funding Notes which ranges from 0.50% to 1.00% based on utilization.

Total debt issuance costs incurred and capitalized in connection with the issuance of the Notes were \$41.3 million. The effective interest rate, including the amortization of debt issuance costs, was 3.5% and 4.3% for the Class A-2-I Notes and Class A-2-II Notes, respectively, at December 31, 2016.

Total amortization of debt issuance costs related to the securitized financing facility was \$6.4 million and \$5.6 million for fiscal years 2016 and 2015, respectively, which is included in interest expense in the consolidated statements of operations.

As of December 31, 2016 and December 26, 2015, \$25.9 million and \$26.3 million, respectively, of letters of credit were outstanding against the Variable Funding Notes, which relate primarily to interest reserves required under the Indenture. There were no amounts drawn down on these letters of credit as of December 31, 2016 and December 26, 2015.

The Notes are subject to a series of covenants and restrictions customary for transactions of this type, including (i) that the Master Issuer maintains specified reserve accounts to be used to make required payments in respect of the Notes, (ii) provisions relating to optional and mandatory prepayments, including mandatory prepayments in the event of a change of control as defined in the Indenture and the related payment of specified amounts, including specified make-whole payments in the case of the Class A-2 Notes under certain circumstances, (iii) certain indemnification payments in the event, among other things, the assets pledged as collateral for the Notes are in stated ways defective or ineffective, and (iv) covenants relating to recordkeeping, access to information, and similar matters. As noted above, the Notes are also subject to customary rapid amortization events provided for in the Indenture, including events tied to failure to maintain stated DSCR, failure to maintain an aggregate level of Dunkin’ Donuts U.S. retail sales on certain measurement dates, certain manager termination events, an event of default, and the failure to repay or refinance the Class A-2 Notes on the applicable scheduled maturity date. The Notes are also subject to certain customary events of default, including events relating to non-payment of required interest, principal, or other amounts due on or with respect to the Notes, failure to comply with covenants within certain time frames, certain bankruptcy events, breaches of specified representations and warranties, failure of security interests to be effective, and certain judgments.

#### ***Senior credit facility***

In February 2014, Dunkin’ Brands, Inc. (“DBI”), a subsidiary of DBGI, amended its senior credit facility, resulting in a reduction of interest rates. As a result, during the first quarter of 2014, the Company recorded a loss on debt extinguishment and refinancing transactions of \$13.7 million, including \$10.5 million related to the write-off of original issuance discount and debt issuance costs and \$3.2 million of fees paid to third parties.

The proceeds from the issuance of the Class A-2 Notes were used to repay the remaining principal outstanding on the term loans. During fiscal year 2015, the Company recorded a loss on debt extinguishment of \$20.6 million, consisting primarily of the write-off of the remaining original issuance discount and debt issuance costs related to the term loans.

### ***Maturities of long-term debt***

Based on the Company's intention to make quarterly repayments and assuming repayment by the Anticipated Repayment Dates, the aggregate contractual principal payments of the Class A-2 Notes for 2017 through 2021 are as follows (in thousands):

	Class A-2-I Notes	Class A-2-II Notes	Total
2017	\$ 7,500	17,500	25,000
2018	7,500	17,500	25,000
2019	721,875	17,500	739,375
2020	—	17,500	17,500
2021	—	17,500	17,500

### **(9) Derivative instruments and hedging transactions**

The Company's hedging instruments have historically consisted solely of interest rate swaps to hedge the Company's variable-rate term loans. In September 2012, the Company entered into variable-to-fixed interest rate swap agreements to hedge the risk of increases in cash flows (interest payments) attributable to increases in three-month LIBOR above the designated benchmark interest rate being hedged, through November 2017. As a result of the February 2014 amendment to the senior credit facility (see note 8), the Company amended the interest rate swap agreements to align the embedded floors with the amended term loans. As of the date of the amendment, a pre-tax gain of \$5.8 million was recorded in accumulated other comprehensive loss.

Effective December 23, 2014, the Company terminated all interest rate swap agreements with its counterparties in anticipation of the securitization transaction and related repayment of the outstanding term loans (see note 8). In fiscal years 2014 and 2015, the Company received total cash proceeds equivalent to fair value of the interest rate swaps at the termination date of \$5.3 million, which was net of accrued interest owed to the counterparties of \$1.0 million. Upon termination, cash flow hedge accounting was discontinued and the cumulative pre-tax gain of \$1.8 million was recorded in accumulated other comprehensive loss.

As of December 27, 2014, a pre-tax gain of \$6.2 million was recorded in accumulated other comprehensive loss, which included the gain related to both the February 2014 amendment and December 2014 termination. This pre-tax gain is being amortized on a straight-line basis to interest expense in the consolidated statements of operations through November 23, 2017, the original maturity date of the swaps. The Company estimates that \$1.9 million will be reclassified from accumulated other comprehensive loss as a reduction of interest expense in fiscal year 2017.

The table below summarizes the effects of derivative instruments in the consolidated statements of operations and comprehensive income for fiscal year 2016:

Derivatives designated as cash flow hedging instruments	Amount of gain (loss) recognized in other comprehensive income (loss)	Amount of net gain (loss) reclassified into earnings	Consolidated statement of operations classification	Total effect on other comprehensive income (loss)
Interest rate swaps	\$ —	2,181	Interest expense	(2,181)
Income tax effect	—	(882)	Provision for income taxes	882
Net of income taxes	\$ —	1,299		(1,299)

The table below summarizes the effects of derivative instruments in the consolidated statements of operations and comprehensive income for fiscal year 2015:

Derivatives designated as cash flow hedging instruments	Amount of gain (loss) recognized in other comprehensive income (loss)	Amount of net gain (loss) reclassified into earnings	Consolidated statement of operations classification	Total effect on other comprehensive income (loss)
Interest rate swaps	\$ —	2,140	Interest expense	(2,140)
Income tax effect	—	(867)	Provision for income taxes	867
Net of income taxes	\$ —	1,273		(1,273)

The table below summarizes the effects of derivative instruments in the consolidated statements of operations and comprehensive income for fiscal year 2014:

Derivatives designated as cash flow hedging instruments	Amount of gain (loss) recognized in other comprehensive income (loss)	Amount of net gain (loss) reclassified into earnings	Consolidated statement of operations classification	Total effect on other comprehensive income (loss)
Interest rate swaps	\$ (8,085)	(4,108)	Interest expense	(3,977)
Income tax effect	3,269	1,661	Provision for income taxes	1,608
Net of income taxes	\$ (4,816)	(2,447)		(2,369)

#### (10) Other current liabilities

Other current liabilities at December 31, 2016 and December 26, 2015 consisted of the following (in thousands):

	December 31, 2016	December 26, 2015
Gift card/certificate liability	\$ 207,628	176,080
Gift card breakage liabilities	13,301	23,955
Accrued salary and benefits	25,071	29,540
Accrued legal liabilities (see note 17(d))	5,555	18,267
Accrued interest	10,702	9,522
Accrued professional costs	2,170	4,814
Franchisee profit-sharing liability	11,083	8,406
Other	22,756	22,275
Total other current liabilities	\$ 298,266	292,859

The increase in the gift card/certificate liability is due primarily to an increase in, and timing of, gift card activations. The franchisee profit-sharing liability represents amounts owed to franchisees from the net profits primarily on the sale of Dunkin' K-Cup® pods and retail packaged coffee in certain retail outlets.

#### (11) Leases

The Company is the lessee on certain land leases (the Company leases the land and erects a building) or improved leases (lessor owns the land and building) covering restaurants and other properties. In addition, the Company has leased and subleased land and buildings to others. Many of these leases and subleases provide for future rent escalation and renewal options. In addition, contingent rentals, determined as a percentage of annual sales by our franchisees, are stipulated in certain prime lease and sublease agreements. The Company is generally obligated for the cost of property taxes, insurance, and maintenance relating to these leases. Such costs are typically charged to the sublessee based on the terms of the sublease agreements. The Company also leases certain office equipment and a fleet of automobiles under noncancelable operating leases. Included in the Company's consolidated balance sheets are the following amounts related to capital leases (in thousands):

	December 31, 2016	December 26, 2015
Leased property under capital leases (included in property and equipment)	\$ 10,081	9,457
Accumulated depreciation	(4,055)	(3,437)
Net leased property under capital leases	\$ 6,026	6,020
Capital lease obligations:		
Current	\$ 589	546
Long-term	7,550	7,497
Total capital lease obligations	\$ 8,139	8,043

Included in the Company's consolidated balance sheets are the following amounts related to assets leased to others under operating leases, where the Company is the lessor (in thousands):

	December 31, 2016	December 26, 2015
Land	\$ 32,646	27,654
Buildings	47,723	43,196
Leasehold improvements	149,027	139,409
Store, production, and other equipment	150	221
Construction in progress	567	783
Assets leased to others, gross	230,113	211,263
Accumulated depreciation	(86,957)	(78,453)
Assets leased to others, net	\$ 143,156	132,810

Future minimum rental commitments to be paid and received by the Company at December 31, 2016 for all noncancelable leases and subleases are as follows (in thousands):

	Payments		Receipts	Net leases
	Capital leases	Operating leases	Subleases	
Fiscal year:				
2017	\$ 1,567	57,749	(71,627)	(12,311)
2018	1,602	57,679	(70,861)	(11,580)
2019	1,431	56,273	(68,948)	(11,244)
2020	1,223	53,389	(64,965)	(10,353)
2021	1,257	48,446	(60,904)	(11,201)
Thereafter	11,593	394,431	(372,093)	33,931
Total minimum rental commitments	18,673	\$ 667,967	(709,398)	(22,758)
Less amount representing interest	10,534			
Present value of minimum capital lease obligations	\$ 8,139			

Rental expense under operating leases associated with franchised locations and company-operated locations is included in occupancy expenses—franchised restaurants and company-operated restaurant expenses, respectively, in the consolidated statements of operations. Rental expense under operating leases for all other locations, including corporate facilities, is included in general and administrative expenses, net, in the consolidated statements of operations. Total rental expense for all operating leases consisted of the following (in thousands):

	Fiscal year ended		
	December 31, 2016	December 26, 2015	December 27, 2014
Base rentals	\$ 54,517	54,290	53,130
Contingent rentals	6,182	6,348	6,071
Total rental expense	\$ 60,699	60,638	59,201

Total rental income for all leases and subleases consisted of the following (in thousands):

	Fiscal year ended		
	December 31, 2016	December 26, 2015	December 27, 2014
Base rentals	\$ 70,962	70,033	67,945
Contingent rentals	30,058	30,389	29,718
Total rental income	\$ 101,020	100,422	97,663

## (12) Segment information

The Company is strategically aligned into two global brands, Dunkin' Donuts and Baskin-Robbins, which are further segregated between U.S. operations and international operations. As such, the Company has determined that it has four operating segments, which are its reportable segments: Dunkin' Donuts U.S., Dunkin' Donuts International, Baskin-Robbins U.S., and Baskin-Robbins International. Dunkin' Donuts U.S., Baskin-Robbins U.S., and Dunkin' Donuts International primarily derive their revenues through royalty income and franchise fees. Baskin-Robbins U.S. also derives revenue through license fees from a third-party license agreement and rental income. Dunkin' Donuts U.S. also derives revenue through rental income. Prior to the sale of remaining company-operated restaurants in the fourth quarter of fiscal year 2016, Dunkin' Donuts U.S. also derived revenue through retail sales at company-operated restaurants. Baskin-Robbins International primarily derives its revenues from sales of ice cream products, as well as royalty income, franchise fees, and license fees. The operating results of each segment are regularly reviewed and evaluated separately by the Company's senior management, which includes, but is not limited to, the chief executive officer. Senior management primarily evaluates the performance of its segments and allocates resources to them based on operating income adjusted for amortization of intangible assets, long-lived asset impairment charges, impairment of our joint ventures, and other infrequent or unusual charges, which does not reflect the allocation of any corporate charges. This profitability measure is referred to as segment profit. When senior management reviews a balance sheet, it is at a consolidated level. The accounting policies applicable to each segment are generally consistent with those used in the consolidated financial statements.

Beginning in fiscal year 2016, certain segment profit amounts in the tables below have been reclassified as a result of the realignment of the Company's organizational structure to better support its segment operations, including the allocation of previously unallocated costs. Additionally, revenues and segment profit amounts related to restaurants located in Puerto Rico were previously included in the Dunkin' Donuts International and Baskin-Robbins International segments, but are now included in the Dunkin' Donuts U.S. and Baskin-Robbins U.S. segments based on functional responsibility. Prior year amounts in the tables below have been revised to reflect these changes for all periods presented.

Revenues for all operating segments include only transactions with unaffiliated customers and include no intersegment revenues. Revenues reported as "Other" include revenues earned through certain licensing arrangements with third parties in which our brand names are used, including the licensing fees earned from the Dunkin' K-Cup® pod licensing agreement, revenues generated from online training programs for franchisees, and revenues from the sale of Dunkin' Donuts products in certain international markets, all of which are not allocated to a specific segment. Revenues by segment were as follows (in thousands):

	Revenues		
	Fiscal year ended		
	December 31, 2016	December 26, 2015	December 27, 2014
Dunkin' Donuts U.S.	\$ 607,964	591,062	548,871
Dunkin' Donuts International	22,903	22,973	19,693
Baskin-Robbins U.S.	47,512	47,140	45,865
Baskin-Robbins International	119,015	117,076	119,749
Total reportable segment revenues	797,394	778,251	734,178
Other	31,495	32,682	14,531
Total revenues	\$ 828,889	810,933	748,709

Revenues for foreign countries are represented by the Dunkin' Donuts International and Baskin-Robbins International segments above. No individual foreign country accounted for more than 10% of total revenues for any fiscal year presented.

Amounts included in “Corporate” in the segment profit table below include corporate overhead costs, such as payroll and related benefit costs and professional services, net of “Other” revenues reported above. Segment profit by segment was as follows (in thousands):

	<b>Segment profit</b>

### (13) Stockholders' deficit

#### (a) Common stock

Common shares issued and outstanding included in the consolidated balance sheets include vested and unvested restricted shares. Common stock in the consolidated statements of stockholders' deficit excludes unvested restricted shares.

#### (b) Treasury stock

During fiscal year 2014, the Company repurchased a total of 2,911,205 shares of common stock in the open market at a weighted average price per share of \$44.71 from existing stockholders. The Company accounts for treasury stock under the cost method, and as such recorded an increase in treasury stock of \$130.2 million during fiscal year 2014, based on the fair market value of the shares on the date of repurchase and direct costs incurred. During fiscal year 2014, the Company retired all outstanding shares of treasury stock, resulting in decreases in treasury stock and additional paid-in capital of \$140.9 million and \$33.2 million, respectively, and an increase in accumulated deficit of \$107.8 million.

On February 5, 2015, the Company entered into an accelerated share repurchase agreement (the "February 2015 ASR Agreement") with a third-party financial institution. Pursuant to the terms of the February 2015 ASR Agreement, the Company paid the financial institution \$400.0 million in cash and received a delivery of 8,226,297 shares of the Company's common stock in fiscal year 2015 based on a weighted average cost per share of \$48.62 over the term of the February 2015 ASR Agreement.

On October 22, 2015, the Company entered into an accelerated share repurchase agreement (the "October 2015 ASR Agreement") with a third-party financial institution. Pursuant to the terms of the October 2015 ASR Agreement, the Company paid the financial institution \$125.0 million from cash on hand and received an initial delivery of 2,527,167 shares of the Company's common stock in October 2015, representing an estimate of 80% of the total shares expected to be delivered under the October 2015 ASR Agreement. Upon the final settlement of the October 2015 ASR Agreement in fiscal year 2016, the Company received an additional delivery of 483,913 shares of its common stock based on a weighted average cost per share of \$41.51 over the term of the October 2015 ASR Agreement.

Additionally, during fiscal year 2015, the Company repurchased a total of 2,106,881 shares of common stock in the open market at a weighted average cost per share of \$47.47 from existing stockholders.

The Company recorded an increase in treasury stock of \$600.0 million during fiscal year 2015 for the shares repurchased under the accelerated share repurchase agreements and in the open market, based on the fair market value of the shares on the dates of repurchase and direct costs incurred. Additionally, the Company recorded a decrease in additional paid-in capital of \$25.0 million related to the remaining cash paid under the October 2015 ASR Agreement since the final settlement was not completed as of December 26, 2015, which upon settlement in fiscal year 2016, was reclassified from additional paid-in-capital to treasury stock. During fiscal year 2015, the Company retired 12,833,178 shares of treasury stock, resulting in decreases in treasury stock and additional paid-in capital of \$599.0 million and \$129.4 million, respectively, and an increase in accumulated deficit of \$469.5 million.

On February 4, 2016, the Company entered into an accelerated share repurchase agreement (the "February 2016 ASR Agreement") with a third-party financial institution. Pursuant to the terms of the February 2016 ASR Agreement, the Company paid the financial institution \$30.0 million in cash and received 702,239 shares of the Company's common stock in fiscal year 2016 based on a weighted average cost per share of \$42.72 over the term of the February 2016 ASR Agreement.

Additionally, during fiscal year 2016, the Company repurchased a total of 520,631 shares of common stock in the open market at a weighted average cost per share of \$48.02 from existing stockholders.

The Company recorded an increase in treasury stock of \$80.0 million during fiscal year 2016 for the shares repurchased under the accelerated share repurchase agreements and in the open market, based on the fair market value of the shares on the dates of repurchase and direct costs incurred. During fiscal year 2016, the Company retired 1,706,783 shares of treasury stock, resulting in decreases in treasury stock and additional paid-in capital of \$80.0 million and \$15.9 million, respectively, and an increase in accumulated deficit of \$64.1 million.

**(c) Accumulated other comprehensive loss**

The components of accumulated other comprehensive loss were as follows (in thousands):

	Effect of foreign currency translation	Unrealized gains (losses) on interest rate swaps	Other	Accumulated other comprehensive loss
Balances at December 26, 2015	\$ (20,459)	2,443	(2,030)	(20,046)
Other comprehensive loss	(2,560)	(1,299)	(79)	(3,938)
Balances at December 31, 2016	\$ (23,019)	1,144	(2,109)	(23,984)

**(d) Dividends**

During fiscal year 2016, the Company paid dividends on common stock as follows:

	Dividend per share	Total amount (in thousands)	Payment date
<b>Fiscal year 2016:</b>			
First quarter	\$ 0.3000	\$ 27,395	March 16, 2016
Second quarter	0.3000	27,456	June 8, 2016
Third quarter	0.3000	27,475	August 31, 2016
Fourth quarter	0.3000	27,377	November 30, 2016

During fiscal year 2015, the Company paid dividends on common stock as follows:

	Dividend per share	Total amount (in thousands)	Payment date
<b>Fiscal year 2015:</b>			
First quarter	\$ 0.2650	\$ 25,688	March 18, 2015
Second quarter	0.2650	25,127	June 17, 2015
Third quarter	0.2650	25,197	September 2, 2015
Fourth quarter	0.2650	24,504	December 2, 2015

On February 9, 2017, we announced that our board of directors approved an increase to the next quarterly dividend to \$0.3225 per share of common stock, payable on March 22, 2017 to shareholders of record as of the close of business on March 13, 2017.

**(14) Equity incentive plans**

The Dunkin' Brands Group, Inc. 2015 Omnibus Long-Term Incentive Plan (the "2015 Plan") was adopted in May 2015, and is the only plan under which the Company currently grants awards. A maximum of 6,200,000 shares of common stock may be delivered in satisfaction of awards under the 2015 Plan. Prior to the 2015 Plan, the Company granted awards under the Dunkin' Brands Group, Inc. 2011 Omnibus Long-Term Incentive Plan (the "2011 Plan") and the 2006 Executive Incentive Plan, as amended (the "2006 Plan").

Total share-based compensation expense, which is included in general and administrative expenses, net, consisted of the following (in thousands):

	Fiscal year ended		
	December 31, 2016	December 26, 2015	December 27, 2014
Time-vested stock options	\$ 10,654	10,519	6,978
Restricted stock units	3,608	3,408	2,419
2011 Plan restricted shares	1,793	1,967	1,456
Performance stock units	1,086	—	—
Other	40	198	434
Total share-based compensation	\$ 17,181	16,092	11,287
Total related tax benefit	\$ 6,955	6,512	4,567

The actual tax benefit realized from stock options exercised during fiscal years 2016, 2015, and 2014 was \$4.1 million, \$13.1 million, and \$11.5 million respectively.

### Time-vested stock options

Time-vested stock options granted under the 2006 Plan, 2011 Plan, and 2015 Plan vest in equal annual amounts over either a 4- or 5-year period subsequent to the grant date, and as such are subject to a service condition, and also fully vest upon a change of control. The requisite service period over which compensation cost is being recognized is either 4 or 5 years. The maximum contractual term of the stock options is 7 or 10 years.

The fair value of time-vested stock options were estimated on the date of grant using the Black-Scholes option pricing model. This model is impacted by the Company's stock price and certain assumptions related to the Company's stock and employees' exercise behavior. The following weighted average assumptions were utilized in determining the fair value of the 2015 Plan options granted during fiscal year 2016 and the 2011 Plan options granted during fiscal years 2015 and 2014:

	Fiscal year ended		
	December 31, 2016	December 26, 2015	December 27, 2014
Weighted average grant-date fair value of share options granted	\$ 7.41	\$ 8.66	\$ 10.65
Weighted average assumptions:			
Risk-free interest rate	1.2%	1.5%	1.5%
Expected volatility	25.0%	25.0%	26.3%
Dividend yield	2.7%	2.2%	1.8%
Expected term (years)	4.90	4.91	4.96

The expected term was primarily estimated utilizing the simplified method. We utilized the simplified method because the Company does not have sufficient historical exercise data to provide a reasonable basis upon which to estimate expected term. The risk-free interest rate assumption was based on yields of U.S. Treasury securities in effect at the date of grant with terms similar to the expected term. Expected volatility was estimated based on historical volatility of peer companies over a period equivalent to the expected term, as well as considering the Company's historical volatility since its initial public offering. Additionally, the dividend yield was estimated based on dividends currently being paid on the underlying common stock at the date of grant. Estimated and actual forfeitures have not had a material impact on share-based compensation expense.

A summary of the status of the time-vested stock options as of December 31, 2016 and changes during fiscal year 2016 is presented below:

	Number of shares	Weighted average exercise price	Weighted average remaining contractual term (years)	Aggregate intrinsic value (in millions)
Share options outstanding at December 26, 2015	4,249,758	\$ 44.18	6.0	
Granted	1,384,294	44.35		
Exercised	(320,836)	31.27		
Forfeited or expired	(423,631)	47.04		
Share options outstanding at December 31, 2016	4,889,585	44.82	5.3	\$ 37.2
Share options exercisable at December 31, 2016	1,756,886	42.22	5.1	18.0

The total grant-date fair value of the time-vested options vested during fiscal years 2016, 2015, and 2014 was \$10.6 million, \$7.4 million, and \$4.6 million, respectively. The total intrinsic value of the time-vested stock options exercised was \$5.3 million, \$6.7 million, and \$3.7 million for fiscal years 2016, 2015, and 2014, respectively. As of December 31, 2016, there was \$15.7 million of total unrecognized compensation cost related to the time-vested stock options. Unrecognized compensation cost is expected to be recognized over a weighted average period of approximately 2.3 years.

### Restricted stock units

The Company typically grants restricted stock units to certain employees and non-employee members of our board of directors. Restricted stock units granted to employees generally vest in three equal installments on each of the first three annual anniversaries of the grant date. Restricted stock units granted to our non-employee members of our board of directors generally vest in one installment on the first anniversary of the grant date.

A summary of the changes in the Company's restricted stock units during fiscal year 2016 is presented below:

	Number of shares	Weighted average grant-date fair value	Weighted average remaining contractual term (years)	Aggregate intrinsic value (in millions)
Nonvested restricted stock units at December 26, 2015	138,347	\$ 45.42	1.4	
Granted	134,723	44.34		
Vested	(77,571)	44.97		
Forfeited	(11,823)	44.07		
Nonvested restricted stock units at December 31, 2016	183,676	44.91	1.7	\$ 9.6

The fair value of each restricted stock unit is determined on the date of grant based on our closing stock price, less the present value of expected dividends not received during the vesting period. As of December 31, 2016, there was \$5.3 million of total unrecognized compensation cost related to restricted stock units, which is expected to be recognized over a weighted average period of approximately 2.0 years. The total grant-date fair value of restricted stock units vested during fiscal years 2016, 2015, and 2014 was \$3.5 million, \$2.6 million, and \$1.8 million, respectively.

### 2011 Plan restricted shares

During fiscal year 2014, the Company granted restricted shares of 27,096. The restricted shares vested in full on July 31, 2016 based on a service condition, and had a grant-date fair value of \$51.67 per share, which was determined on the date of grant based on the Company's closing stock price. During fiscal year 2015, the Company granted restricted shares of 21,101. The restricted shares vest in equal installments in February 2018 and 2019 based on a service condition, and have a grant-date fair value of \$47.39 per share, which was determined on the date of grant based on the Company's closing stock price. As of December 31, 2016, there was \$528 thousand of total unrecognized compensation cost related to these restricted shares, which is expected to be recognized over a weighted average period of approximately 2.1 years.

In addition, during fiscal year 2014, the Company granted 150,000 contingently issuable restricted shares. The contingently issuable restricted shares are eligible to vest on December 31, 2018, subject to a service condition and a market vesting condition linked to the level of total shareholder return received by the Company's shareholders during the performance period measured against the median total shareholder return of the companies in the S&P 500 Composite Index. The contingently issuable restricted shares were valued based on a Monte Carlo simulation model to reflect the impact of the total shareholder return market condition, resulting in a grant-date fair value of \$37.94 per share. As of December 31, 2016, there was \$2.3 million of total unrecognized compensation cost related to these restricted shares, which is expected to be recognized over a period of approximately 2.0 years.

As of December 31, 2016, 171,101 2011 Plan restricted shares remained unvested. The total grant-date fair value of restricted shares vested during fiscal year 2016 was \$1.4 million.

### Performance stock units

The Company granted 121,030 performance stock units ("PSUs") to certain employees during fiscal year 2016, which are generally eligible to cliff-vest approximately three years from the grant date. Of the total PSUs granted, 39,684 PSUs are subject to a service condition and a market vesting condition linked to the level of total shareholder return received by the Company's shareholders during the performance period measured against the companies in the S&P 500 Composite Index ("TSR PSUs"). The remaining 81,346 PSUs granted are subject to a service condition and a performance vesting condition based on the level of adjusted operating income growth achieved over the performance period ("AOI PSUs"). The maximum vesting percentage that could be realized for each of the TSR PSUs and the AOI PSUs is 200% based on the level of performance achieved for the respective awards. All of the PSUs are also subject to a one-year post-vesting holding period. The TSR PSUs were valued based on a Monte Carlo simulation model to reflect the impact of the total shareholder return market condition, resulting in a weighted average grant-date fair value of \$55.36 per share. The probability of satisfying a market condition is considered in the estimation of the grant-date fair value for TSR PSUs and the compensation cost is not reversed if the market condition is not achieved, provided the requisite service has been provided. The AOI PSUs have a weighted average grant-date fair value of \$44.22 per share. Total compensation cost for the AOI PSUs is determined based on the most likely outcome of the performance condition and the number of awards expected to vest based on the outcome.

A summary of the changes in the Company's PSUs during fiscal year 2016 is presented below:

	Number of shares	Weighted average grant-date fair value	Weighted average remaining contractual term (years)	Aggregate intrinsic value (in millions)
Granted	121,030	\$ 47.87		
Forfeited	(7,989)	47.51		
Nonvested performance stock units at December 31, 2016	<u>113,041</u>	47.90	2.3	\$ 5.9

As of December 31, 2016, there was \$3.9 million of total unrecognized compensation cost related to PSUs, which is expected to be recognized over a weighted average period of approximately 2.3 years.

### (15) Earnings per Share

The computation of basic and diluted earnings per common share is as follows (in thousands, except share and per share amounts):

	Fiscal year ended		
	December 31, 2016	December 26, 2015	December 27, 2014
Net income attributable to Dunkin' Brands—basic and diluted	\$ 195,576	105,227	176,357
Weighted average number of common shares:			
Common—basic	91,568,942	96,045,232	105,398,899
Common—diluted	92,538,282	97,131,674	106,705,778
Earnings per common share:			
Common—basic	\$ 2.14	1.10	1.67
Common—diluted	2.11	1.08	1.65

The weighted average number of common shares in the common diluted earnings per share calculation includes the dilutive effect of 969,340, 1,086,442, and 1,306,879 equity awards for fiscal years 2016, 2015, and 2014, respectively, using the treasury stock method. The weighted average number of common shares in the common diluted earnings per share calculation for all periods excludes all contingently issuable equity awards outstanding for which the contingent vesting criteria were not yet met as of the fiscal period end. As of December 31, 2016, December 26, 2015, and December 27, 2014 there were 150,000 restricted shares that were contingently issuable and for which the contingent vesting criteria were not yet met as of the fiscal period end. Additionally, the weighted average number of common shares in the common diluted earnings per share calculation excludes 3,498,229, 2,985,215, and 1,373,379 equity awards for fiscal years 2016, 2015, and 2014, respectively, as they would be antidilutive.

### (16) Income taxes

Income before income taxes was attributed to domestic and foreign taxing jurisdictions as follows (in thousands):

	Fiscal year ended		
	December 31, 2016	December 26, 2015	December 27, 2014
Domestic operations	\$ 286,927	234,410	231,549
Foreign operations	26,322	(32,822)	24,184
Income before income taxes	<u>\$ 313,249</u>	<u>201,588</u>	<u>255,733</u>

The components of the provision for income taxes were as follows (in thousands):

	Fiscal year ended		
	December 31, 2016	December 26, 2015	December 27, 2014
<b>Current:</b>			
Federal	\$ 97,972	90,586	82,925
State	28,430	23,694	23,146
Foreign	3,808	3,186	(1,262)
Current tax provision	<u>\$ 130,210</u>	<u>117,466</u>	<u>104,809</u>
<b>Deferred:</b>			
Federal	\$ (9,983)	(19,034)	(22,644)
State	(3,152)	(3,060)	(1,861)
Foreign	598	987	(134)
Deferred tax benefit	<u>(12,537)</u>	<u>(21,107)</u>	<u>(24,639)</u>
Provision for income taxes	<u>\$ 117,673</u>	<u>96,359</u>	<u>80,170</u>

The provision for income taxes from continuing operations differed from the expense computed using the statutory federal income tax rate of 35% due to the following:

	Fiscal year ended		
	December 31, 2016	December 26, 2015	December 27, 2014
Computed federal income tax expense, at statutory rate	35.0 %	35.0 %	35.0 %
Impairment of investment in Japan JV	—	9.4	—
State income taxes	5.1	6.6	5.7
Benefits and taxes related to foreign operations	(2.7)	(4.4)	(3.5)
Conversion of foreign subsidiary	—	—	(3.3)
Other permanent differences	0.1	0.6	0.1
Changes in enacted tax rates and apportionment	—	—	0.1
Uncertain tax positions	—	—	(2.5)
Other, net	0.1	0.6	(0.3)
Effective tax rate	<u>37.6 %</u>	<u>47.8 %</u>	<u>31.3 %</u>

The increase in the effective tax rate for fiscal year 2015 resulting from the impairment of our investment in the Japan JV resulted from the corresponding reduction in income before income taxes but for which there is no corresponding tax benefit.

During fiscal year 2014, the Company recorded a net tax benefit of \$7.0 million related to the reversal of reserves for uncertain tax positions, including interest and penalties, net of federal and state tax benefit as applicable, for which settlement with the taxing authorities was reached or were otherwise deemed effectively settled. Additionally during fiscal year 2014, the Company recorded a net tax benefit of \$8.5 million related to the restructuring of our Canadian subsidiaries, which included a legal entity conversion of Dunkin' Brands Canada, Ltd. ("DBCL") to a British Columbia unlimited liability company. The net tax benefit from the Canadian legal entity conversion resulted primarily from a worthless securities deduction for the tax basis of DBCL and the revaluation of DBCL's deferred tax assets and liabilities at the applicable U.S. deferred tax rate, partially offset by income recognized for the tax basis of DBCL's assets.

The components of deferred tax assets and liabilities were as follows (in thousands):

	December 31, 2016		December 26, 2015	
	Deferred tax assets	Deferred tax liabilities	Deferred tax assets	Deferred tax liabilities
Allowance for doubtful accounts	\$ 2,685	—	4,484	—
Capital leases	3,295	—	3,256	—
Rent	11,905	—	10,132	—
Property and equipment	—	1,977	419	—
Deferred compensation liabilities	19,900	—	15,155	—
Deferred gift cards and certificates	27,874	—	20,909	—
Deferred income	12,609	—	12,064	—
Real estate reserves	1,264	—	1,060	—
Franchise rights and other intangibles	—	551,679	—	559,332
Unused net operating losses and foreign tax credits	11,457	—	14,233	—
Other current liabilities	5,368	—	7,708	—
Capital loss	336	—	162	—
Other	1,422	—	—	337
	98,115	553,656	89,582	559,669
Valuation allowance	(1,131)	—	(793)	—
Total	\$ 96,984	553,656	88,789	559,669

Deferred tax assets for certain foreign jurisdictions totaling \$5.1 million and \$5.6 million as of December 31, 2016 and December 26, 2015, respectively, are included in other assets in the consolidated balance sheets. At December 31, 2016, the Company had \$8.5 million of unused foreign tax credits, which expire in fiscal years 2021 through 2026. At December 31, 2016, the Company had net operating loss and capital loss carryforwards in certain international jurisdictions of approximately \$7.1 million and \$1.1 million, respectively, and recorded deferred tax assets of \$1.1 million and \$0.2 million, respectively, net of valuation allowance, related to such loss carryforwards.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income, and projections for future taxable income over the periods for which the deferred tax assets are deductible, management believes, as of December 31, 2016, with the exception of net operating loss and capital loss carryforwards attributable to certain of our foreign subsidiaries for which valuation allowances have been recorded, it is more likely than not that the Company will realize the benefits of the deferred tax assets.

The Company has not recognized a deferred tax liability of \$7.7 million for the undistributed earnings of foreign operations, net of foreign tax credits, relating to our foreign joint ventures that arose in fiscal year 2016 and prior years because the Company currently does not expect those unremitted earnings to reverse and become taxable to the Company in the foreseeable future. A deferred tax liability will be recognized when the Company is no longer able to demonstrate that it plans to indefinitely reinvest undistributed earnings. As of December 31, 2016 and December 26, 2015, the undistributed earnings of these joint ventures were approximately \$132.9 million and \$128.2 million, respectively.

The Company has not recognized a deferred tax liability of \$13.3 million for the undistributed earnings of our foreign subsidiaries since such earnings are considered indefinitely reinvested outside the United States. As of December 31, 2016 and December 26, 2015, the amount of cash associated with indefinitely reinvested foreign earnings was approximately \$24.5 million and \$18.3 million, respectively. If in the future we decide to repatriate such foreign earnings, we could incur incremental U.S. federal and state income tax. However, our intent is to keep these funds indefinitely reinvested outside of the United States and our current plans do not demonstrate a need to repatriate them to fund our U.S. operations.

At December 31, 2016 and December 26, 2015, the total amount of unrecognized tax benefits related to uncertain tax positions was \$2.3 million and \$2.7 million, respectively. At December 31, 2016 and December 26, 2015, the Company had approximately \$1.1 million and \$1.3 million, respectively, of accrued interest and penalties related to uncertain tax positions. The Company recorded net income tax benefits of \$0.2 million and \$2.3 million during fiscal years 2016 and 2014,

respectively, and net income tax expense of \$0.1 million during fiscal year 2015 for potential interest and penalties related to uncertain tax positions. At December 31, 2016 and December 26, 2015, there were \$1.3 million and \$1.1 million, respectively, of unrecognized tax benefits that, if recognized, would impact the annual effective tax rate.

The Company's major tax jurisdictions subject to income tax are the United States and Canada. For Canada, the Company has open tax years dating back to tax years ended December 2010 and finalized its audit for the tax periods 2009 through 2012 during fiscal year 2014. In the United States, the Company has open tax years dating back to tax years ended December 2013 and have been audited by the IRS through fiscal 2010. The Company is currently under audit in limited jurisdictions for tax years beginning after December 2010.

A summary of the changes in the Company's unrecognized tax benefits is as follows (in thousands):

	Fiscal year ended		
	December 31, 2016	December 26, 2015	December 27, 2014
Balance at beginning of year	\$ 2,653	3,672	8,213
Increases related to prior year tax positions	267	—	488
Increases related to current year tax positions	161	111	96
Decreases related to prior year tax positions	(33)	(301)	(4,567)
Decreases related to settlements	(191)	(636)	(296)
Lapses of statutes of limitations	(597)	—	—
Effect of foreign currency adjustments	30	(193)	(262)
Balance at end of year	<u>\$ 2,290</u>	<u>2,653</u>	<u>3,672</u>

## **(17) Commitments and contingencies**

### **(a) Lease commitments**

The Company is party to various leases for property, including land and buildings, leased automobiles, and office equipment under noncancelable operating and capital lease arrangements (see note 11).

### **(b) Supply chain guarantees**

The Company has various supply chain agreements that provide for purchase commitments, the majority of which result in the Company being contingently liable upon early termination of the agreement. As of December 31, 2016 and December 26, 2015, the Company was contingently liable under such supply chain agreements for approximately \$136.2 million and \$157.8 million, respectively. For certain supply chain commitments, as product is purchased by the Company's franchisees over the term of the agreement, the amount of the guarantee is reduced. The Company assesses the risk of performing under each of these guarantees on a quarterly basis, and, based on various factors including internal forecasts, prior history, and ability to extend contract terms, we accrued an immaterial amount of reserves related to supply chain commitments as of December 31, 2016, which is included in other current liabilities in the consolidated balance sheets. There was no accrual required as of December 26, 2015 related to these commitments.

### **(c) Letters of credit**

At December 31, 2016 and December 26, 2015, the Company had standby letters of credit outstanding for a total of \$25.9 million and \$26.3 million, respectively. There were no amounts drawn down on these letters of credit.

### **(d) Legal matters**

In May 2003, a group of Dunkin' Donuts franchisees from Quebec, Canada filed a lawsuit against the Company on a variety of claims, including but not limited to, alleging that the Company breached its franchise agreements and provided inadequate management and support to Dunkin' Donuts franchisees in Quebec (the "Bertico litigation"). In June 2012, the Quebec Superior Court found for the plaintiffs and issued a judgment against the Company in the amount of approximately C\$16.4 million, plus costs and interest, representing loss in value of the franchises and lost profits. The Company appealed the decision, and in April 2015, the Quebec Court of Appeals (Montreal) ruled to reduce the damages to approximately C\$10.9 million, plus costs and interest. Similar claims have also been made against the Company by other former Dunkin' Donuts franchisees in Canada. As a result of the Bertico litigation appellate ruling and assessment of similar claims, the Company reduced its aggregate legal reserves for the Bertico litigation and similar claims by approximately \$2.8 million during fiscal

year 2015, which is recorded within general and administrative expenses, net in the consolidated statements of operations. During fiscal year 2016, the Company reached a final agreement on costs and interest with the plaintiffs in the Bertico litigation, and paid approximately C\$17.4 million with respect to this matter, which represented the full amounts owed to the plaintiffs.

Additionally, the Company is engaged in several matters of litigation arising in the ordinary course of its business as a franchisor. Such matters include disputes related to compliance with the terms of franchise and development agreements, including claims or threats of claims of breach of contract, negligence, and other alleged violations by the Company. At December 31, 2016 and December 26, 2015, contingent liabilities totaling \$5.6 million and \$18.3 million, respectively, were included in other current liabilities in the consolidated balance sheets to reflect the Company's estimate of the probable losses which may be incurred in connection with all outstanding litigation.

## **(18) Retirement plans**

### ***401(k) Plan***

Employees of the Company, excluding employees of certain international subsidiaries and certain employees of company-operated stores, are eligible to participate in a defined contribution retirement plan, the Dunkin' Brands 401(k) Retirement Plan ("401(k) Plan"), under Section 401(k) of the Internal Revenue Code. Under the 401(k) Plan, employees may contribute up to 80% of their pre-tax eligible compensation, not to exceed the annual limits set by the IRS. The 401(k) Plan allows the Company to match participants' contributions in an amount determined at the sole discretion of the Company. The Company matched participants' contributions during fiscal years 2016, 2015, and 2014, up to a maximum of 4% of the employee's eligible compensation. Employer contributions totaled \$3.3 million for fiscal year 2016 and \$3.2 million for each of the fiscal years 2015 and 2014.

### ***NQDC Plans***

The Company also offers certain qualifying individuals, as defined by the Employee Retirement Income Security Act ("ERISA"), the ability to participate in the NQDC Plans. The NQDC Plans allow for pre-tax contributions of up to 50% of a participant's base annual salary and other forms of compensation, as defined. The Company credits the amounts deferred with earnings and holds investments in company-owned life insurance policies to partially offset the Company's liabilities under the NQDC Plans. The NQDC Plans liability, included in other long-term liabilities in the consolidated balance sheets, was \$11.1 million and \$9.1 million at December 31, 2016 and December 26, 2015, respectively. As of December 31, 2016 and December 26, 2015, total investments held for the NQDC Plans were \$9.3 million and \$5.8 million, respectively, and are included in other assets in the consolidated balance sheets.

### ***Canadian Pension Plan***

The Company sponsored a contributory defined benefit pension plan in Canada, The Baskin-Robbins Employees' Pension Plan ("Canadian Pension Plan"), which provided retirement benefits for the majority of its Canadian employees.

During fiscal year 2012, the Company's board of directors approved a plan to close the Peterborough, Ontario, Canada manufacturing plant, where the majority of the Canadian Pension Plan participants were employed. As a result of the closure, the Company terminated the Canadian Pension Plan in fiscal year 2012, and the Financial Services Commission of Ontario approved the termination of the plan in fiscal year 2014. During fiscal year 2015, the Company completed the final settlement of the plan by funding the plan deficit and distributing substantially all plan assets through lump-sum distributions to participants and the purchase of annuities. The settlement of the Canadian Pension Plan resulted in the recognition of a loss of \$4.1 million, which was reclassified from accumulated other comprehensive loss to general and administrative expenses, net during fiscal year 2015.

## **(19) Related-party transactions**

The Company recognized royalty income from its equity method investees as follows (in thousands):

	Fiscal year ended		
	December 31, 2016	December 26, 2015	December 27, 2014
Japan JV	\$ 1,873	1,378	1,790
South Korea JV	4,030	4,288	4,602
Spain JV	—	68	123
	<u>\$ 5,903</u>	<u>5,734</u>	<u>6,515</u>

At December 31, 2016 and December 26, 2015, the Company had \$1.1 million of royalties receivable from its equity method investees, which were recorded in accounts receivable, net of allowance for doubtful accounts, in the consolidated balance sheets.

The Company made net payments to its equity method investees totaling approximately \$3.2 million in each of the fiscal years 2016 and 2015, and \$2.6 million in fiscal year 2014, primarily for the purchase of ice cream products.

As of December 26, 2015, the Company had \$2.1 million of notes receivable from the Spain JV, which were fully reserved, and are included in other assets in the consolidated balance sheet. Upon sale of the Company's ownership interest in the Spain JV in fiscal year 2016 (see note 6), the Company recovered approximately \$1.0 million in notes receivable repayments.

During fiscal years 2016, 2015, and 2014, the Company recognized sales of ice cream and other products of \$4.3 million, \$4.0 million, and \$5.8 million, respectively, in the consolidated statements of operations from the sale of ice cream products to the Australia JV. As of December 31, 2016 and December 26, 2015, the Company had \$2.6 million and \$3.1 million, respectively of net receivables from the Australia JV, consisting of accounts and notes receivable, net of current liabilities.

## (20) Allowance for doubtful accounts

The changes in the allowance for doubtful accounts were as follows (in thousands):

	Accounts receivable	Short-term notes and other receivables	Long-term notes and other receivables
Balance at December 28, 2013	\$ 2,599	659	2,808
Provision for (recovery of) doubtful accounts, net	1,796	(14)	1,039

## Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

### Item 9A. Controls and Procedures.

#### Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), that are designed to ensure that information that would be required to be disclosed in Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

We carried out an evaluation, under the supervision, and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2016. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of December 31, 2016, such disclosure controls and procedures were effective.

#### Changes in Internal Control over Financial Reporting

There have been no changes in internal control over financial reporting that occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

#### Management's Report on Internal Control Over Financial Reporting

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rule 13a-15(f) promulgated under the Exchange Act as a process, designed by, or under the supervision of the Company's principal executive and principal financial officers and effected by the Company's board of directors, management, and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. Internal control over financial reporting includes maintaining records that in reasonable detail accurately and fairly reflect our transactions and disposition of assets; providing reasonable assurance that transactions are recorded as necessary for preparation of our financial statements; providing reasonable assurance that receipts and expenditures are made only in accordance with management and board authorizations; and providing reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on our financial statements.

Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that a misstatement of our financial statements would be prevented or detected. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with policies or procedures may deteriorate.

Management, with the participation of the Company's principal executive and principal financial officers, conducted an evaluation of the effectiveness of our internal control over financial reporting as of December 31, 2016 based on the framework and criteria established in *Internal Control—Integrated Framework (2013)*, issued by the Committee of Sponsoring

Organizations of the Treadway Commission. This evaluation included review of the documentation of controls, evaluation of the design effectiveness of controls, testing of the operating effectiveness of controls, and a conclusion on this evaluation. Based on this evaluation, management concluded that the Company's internal control over financial reporting was effective as of December 31, 2016.

Our independent registered public accounting firm, KPMG LLP, audited the effectiveness of our internal control over financial reporting as of December 31, 2016, as stated in their report which appears herein.

## Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders  
Dunkin' Brands Group, Inc.:

We have audited Dunkin' Brands Group, Inc. and subsidiaries' internal control over financial reporting as of December 31, 2016, based on criteria established in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Dunkin' Brands Group, Inc. and subsidiaries' management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying *Management's Report on Internal Control over Financial Reporting*. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Dunkin' Brands Group, Inc. and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2016, based on criteria established in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Dunkin' Brands Group, Inc. and subsidiaries as of December 31, 2016 and December 26, 2015, and the related consolidated statements of operations, comprehensive income, stockholders' equity (deficit), and cash flows for each of the years in the three-year period ended December 31, 2016, and our report dated February 21, 2017 expressed an unqualified opinion on those consolidated financial statements.

## Item 9B. Other Information

None.

## PART III

### Item 10. Directors, Executive Officers and Corporate Governance

#### Executive Officers of the Registrant

Set forth below is certain information about our executive officers. Ages are as of February 21, 2017.

*Nigel Travis*, age 67, has served as Chief Executive Officer of Dunkin' Brands since January 2009 and assumed the additional role of Chairman of the Board in May 2013. From 2005 through 2008, Mr. Travis served as President and Chief Executive Officer, and on the board of directors of Papa John's International, Inc., a publicly-traded international pizza chain. Prior to Papa John's, Mr. Travis was with Blockbuster, Inc. from 1994 to 2004, where he served in increasing roles of responsibility, including President and Chief Operating Officer. Mr. Travis previously held numerous senior positions at Burger King Corporation. Mr. Travis currently serves as a Director of Office Depot, Inc. and formerly served on the board of Lorillard, Inc.

*Paul Carbone*, age 50, was named Senior Vice President and Chief Financial Officer on June 4, 2012. Prior to that, Mr. Carbone had served as Vice President, Financial Management of Dunkin' Brands since 2008. Prior to joining Dunkin' Brands, he most recently served as Senior Vice President and Chief Financial Officer for Tween Brands, Inc. Before Tween Brands, Mr. Carbone spent seven years with Limited Brands, Inc., where his roles included Vice President, Finance, for Victoria's Secret. Mr. Carbone serves on the board of directors of Snap Fitness, a global franchisor of fitness facilities, as well as the National DCP, LLC, the Dunkin' Donuts franchisee-owned purchasing and distribution cooperative.

*Jack Clare*, age 46, was appointed Chief Information and Strategy Officer in March 2015. Mr. Clare joined Dunkin' Brands in July 2012, and prior to his current position, he served as Chief Information Officer. Prior to joining Dunkin' Brands, Mr. Clare served as Vice President, IT and Chief Information Officer for Yum! Restaurants International, where he had responsibility for the IT strategy for more than 14,000 restaurants in over 120 countries, primarily for the KFC, Pizza Hut and Taco Bell brands. Before Yum!, Mr. Clare spent seven years with Constellation Brands, most recently as their Vice President, Technical Services. He also spent three years with Sapient Corporation in various IT management roles and 7 years on active duty as an officer in the U.S. Air Force.

*Richard Emmett*, age 61, was named Chief Legal and Human Resources Officer in January 2014, and prior to that, served as Senior Vice President and General Counsel since joining Dunkin' Brands in December 2009. Mr. Emmett joined Dunkin' Brands from QCE HOLDING LLC (Quiznos) where he served as Executive Vice President, Chief Legal Officer and Secretary. Prior to Quiznos, Mr. Emmett served in various roles including as Senior Vice President, General Counsel and Secretary for Papa John's International. Mr. Emmett currently serves on the board of directors of Francesca's Holdings Corporation, is a member of Francesca's audit committee, and serves as Chair of that company's compensation committee. In addition, Mr. Emmett serves on the board of directors of the International Franchise Association.

*David Hoffmann*, age 49, joined Dunkin' Brands in October 2016 as President, Dunkin' Donuts U.S. and Canada. Prior to joining Dunkin' Brands, Mr. Hoffmann served as President, High Growth Markets, for McDonald's Corporation. Mr. Hoffmann served as an executive for McDonald's Corporation for 19 years in increasing areas of responsibility, including Senior Vice President and Restaurant Support Officer for APMEA, Vice President of Strategy, Insights and Development for APMEA and of Executive Vice President of McDonald's Japan.

*Bill Mitchell*, age 52, joined Dunkin' Brands in August 2010, and currently serves as President, Dunkin' Brands International. Prior to his current appointment, Mr. Mitchell served as President, Baskin-Robbins U.S. and Canada, and Dunkin' Donuts and Baskin-Robbins China, Japan and South Korea. Mr. Mitchell joined Dunkin' Brands from Papa John's International, where he had served in a variety of roles since 2000, including President of Global Operations, President of Domestic Operations, Operations VP, Division VP and Senior VP of Domestic Operations. Prior to Papa John's, Mr. Mitchell was with Popeyes, a division of AFC Enterprises where he served in various capacities including Senior Director of Franchise Operations.

*Scott Murphy*, age 44, currently serves as Senior Vice President, Operations, Dunkin' Donuts U.S. and Canada. Mr. Murphy joined Dunkin' Brands in 2004 and prior to his current position, served as Senior Vice President and Chief Supply Officer. Mr. Murphy's prior experience includes 10 years of global management consulting with A.T. Kearney. Mr. Murphy serves on the board of directors of the National Coffee Association of America, and previously served on the board of directors of the International Food Service Manufacturers Association and the National DCP, LLC.

*Karen Raskopf*, age 62, joined Dunkin' Brands in 2009 and currently serves as Senior Vice President and Chief Communications Officer. Prior to joining Dunkin' Brands, she spent 12 years as Senior Vice President, Corporate Communications for Blockbuster, Inc. She also served as head of communications for 7-Eleven, Inc.

*Paul Twohig*, age 63, joined Dunkin' Donuts U.S. in October 2009 and has announced his retirement as President, Dunkin' Donuts U.S. and Canada in March 2017. Prior to joining Dunkin' Brands, Mr. Twohig served as a Division Senior Vice President for Starbucks Corporation from December 2004 to March 2009. Mr. Twohig also previously served as Chief Operating Officer for Panera Bread Company.

*Weldon Spangler*, age 51, was appointed Senior Vice President, Baskin-Robbins U.S. and Canada in October 2015. Mr. Spangler joined Dunkin' Brands in 2010, and prior to his current position, he served as Vice President, Dunkin' Donuts Operations U.S. and Canada. Prior to joining Dunkin' Brands, Mr. Spangler held various leadership positions with Starbucks Corporation and immediately prior to joining Dunkin' Brands, Mr. Spangler was a Division Vice President for Knowledge Universe, an education services firm.

**DUNKIN' BRANDS GROUP, INC.**  
**2015 OMNIBUS LONG-TERM INCENTIVE PLAN**

NON-STATUTORY STOCK OPTION AGREEMENT

This agreement (the "Agreement") is made effective as of the [•]th day of [•], [•] (the "Grant Date"), between Dunkin' Brands Group, Inc., a Delaware corporation (the "Company"), and [•] (the "Participant"), and evidences a stock option granted by the Company to the Participant pursuant to and subject to the terms of the Dunkin' Brands Group, Inc. 2015 Omnibus Long-Term Incentive Plan (as amended from time to time, the "Plan").

1. Grant of Stock Option. The Company grants to the Participant on the Grant Date an option (the "Stock Option") to purchase, on the terms provided herein and in the Plan (including, without limitation, the exercise provisions in Section 6(b)(3) of the Plan), the number of shares of Stock of the Company set forth above with an exercise price per share of Stock as set forth above, in each case subject to adjustment pursuant to Section 7 of the Plan in respect of transactions occurring after the date hereof.

The Stock Option evidenced by this Agreement is a non-statutory option (that is, an option that is not to be treated as a stock option described in subsection (b) of Section 422 of the Code) and is granted to the Participant in connection with the Participant's employment by the Company and its qualifying subsidiaries. For purposes of the immediately preceding sentence, "qualifying subsidiary" means a subsidiary of the Company as to which the Company has a "controlling interest" as described in Treas. Regs. §1.409A-1(b)(5)(iii)(E)(1).

2. Meaning of Certain Terms. Except as otherwise defined herein, all capitalized terms used herein have the same meanings as in the Plan. The following terms have the following meanings:

- (a) "Beneficiary" means, in the event of the Participant's death, the beneficiary named in the written designation (in form acceptable to the Administrator) most recently filed with the Administrator by the Participant prior to the Participant's death and not subsequently revoked, or, if there is no such designated beneficiary, the executor or administrator of the Participant's estate. An effective beneficiary designation will be treated as having been revoked only upon receipt by the Administrator, prior to the Participant's death, of an instrument of revocation in form acceptable to the Administrator.

(b) “Option Holder” means the Participant or, if as of the relevant time the Stock Option has passed to a Beneficiary, the Beneficiary.

3. Vesting; Method of Exercise; Treatment of the Stock Option Upon Cessation of Employment.

(a) Vesting. As used herein with respect to the Stock Option or any portion thereof, the term “vest” means to become exercisable and the term “vested” as applied to any outstanding Stock Option means that the Stock Option is then exercisable, subject in each case to the terms of the Plan. Unless earlier terminated, forfeited, relinquished or expired, and subject to subsection (b) below, the Stock Option shall become vested as to 25% of the total number of shares of Stock subject to the Stock Option on each of the first four anniversaries of the Grant Date, with the number of shares of Stock that vest on any such date being rounded down to the nearest whole share and the Award becoming fully vested on the fourth anniversary of the Grant Date. Notwithstanding the foregoing, shares of Stock subject to the Stock Option shall not vest on any vesting date unless the Participant has remained in continuous Employment from the Grant Date through such vesting date.

(b) Change in Control. If (i) in connection with a Change in Control the Stock Option, to the extent outstanding immediately prior to such Change in Control, is assumed or continued, or a new award is substituted for the Stock Option by the acquiror or survivor (or an affiliate of the acquiror or survivor) in accordance with the provisions of Section 7 of the Plan, and (ii) at any time within the 18-month period following the Change in Control, the Participant’s Employment is terminated by the Company (or its successor) without Cause, the Stock Option (or the award substituted for the Stock Option), to the extent then outstanding but not then vested, will automatically vest in full at the time of such termination.

If in connection with a Change in Control the Stock Option is not assumed or continued, or a new award is not substituted for the Stock Option by the acquiror or survivor (or an affiliate of the acquiror or survivor) in accordance with the provisions of Section 7 of the Plan, the Stock Option, to the extent outstanding immediately prior to such Change in Control but not then vested, will automatically vest in full upon the occurrence of such Change in Control.

(c) Exercise of the Stock Option. No portion of the Stock Option may be exercised until such portion vests. Each election to exercise any vested portion of the Stock Option will be subject to the terms and conditions of the Plan and shall be in writing, signed by the Option Holder (or in such other form as is acceptable to the Administrator). Each such written exercise election must be received by the Company at its principal office or by such other party as the Administrator may prescribe and be accompanied by payment in full as provided in the Plan. The exercise price may be paid (i) by cash or check acceptable to the Administrator, (ii) to the extent permitted by the Administrator, through a broker-assisted

cashless exercise program acceptable to the Administrator, (iii) by such other means, if any, as may be acceptable to the Administrator, or (iv) by any combination of the foregoing permissible forms of payment. In the event that the Stock Option is exercised by a person other than the Participant, the Company will be under no obligation to deliver shares of Stock hereunder unless and until it is satisfied as to the authority of the Option Holder to exercise the Stock Option and compliance with applicable securities laws. The latest date on which the Stock Option or any portion thereof may be exercised will be the 7th anniversary of the Grant Date (the "Final Exercise Date"). If the Stock Option is not exercised by the Final Exercise Date the Stock Option or any remaining portion thereof will thereupon immediately terminate.

(d) Treatment of the Stock Option Upon Cessation of Employment. If the Participant's Employment ceases, the Stock Option, to the extent not already vested will be immediately forfeited, and any vested portion of the Stock Option that is then outstanding will be treated as follows:

(i) Subject to clauses (ii) and (iii) below and Section 4 of this Agreement, the Stock Option, to the extent vested immediately prior to the cessation of the Participant's Employment (after giving effect to any accelerated vesting as provided for herein), will remain exercisable until the earlier of (A) the date which is three months following the date of such cessation of Employment, or (B) the Final Exercise Date, and except to the extent previously exercised as permitted by this Section 3(d)(i) will thereupon immediately terminate.

(ii) Subject to clause (iii) below and Section 4 of this Agreement, the Stock Option, to the extent vested immediately prior to the cessation of the Participant's Employment due to death, will remain exercisable until the earlier of (A) the first anniversary of the Participant's death or (B) the Final Exercise Date, and except to the extent previously exercised as permitted by this Section 3(d)(ii) will thereupon immediately terminate.

(iii) If the Participant's Employment is terminated by the Company and its subsidiaries in connection with an act or failure to act constituting Cause (as the Administrator, in its sole discretion, may determine), or such termination occurs in circumstances that in the determination of the Administrator would have entitled the Company and its subsidiaries to terminate the Participant's Employment for Cause, the Stock Option (whether or not vested) will immediately terminate and be forfeited upon such termination.

4. Forfeiture; Recovery of Compensation.

- (a) The Administrator may cancel, rescind, withhold or otherwise limit or restrict the Stock Option at any time if the Participant is not in compliance with all applicable provisions of this Agreement and the Plan.
- (b) The Stock Option is subject to Section 6(a)(5) of the Plan. The Stock Option (whether or not vested or exercisable) is subject to forfeiture, termination and rescission, and the Participant will be obligated to return to the Company the value received with respect to the Stock Option (including shares of Stock delivered under the Stock Option, and any gain realized on a subsequent sale or disposition of shares), (i) in accordance with any Company clawback or other policy relating to the recovery of incentive compensation, as such policy may be amended and in effect from time to time, or (ii) as otherwise required by law or applicable stock exchange listing standards, including, without limitation, Section 10D of the Securities Exchange Act of 1934, as amended. Nothing in the preceding sentence shall be construed as limiting the general application of Section 9 of this Agreement.

5. Transfer of Stock Option. The Stock Option may not be transferred except as expressly permitted under Section 6(a)(3) of the Plan.

6. Withholding. The exercise of the Stock Option will give rise to “wages” subject to withholding. The Participant expressly acknowledges and agrees that the Participant’s rights hereunder, including the right to be issued shares of Stock upon exercise, are subject to the Participant promptly paying to the Company in cash (or by such other means as may be acceptable to the Administrator in its discretion) all taxes required to be withheld. No shares of Stock will be transferred pursuant to the exercise of the Stock Option unless and until the person exercising the Stock Option has remitted to the Company an amount in cash sufficient to satisfy any federal, state, or local withholding tax requirements, or has made other arrangements satisfactory to the Company with respect to such taxes. The Participant authorizes the Company and its subsidiaries to withhold such amount from any amounts otherwise owed to the Participant, but nothing in this sentence shall be construed as relieving the Participant of any liability for satisfying his or her obligation under the preceding provisions of this Section.

7. Effect on Employment. Neither the grant of the Stock Option, nor the issuance of shares of Stock upon exercise of the Stock Option, shall give the Participant any right to be retained in the employ or service of the Company or its Affiliates, affect the right of the Company or its Affiliates to discharge or discipline such Participant at any time, or affect any right of such Participant to terminate his or her Employment at any time.

8. Stock Ownership Guidelines. The Stock Option and any shares of Stock delivered under the Stock Option are subject to the Company’s Stock Ownership Guidelines, as adopted on May 15, 2012, as such guidelines may be amended, revised or supplemented from time to time (the “Guidelines”). The Participant acknowledges and agrees to comply with the terms and conditions of the Guidelines, including the retention ratios set forth therein.

9. Provisions of the Plan. This Agreement is subject in its entirety to the provisions of the Plan, which are incorporated herein by reference. A copy of the Plan as in effect on the Grant Date has been furnished to the Participant. By accepting the Stock Option, the Participant agrees to be bound by the terms of the Plan and this Agreement. Except as provided herein, in the event of any conflict between the terms of this Agreement and the Plan, the terms of the Plan shall control.

10. Governing Law. This Agreement and all claims or disputes arising out of or based upon this Agreement or relating to the subject matter hereof will be governed by and construed in accordance with the domestic substantive laws of the State of Delaware without giving effect to any choice or conflict of laws provision or rule that would cause the application of the domestic substantive laws of any other jurisdiction.

11. General. For purposes of the Award and any determinations to be made by the Administrator hereunder, the determinations by the Administrator shall be binding upon the Participant and any other person claiming rights to the Award.

The Participant acknowledges and agrees that (i) the signature to this Agreement on behalf of the Company is an electronic signature that will be treated as an original signature for all purposes hereunder and (ii) such electronic signature will be binding against the Company and will create a legally binding agreement when this Agreement is countersigned by the Participant.

**DUNKIN' BRANDS GROUP, INC.**  
**2015 OMNIBUS LONG-TERM INCENTIVE PLAN**

RESTRICTED STOCK UNIT AGREEMENT

This Restricted Stock Unit Agreement (the "Agreement") is made, effective as of the [•]th day of [•], [•] (the "Grant Date"), between Dunkin' Brands Group, Inc., a Delaware corporation (the "Company"), and [•] (the "Participant").

1. Restricted Stock Unit Award. The Participant is hereby awarded, pursuant to the Dunkin' Brands Group, Inc. 2015 Omnibus Long-Term Incentive Plan (as amended from time to time, the "Plan"), and subject to its terms, a Restricted Stock Unit award (the "Award") giving the Participant the conditional right to receive, without payment but subject to the conditions and limitations set forth in this Agreement and in the Plan, [•] shares of Stock, subject to adjustment pursuant to Section 7 of the Plan in respect of transactions occurring after the date hereof.

2. Vesting. Subject to Section 3 below, during the Participant's Employment, the Award, unless earlier terminated, shall become vested as to one-third (1/3rd) of the total number of shares of Stock subject to the Award on each of the first, second and third anniversaries of the Grant Date, with the number of shares of Stock that vest on any such date being rounded down to the nearest whole share and the Award becoming fully vested on the third anniversary of the Grant Date. Notwithstanding the foregoing, shares of Stock subject to the Award shall not vest on any vesting date unless the Participant has remained in continuous Employment through the applicable vesting date. Except as provided in the first paragraph of Section 3 below, if the Participant's Employment ceases for any reason, the Award, to the extent not already vested, will be automatically and immediately forfeited.

3. Change in Control. If (i) in connection with a Change in Control the Award, to the extent outstanding immediately prior to such Change in Control, is assumed or continued, or a new award is substituted for the Award by the acquiror or survivor (or an affiliate of the acquiror or survivor) in accordance with the provisions of Section 7 of the Plan, and (ii) at any time within the 18-month period following the Change in Control, the Participant's Employment is terminated by the Company (or its successor) without Cause, the Award (or the award substituted for the Award), to the extent then outstanding but not then vested, will automatically vest in full at the time of such termination.

If in connection with a Change in Control the Award is not assumed or continued, or a new award is not substituted for the Award by the acquiror or survivor (or an affiliate of the acquiror or survivor) in accordance with the provisions of Section 7 of the Plan, the Award, to the

extent outstanding immediately prior to such Change in Control but not then vested, will automatically vest in full upon the occurrence of such Change in Control.

4. Delivery of Shares. The Company shall, as soon as practicable upon the vesting of any portion of the Award (but in no event later than March 15 of the year following such vesting) effect delivery of the shares of Stock with respect such vested portion to the Participant (or, in the event of the Participant's death, to the Beneficiary). No shares of Stock will be issued pursuant to the Award unless and until all legal requirements applicable to the issuance or transfer of such shares of Stock have been complied with to the satisfaction of the Administrator.

5. Dividends; Other Rights. The Award shall not be interpreted to bestow upon the Participant any equity interest or ownership in the Company or any Affiliate prior to the date on which the Company delivers shares of Stock, if any, to the Participant hereunder. The Participant is not entitled to vote any shares of Stock by reason of the granting of the Award or to receive or be credited with any dividends declared and payable on any share of Stock prior to the date on which such shares of Stock are delivered to the Participant hereunder. The Participant shall have the rights of a shareholder only as to those shares of Stock, if any, that are actually delivered under the Award.

6. Recovery of Compensation.

(a) The Administrator may cancel, rescind, withhold or otherwise limit or restrict the Award at any time if the Participant is not in compliance with all applicable provisions of this Agreement and the Plan.

(b) The Award is subject to Section 6(a)(5) of the Plan. The shares of Stock acquired hereunder are subject to forfeiture, termination and rescission, and the Participant will be obligated to return to the Company the value received with respect to the shares of Stock (including any gain realized on any subsequent sale or disposition of shares) (i) in accordance with any Company clawback or other policy relating to the recovery of incentive compensation, as such policy may be amended and in effect from time to time, or (ii) as otherwise required by law or applicable stock exchange listing standards, including, without limitation, Section 10D of the Securities Exchange Act of 1934, as amended. Nothing in the preceding sentence shall be construed as limiting the general application of Section 10 of this Agreement.

7. Certain Tax Matters.

(a) The Participant expressly acknowledges and agrees that the Participant's rights hereunder, including the right to be issued shares of Stock upon the vesting or settlement of the Award (or any portion thereof), are subject to the Participant's promptly paying, or in respect of any later requirement of withholding being liable promptly to pay at such time as such withholding is due, to the Company in cash (or by such other means as may be acceptable to the Administrator in its discretion) all taxes required to be withheld, if any (the "Withholding Obligation").

(b) By accepting the Award, the Participant hereby acknowledges and agrees that, unless the Administrator provides otherwise prior to a date on which a Withholding Obligation occurs, the Company will hold back whole shares of Stock otherwise deliverable under the Award having a Fair Market Value sufficient to satisfy the Withholding Obligation (but not in excess of the applicable minimum statutory withholding obligations or such greater amount that would not result in adverse accounting consequences to the Company, in the determination of the Administrator), with the Company accepting a payment in cash or by check from the Participant to the extent of any remaining balance of the Withholding Obligation not satisfied by such withholding of shares.

(c) Notwithstanding subsection (b) above, nothing in this Section 7 shall be construed as relieving the Participant of any liability for satisfying his or her obligations under the preceding provisions of this Section and the Participant also authorizes the Company and its subsidiaries to withhold any amounts in respect of the Withholding Obligation from any amounts otherwise owed to the Participant.

8. Nontransferability. The Award may not be transferred except as expressly permitted under Section 6(a)(3) of the Plan.

9. Effect on Employment or Service Rights. Neither the grant of the Award, nor the delivery of shares of Stock under the Award in accordance with the terms of this Agreement, shall give the Participant any right to be retained in the employ or service of the Company or its Affiliates, affect the right of the Company or its Affiliates to discharge or discipline the Participant at any time, or affect any right of the Participant to terminate his or her Employment at any time.

10. Provisions of the Plan. This Agreement is subject in its entirety to the provisions of the Plan, which are incorporated herein by reference. A copy of the Plan as in effect on the Grant Date has been furnished to the Participant. By accepting the Award, the Participant agrees to be bound by the terms of the Plan and this Agreement. Except as provided herein, in the event of any conflict between the terms of this Agreement and the Plan, the terms of the Plan shall control.

11. Governing Law. This Agreement and all claims or disputes arising out of or based upon this Agreement or relating to the subject matter hereof will be governed by and construed in accordance with the domestic substantive laws of the State of Delaware without giving effect to any choice or conflict of laws provision or rule that would cause the application of the domestic substantive laws of any other jurisdiction.

12. Definitions. Initially capitalized terms not otherwise defined herein shall have the meanings provided in the Plan, and, as used herein, the following term shall have the meaning set forth below:

“Beneficiary” means, in the event of the Participant’s death, the beneficiary named in the written designation (in form acceptable to the Administrator) most recently filed with the Administrator by the Participant prior to the Participant’s death and not subsequently revoked, or,

if there is no such designated beneficiary, the executor or administrator of the Participant's estate. An effective beneficiary designation will be treated as having been revoked only upon receipt by the Administrator, prior to the Participant's death, of an instrument of revocation in form acceptable to the Administrator.

14. General. For purposes of the Award and any determinations to be made by the Administrator hereunder, the determinations by the Administrator shall be binding upon the Participant and any other person claiming rights to the Award.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK]

The Participant acknowledges and agrees that (i) the signature to this Agreement on behalf of the Company is an electronic signature that will be treated as an original signature for all purposes hereunder and (ii) such electronic signature will be binding against the Company and will create a legally binding agreement when this Agreement is countersigned by the Participant.

**DUNKIN’ BRANDS GROUP, INC.  
2015 OMNIBUS LONG-TERM INCENTIVE PLAN**

PERFORMANCE STOCK UNIT AGREEMENT

This Performance Stock Unit Agreement (the “Agreement”), is made, effective as of [●], 2017 (the “Grant Date”), between Dunkin’ Brands Group, Inc., a Delaware corporation (the “Company”), and [●] (the “Participant”).

1. Performance Stock Unit Award. The Participant is hereby awarded, pursuant to the Dunkin’ Brands Group, Inc. 2015 Omnibus Long-Term Incentive Plan (as amended from time to time, the “Plan”), and subject to its terms, a Performance Award (the “Award”) consisting of a target number of [●] performance stock units (the “Target Award” and such performance stock units, the “PSUs”). Each PSU represents the conditional right to receive, without payment but subject to the terms, conditions and limitations set forth in this Agreement and in the Plan, one share of Stock, subject to adjustment pursuant to Section 7 of the Plan in respect of transactions occurring after the date hereof. The percentage of the Target Award that may be earned by the Participant will be determined in accordance with Exhibit A hereto.

2. Earned PSUs. Except as otherwise provided in Sections 4(a) and 4(b)(ii), below, the PSUs shall become “Earned PSUs” following the end of the Performance Period to the extent earned in accordance with the performance objectives set forth on Exhibit A (the “Performance Objectives”), subject to the Compensation Committee certifying, in its sole discretion, the achievement of the applicable Performance Objectives.

3. Vesting of Earned PSUs; Termination of Employment.

(a) The Earned PSUs shall vest in full on the Vesting Date, subject to the Participant remaining in continuous Employment through this date. Except as otherwise provided in subsection (b) below or in Section 4(b), if the Participant’s Employment terminates for any reason prior to the Vesting Date, the Award, the PSUs and any Earned PSUs will immediately and automatically terminate and be forfeited upon such termination of Employment with no consideration due to the Participant.

(b) If, prior to the Vesting Date, the Participant’s Employment is terminated by reason of the Participant’s death or by the Company due to the Participant’s Disability, the PSUs shall not terminate upon such termination and instead shall remain outstanding and eligible to become Earned PSUs in accordance with the terms of Exhibit A and to vest on the Vesting Date. The number of Earned PSUs, if any, will be prorated based on the number of the days that have

elapsed in the Performance Period from the first day of the Performance Period to the date of such termination of Employment (but not more than 1,096 days) over 1,096.

#### 4. Change in Control.

(a) If, prior to the Performance Period End Date (as defined in Exhibit A), a Change in Control occurs, to the extent the PSUs are outstanding immediately prior to such Change in Control, the Compensation Committee shall determine the extent to which the Performance Objectives have been met as of the date of such Change in Control as if the Performance Period End Date were the date of such Change in Control and shall determine the number of Earned PSUs, if any. The number of Earned PSUs, if any, shall continue to vest based solely on time and shall vest on the Vesting Date, subject to the Participant remaining in continuous Employment through such date, except as otherwise provided in Section 4(b) below.

(b) (i) If (i) in connection with a Change in Control described in subsection (a) above the Earned PSUs are assumed or continued, or a new award is substituted for the Earned PSUs by the acquiror or survivor (or an affiliate of the acquiror or survivor) in accordance with the provisions of Section 7 of the Plan, (ii) the Participant remains continuously Employed through the date of a Change in Control and, (iii) within the eighteen-month period following a Change in Control and prior to the Vesting Date, the Participant's Employment is terminated by the Company without Cause or the Participant terminates his or her Employment for Good Reason, the Earned PSUs will automatically vest in full upon such termination of Employment.

(ii) If, in connection with a Change in Control described in subsection (a) above, the Earned PSUs are not assumed or continued, or a new award is not substituted for the Earned PSUs by the acquiror or survivor (or an affiliate of the acquiror or survivor) in accordance with the provisions of Section 7 of the Plan, the Earned PSUs will automatically vest in full upon the occurrence of such Change in Control.

(c) In the event a Change in Control occurs following a termination of Employment described in Section 3(b) above and prior to the Performance Period End Date, the PSUs shall become Earned PSUs as provided for in Section 4(a) above and will automatically vest in full upon the occurrence of such Change in Control.

(d) In the event a Change in Control occurs following the Performance Period End Date, the Earned PSUs, to the extent outstanding immediately prior to such Change in Control, will automatically vest in full upon the occurrence of such Change in Control.

5. Delivery of Shares. The Company shall, as soon as practicable upon the vesting of the Earned PSUs (but in no event later than March 15 of the year following the year in which the vesting event occurs) effect delivery of the shares of Stock with respect to such Earned PSUs to the Participant (or, in the event of the Participant's death, to the Beneficiary). No shares of Stock will be issued pursuant to this Agreement unless and until all legal requirements applicable to the issuance or transfer of such shares have been complied with to the satisfaction of the Administrator.

## 6. Dividends; Other Rights.

(a) In the event that a cash dividend is paid with respect to shares of Stock prior to the Vesting Date (or such earlier date that the PSUs or Earned PSUs, as applicable, vest hereunder), on the payment date of any such cash dividend, the number of PSUs held by the Participant shall be increased by that number of PSUs which is equal to (i) the number of PSUs held by the Participant on the record date of the cash dividend multiplied by (ii) the amount of the cash dividend divided by (iii) the Fair Market Value of a share of Stock on the date the dividend is paid. In the event that a stock dividend is paid with respect to shares of Stock prior to the Vesting Date, on the payment date of such stock dividend, the number of PSUs held by the Participant shall be increased by that number of PSUs which is equal to the product of (x) the number of PSUs held by the Participant on the record date of the stock dividend and (y) the per share Stock dividend. Any PSUs that are credited to the Participant under this Section 6(a) shall be treated in the same manner as the PSUs granted under Section 1 of this Agreement and shall only vest and be settled to the extent they become Earned PSUs in accordance with this Agreement and Exhibit A hereto and otherwise satisfy the vesting requirements under this Agreement. To the extent that the PSUs become Earned PSUs in connection with a Change in Control and remain outstanding following such Change in Control, they shall be eligible to receive dividend equivalents consistent with the terms of this Section 6(a).

(b) The Award shall not be interpreted to bestow upon the Participant any equity interest or ownership in the Company or any Affiliate prior to the date on which the Company delivers shares of Stock, if any, to the Participant hereunder. The Participant is not entitled to vote any shares of Stock by reason of the granting of the Award. The Participant shall have the rights of a shareholder only as to those shares of Stock, if any, that are actually delivered under the Award. Except as expressly provided in subsection (a) above, the Participant is not entitled to receive or be credited with any dividends declared and payable on any share of Stock prior to the date on which such shares are delivered to the Participant hereunder.

## 7. Recovery of Compensation.

(a) The Administrator may cancel, rescind, withhold or otherwise limit or restrict the Award at any time if the Participant is not in compliance with all applicable provisions of this Agreement and the Plan.

(b) The Award is subject to Section 6(a)(5) of the Plan. The shares of Stock acquired hereunder are subject to forfeiture, termination and rescission, and the Participant will be obligated to return to the Company the value received with respect to the shares of Stock (including any gain realized on any subsequent sale or disposition of shares) (i) in accordance with any Company clawback or other policy relating to the recovery of incentive compensation, as such policy may be amended and in effect from time to time, or (ii) as otherwise required by law or applicable stock exchange listing standards, including, without limitation, Section 10D of the Securities Exchange Act of 1934, as amended. Nothing in the preceding sentence shall be construed as limiting the general application of Section 11 of this Agreement.

## 8. Certain Tax Matters.

(a) The Participant expressly acknowledges and agrees that the Participant's rights hereunder, including the right to be issued shares of Stock upon the vesting or settlement of the Award (or any portion thereof), are subject to the Participant's promptly paying, or in respect of any later requirement of withholding being liable promptly to pay at such time as such withholding is due, to the Company in cash (or by such other means as may be acceptable to the Administrator in its discretion) all taxes required to be withheld, if any (the "Withholding Obligation").

(b) By accepting the Award, the Participant hereby acknowledges and agrees that, unless the Administrator provides otherwise prior to a date on which a Withholding Obligation occurs, the Company will hold back whole shares of Stock otherwise deliverable under the Award having a Fair Market Value sufficient to satisfy the Withholding Obligation (but not in excess of the applicable minimum statutory withholding obligations or such greater amount that would not result in adverse accounting consequences to the Company, in the determination of the Administrator), with the Company accepting a payment in cash or by check from the Participant to the extent of any remaining balance of the Withholding Obligation not satisfied by such withholding of shares.

(c) Notwithstanding subsection (b) above, nothing in this Section 8 shall be construed as relieving the Participant of any liability for satisfying his or her obligations under the preceding provisions of this Section and the Participant also authorizes the Company and its subsidiaries to withhold any amounts in respect of the Withholding Obligation from any amounts otherwise owed to the Participant.

9. Nontransferability. The Award may not be transferred except as expressly permitted under Section 6(a)(3) of the Plan.

10. Effect on Employment or Service Rights. Neither the grant of the Award, nor the delivery of shares of Stock under the Award in accordance with the terms of this Agreement, shall give the Participant any right to be retained in the employ or service of the Company or its Affiliates, affect the right of the Company or its Affiliates to discharge or discipline the Participant at any time, or affect any right of the Participant to terminate his or her Employment at any time.

11. Provisions of the Plan. This Agreement is subject in its entirety to the provisions of the Plan, which are incorporated herein by reference. A copy of the Plan as in effect on the Grant Date has been furnished to the Participant. By accepting the Award, the Participant agrees to be bound by the terms of the Plan and this Agreement. Except as provided herein, in the event of any conflict between the terms of this Agreement and the Plan, the terms of the Plan shall control.

12. Stock Ownership Guidelines. The Award and any shares of Stock delivered under the Award are subject to the Company's Stock Ownership Guidelines, as adopted on May 15, 2012, as such guidelines may be amended, revised or supplemented from time to time (the "Guidelines"). The Participant acknowledges and agrees to comply with the terms and conditions of the Guidelines, including the retention ratios set forth therein.

13. Required Holding Period. Any shares of Stock delivered under the Award to the Participant (after giving effect to any withholding of shares as contemplated by Section 8(b) above) are subject to a further restriction that the Participant may not sell, transfer, pledge, hypothecate or otherwise dispose of such shares of Stock for a period of one year following the Vesting Date; provided, however, that this restriction shall not apply following a Change in Control or in the event that a Beneficiary holds the shares.

14. Governing Law. This Agreement and all claims or disputes arising out of or based upon this Agreement or relating to the subject matter hereof will be governed by and construed in accordance with the domestic substantive laws of the State of Delaware without giving effect to any choice or conflict of laws provision or rule that would cause the application of the domestic substantive laws of any other jurisdiction.

15. Definitions. Initially capitalized terms not otherwise defined herein shall have the meanings provided in the Plan, and, as used herein, the following terms shall have the meanings set forth below:

(a) “Beneficiary” means, in the event of the Participant’s death, the beneficiary named in the written designation (in form acceptable to the Administrator) most recently filed with the Administrator by the Participant prior to the Participant’s death and not subsequently revoked, or, if there is no such designated beneficiary, the executor or administrator of the Participant’s estate. An effective beneficiary designation will be treated as having been revoked only upon receipt by the Administrator, prior to the Participant’s death, of an instrument of revocation in form acceptable to the Administrator.

(b) “Disability” shall have the meaning ascribed to it in the Company’s long-term disability plan as in effect from time to time, or if no such plan is in effect, permanent and total disability within the meaning of Section 22(e)(3) of the Code, excluding, for purposes of this definition, the last sentence thereof.

(c) “Good Reason” means the occurrence of any of the following:

(i) a material diminution in the nature or scope of the Participant’s responsibilities, duties, authority or status; provided that each of (A) a change in reporting relationships resulting from the direct or indirect control of the Company (or a successor corporation) by another corporation, (B) any diminution of the business of the Company or any of its Affiliates and (C) any sale or transfer of equity, property or other assets of the Company or any of its Affiliates (including any such sale or transfer or any other transaction or series of such transactions that results in a Change in Control) will be deemed not to constitute “Good Reason”;

(ii) relocation of the Participant’s place of employment, without the Participant’s consent, to a location that is more than fifty miles from Canton, Massachusetts; or

(iii) the Company's failure to perform substantially any material term of this Agreement or any employment agreement with the Company or any of its Affiliates to which the Participant is subject;

provided that, if the Participant is subject to an employment, severance-benefit or other similar agreement with the Company or an Affiliate containing a separate definition of "Good Reason", the definition contained in such agreement will apply for purposes of this Agreement for so long as such agreement is in effect. A termination will qualify as a termination for Good Reason only if (1) the Participant gives the Company notice, within ninety days of its first existence or occurrence (without the Participant's consent), of any or any combination of the eligibility conditions specified above; (2) the Company fails to cure the eligibility condition(s) within thirty days of receiving such notice; and (3) the Participant terminates his or her Employment not later than ninety days following the end of such thirty-day period.

16. General. For purposes of the Award and any determinations to be made by the Administrator hereunder, the determinations by the Administrator shall be binding upon the Participant and any other person claiming rights to the Award.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK]

The Participant acknowledges and agrees that (i) the signature to this Agreement on behalf of the Company is an electronic signature that will be treated as an original signature for all purposes hereunder and (ii) such electronic signature will be binding against the Company and will create a legally binding agreement when this Agreement is countersigned by the Participant.

I, Nigel Travis, Chairman and Chief Executive Officer, certify that.

1. I have reviewed this annual report on Form 10-K of Dunkin' Brands Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and the other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal controls over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal controls over financial reporting, or caused such internal controls over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent function):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

AS ADOPTED PURSUANT TO  
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Annual Report of Dunkin' Brands Group, Inc. (the "Company") on Form 10-K for the period ending December 31, 2016 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Paul Carbone, as the Chief Financial Officer of the Company, certify, pursuant to 18 U.S.C. 1350, as adopted pursuant to section 906 of the Sarbanes-Oxley Act of 2002, that, to the best of my knowledge:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and result of operations of the Company.

Date: February 21, 2017

/s/ Paul Carbone
